The Democrats at least picked
hot weather for their convention.

In Kansas City, 5,600,000 bushels
of wheat were received in one day.
That will make a lot of bread.

This is good growing weather,
the corn and beets are coming
along fine and the wheat harvest
is considered better than usual. It's
a busy time of the year on the
farm.

The Democrats present their
state ticket headed by Senator
Frederick Van Nuys and other men
who will be glad to serve you and
administer the affairs of govern-
ment as you like it.

Howard Hughes, millionaire
sportsman and movie producer, not
only made a successful flight to
Paris, but he broke all records in
across-ocean flights. He made the
hop from Bennett field to Paris in
15 hours.

New York city has about 17 1/2
square miles of slums, housing
nearly one-third of its population.
No wonder they have started slum
clearance there. The biggest city
and the richest city in the country
should not tolerate such condi-
tions.

We can't imagine anything much
worse than the tragedy which hap-
pened in New York when the
mother picked up her little baby
to show it to a neighbor in an ad-
joining window. The little tot
wriggled and fell out of the moth-
er's arm, four stories down and
was killed.

The radio programs which have
been carried in this paper for
some time will be discontinued dur-
ing the summer months. Most of
the feature programs are off the air
during the vacation months and
the space devoted to the listing of
the programs can be devoted to
better use in giving news items
and other features of the paper.

The streets over which the state
roads pass are being given their
final surfacing treatment. The
work will require about two weeks
and the improvement will give De-
caturs about three miles of the
finest pavement it has ever had.
Then we will be through with de-
tours and closed streets and the
public will be happy.

Due to the proposed dredging of
the Wabash river which will dump
the flood waters on Bluffton, plans
are being made to build a flood
wall around the municipal plant in
that city. The plant is located
near the river bank and it is ex-
pected that the diversion of the
water from the southeast will
cause a higher level in flood pe-
riods around the utility grounds.
To be on the safe side the Bluff-
ton city officials propose the flood
wall.

Something new in college ad-
ministration is being tried at
Evansville, where the old Metho-
dist institution is being turned
over to the city and will be op-
erated under the supervision of the
municipal government. Committees
have been named representing the
church denomination and the city
and the transfer of the property
is being worked out. Approval
must be obtained from the legis-
lature for such an undertaking
and it will be interesting, as well
as educational to see if such a
municipal activity can be success-
ful.

The death of Associate Justice
Benjamin N. Cardozo removes one
of the finest scholars and jurists
in the country. Justice Cardozo
had a great brain, well trained and
was looked upon as one of the
country's leading citizens. He also
was recognized for the beauty of
his English and the clarity of his
opinions. He was considered a
liberal, but not a fanatic. In Wash-
ington, it was said he was the most
gentle and polite gentleman in the
nation's capital. He was only 66
years of age and was named to the
Supreme Court by former
President Harding.

STATE FAIR TICKET

"BARGAINS":

The customary announcement
has been made of the advance sale
of state fair tickets for 25 cents,
which is half of the regular ad-
mission price. Lieutenant-Governor
Schricker, commissioner of
agriculture and head of the Hoosier
fair, reported that 175,000 tick-
ets will go on sale today through-
out the state. They will be avail-
able through county agents, banks,
secretaries of farm bureaus and
drug stores.

No more tickets will be issued
at half price and those who plan
to visit the fair should take
prompt advantage of the "bargain
sale." The record of former years
indicates that the supply will be
exhausted in a short time. The
object, of course, is to attract a
greater number of people to this
exhibit of Indiana's agricultural,
industrial and cultural progress
during the year. The fair has be-
come an institution which ranks
among the best in the nation.

This year's fair will be open
from Sept. 3 to 9, beginning as
usual on the Saturday prior to
Labor day. The weather seems to
be the only factor which can pre-
vent posting of new attendance
records. Improvement in the qual-
ity and variety of exhibits and
betterment in the equipment for
housing the numerous displays are
effective in creating wider interest
among Hoosiers of all classes. A
large percentage of the urban
population once lived on a farm
and such folk never lose interest
in viewing the blue-ribbon prod-
ucts of agriculture. The exten-
sion of rural electrification has
greatly stimulated the interest of
farm women in modernization of
the farm home through numerous
devices for the comfort and con-
venience of the home.—Indianap-
olis Star.

Letter From Mrs. Busche
88 Morningside Drive
New York City, N. Y.

Dear Friends:

Perhaps by now you would be
interested in knowing that Louise
and I are very nicely located in
an apartment hotel. We have a
living room 12x15, bed room 10x15
with two single beds, bath, two
large clothes closets and a kitchen-
ette; furniture, rugs and curtains,
all nice.

We are on the 9th floor of a
fifteen story building, one of the
newer ones in this community.
Also we are on the edge of a ledge
and just across the street is a very
nice park for children. We look
out to the east over the tree tops
and on down over the eight and
twelve story buildings, and can see
East river, also the World's Fair
grounds. On a clear day we can
see Long Island very well. Since
school didn't begin until this Wed-
nesday we did a lot of sight see-
ing.

I have been in New York once
before but of course things change
here too. But at that I still see
the old grind organs and beggars,
milk wagons and junk buyers. The
garbage is collected by a very
large, white truck and loaded in
from the back and large blades
draw it forward.

We have maid service daily, our
groceries are delivered to the
door, also the milk. I find living
expenses quite high. But I get
a lot of enjoyment in shopping
around and comparing prices as I
do our cooking and dish-washing.
It would be too much of a change
to take a busy farm woman and
set her down in an apartment and
have her stay put.

When I get my breakfast all
over, then I like to sit down and
read until lunch time as that is
one of my home habits. Of course
I can't always do that at home, but
when our mail comes I always take
a few minutes off at least to look
over the Daily Democrat. Have
been receiving it here the third
day after printing. I notice a let-
ter mailed from there in the a.m.
will reach here about 2:00 p.m.,
Eastern Daylight time the follow-
ing day.

I have had several conversations
with some New York women.
There are a lot of benches where-
ever there is shade, so of an af-
ternoon I go down and walk until
I get tired, then sit down and chat.
I have been very much interested
in the children. I am wondering
where they all live and under
what conditions. I expect to visit
some of the slums while here. I
saw some before when here.

Harlem is just full of little black
dolls playing on the streets. I will
enclose a clipping which might ex-
plain some of it. I talked with
two women who come up this way
every afternoon for their children
to play in better and cleaner quar-
ters. They carry drinking water,
milk and a little lunch for them.

To Eliminate Flies
Placing a castor oil plant in a
room tends to drive away the flies.
Many people discourage flies by
placing in convenient places small
saucers containing a mixture of
cream, ground black pepper and
sugar.

Spots on the floor
Spots on the floor, or any very
dirty spots on polished wood, can
be treated with a cloth dipped in
paraffin. This will remove the dirt
and stickiness and leave it clean
and ready for the furniture polish.

STATE

I am a reader of the Decatur Daily Democrat, Decatur, Ind.

Baby cabs are quite plentiful on
that account. There it's up and
down grade so it is a little tire-
some walking. The streets are
some crowded for any scooters or
little vehicles of any kind.

Seems to me folks are so cross
with the children, but I notice all
the people in general are crabby.
Well I think you are tired of
me by now so will say good bye.
