

NON-ITALIANS, JEWS INCLUDED IN NEW ORDERS

Sweeping Changes Made In Italian Racial Programs

Rome, Oct. 7.—(U.P.)—Italy's 43,000,000 people were presented today with a sweeping racial program affecting not only Jews but Italian gentiles.

It was announced that the fascist grand council, in addition to approving a severe program for dealing with Jews:

1—Banned marriages between pure Italians and "non Aryans," defined as "peoples of Semitics, hamitic, negro and other non-Aryan races."

2—Forbidden state employees to marry foreigners, even if the foreigners are "Aryans."

3—Prescribed that marriages between Italians and non-Italians, even if the non-Italians are "Aryans," must be approved in advance by the government.

The severe Jewish program was expected. For Italy's 70,000 Jews, the council adopted a full program including a definition of what constituted a Jew and a conditional offer of Ethiopian immigration for Jews. The condition was that "international Jewry" refrain from showing an "unfriendly" attitude toward fascism.

The council as a basis for its race program first defined what constituted a Jew:

1—A person both of whose parents were Jews.

2—A person born of a Jewish father and a mother who was of foreign nationality.

3—A person who was born of a mixed marriage and who professes the Hebrew religion.

It was specified that a person born of a mixed marriage who had professed another religion than Judaism before October 1, 1937, should not be considered a Jew.

Then the council excluded from the order that certain Jews must leave Italy within six months:

1—Foreign Jews who are more than 65 years of age.

2—Foreign Jews who are married to Italians.

Next it exempted from anti-Jewish discrimination in schools, children of those Italian Jews who:

1—Are children of fathers killed in the Libyan, World, Ethiopian or Spanish civil wars.

2—Are members of families of men who volunteered for service in the wars named.

3—Are children of soldiers decorated for bravery in the wars named.

ed.
4—Are children of persons killed in the fascist revolution.
5—Are children of mutilated invalids of the fascist revolution.
6—Are children of fascists whose names were inscribed in the party rolls before 1922 or who took part in the Gabriele D'Annunzio expedition to Fiume after the war.

7—Are members of families which merit exceptional consideration, the merit to be established by a special commission.

It was prescribed that Italian Jews who were not in the categories mentioned:

1—Can not faithfully become members of the fascist party.

2—Can not become owners or managers of businesses employing more than 100 persons.

3—Can not own more than 50 hectares (123.55 acres) of land.

4—Can not perform military service either in peace time or war time.

petitions, Mr. Custer pointed out. The total building project is \$58,363.00, of which the federal government, through the PWA, has made a grant of \$25,363. The balance, up to \$33,000 will be contributed by Adams County.

When the original petition was made, the figure of \$55,650 was used as an estimate. The PWA increased the total and made a grant of \$25,363.00, instead of \$25,042.50, as listed in the original copy.

Included in the county's share of the construction cost is a contingent fund of about \$2,500, to be used if necessary in making improvements to the present hospital building and to provide for any emergency that might arise during the course of construction.

The maximum amount however, is \$33,000.

Besides the nurses home for which Architect A. M. Strauss of Fort Wayne has drawn plans, repairs and improvements to the main building, including the chimney, windows in the operating room, insulating the roof and making changes to the elevator entrance are proposed. Bids will be received on these alterations and improvements with the general contract.

The proposed nurses home is 87 by 35 feet, two stories, with basement, to be built of brick. It will contain 20 rooms, five of which will be used as an isolation ward for mental and contagious cases.

The county council and the board of county commissioners have selected a site south and a little west of the present building for the nurses home. It is proposed to face the home north, the west end of the building facing High street.

Fights Death Till Cubs Win

John Edward English, Jr.

Death hovers over John Edward English, Jr., 14-year-old Chicago boy who has only one chance in a thousand to live, but Johnny holds on—hoping the Chicago Cubs will win the world series from the Yanks. Johnny—he doesn't know that doctors regard the fact that he still is alive a miracle—received his biggest thrill when Bill Jurgens and Rip Collins, popular Cub players, presented him with autographed baseballs from both teams. Johnny is suffering from neuroma, a form of cancer which follows along a nerve. Its action is lightning fast and usually its victims live but from a few weeks to three months.

of commissioners are unanimous in the effort to build the nurses home. They have issued joint statements explaining the cost, proposed bond issue and the need for such an addition.

Final determination in the construction of the building will not be known until the legal requirements relative to the bond issues are fulfilled and action of the state board of tax commissioners is taken.
