

## State GOP Leaders Confer With Dewey

### Train Stops Briefly At Hoosier Capital

Indianapolis, Sept. 27. — (UP) — Gov. Thomas E. Dewey, Republican presidential nominee, conferred in a closed session aboard his campaign train with Indiana party leaders at noon today during a brief stop en route back to Albany, N. Y.

Dewey's arrival had not been announced and only some 150 Republicans were present at the station, although a crowd of onlookers gathered quickly when word got out that the governor was in town.

More than a score of party leaders went aboard the train to a special car and waited several minutes until Dewey finished his breakfast. Shades on his car were drawn.

When he came to the car where the local leaders were seated, he said, "well, this looks like a convention." He shook hands around and then got off the car to greet others outside. He made no address.

At the conference, newspapermen were told that "this is all off the record" and were asked to leave after Dewey posed for photographers.

The governor was dressed nat-

tally in a brown suit, and when his train pulled out, he waved and said, "goodbye to you all."

Newsmen traveling with Dewey said that he had been up late and slept when his train passed through Mattoon, Ill., and Terre Haute, Ind., where stops were made and crowds of several hundred persons had gathered. An aide explained to the crowds that the governor was sleeping.

Hoosier Republicans who greeted Dewey included state chairman John Lauer, Marion county chairman H. Tyndall, national committeeman Henry E. Ostrom, Mayor Robt. Ernest M. Morris, state treasurer James Givens and state committee treasurer James Costin.

Ora Casaway of Brazil and Harvey Bell, international vice president of the United Mine Workers union, also boarded the campaign train here.

opposing Lt. Gen. George S. Patton's 3rd army.

Frankfurt, which lies in the rear of German positions on the American 1st army front, also was bombed effectively by the night raiders, two of which were lost in the double attack.

### GERMANS SEEK

(Continued From Page 1)

The Russian early morning war bulletin indicated that the Germans in Latvia were trying with little success to fight a screening action on the approaches to Riga to cover the withdrawal of their main forces into western Latvia and down through Lithuania into East Prussia.

Armored units of the Soviet 3rd Baltic army drove down across the Estonian border along the shores of the Gulf of Riga, clearing a 14 mile stretch of the coast. The advance overran the little seaport of Ainazi and on beyond to Salacgriva and Sviecims, the latter 48 miles north of Riga.

Farther inland, the 3rd and 2nd Baltic armies combined in a powerful assault on the fortified town of Cesis, astride the Pskov-Riga railway line 42 miles northeast of the capital. Cesis fell after a savage, all-day battle in which the Germans threw strong reinforcements, including a crack SS motorized division rushed up from Germany, against the Soviets.

### BATTERED REMNANTS

(Continued From Page 1)

it on a 10-mile front.

A field dispatch filed at 11 a. m. said army officials announced that the situation in the salient was "further improved" with both its east and west walls extended and strengthened.

The dispatch revealed that three-quarters of the tanks of a panzer brigade which tried earlier to smash across the corridor had been knocked out.

A detailed account of the Arnhem road bridge—the prize for which the airborne forces were dropped 10 days ago when the sky army descended on Holland—was intact or whether the Germans had blown it up.

Meanwhile, the 2nd army, supplemented by American airborne forces, was established in substantial force on the south bank of the Neder Rhine roughly opposite Arnhem. Presumably they took the remnants of the 1st airborne division under their wing.

The Nazis claimed 6,450 prisoners from the 1st division, and said 1,500 of the British were killed.

a total of 7,950. If the figures were accurate, they would indicate that about 1,000 escaped. But it should be emphasized that this is the roughest kind of approximation and based on enemy claims.

The withdrawal announcement emphasized that the men in the red berets contributed much to the Allied campaign in Holland, although their primary objective was denied them.

They enabled other Allied forces to hold the Waal-rhine bridge by pinning down some of Adolf Hitler's best SS elite guard troops. They also prevented the Germans north of Nijmegen from moving south to support their comrades being pressed hard by the Allies northeast of Antwerp, spokesmen pointed out.

The descent on the Arnhem area began auspiciously with an excellent drop, but bad weather soon plagued the essential supply missions. Planes had great difficulty in dropping adequate supplies and reinforcements at the proper time and place, leaving the Red Devils largely dependent on the supplies they carried.

When a 2nd army relief column's forward elements reached the south bank after a heavy fight, they ferried small amounts of supplies across the river by "ducks" or amphibious trucks. But that was not sufficient for

the men being hammered day and night by artillery and fire.

By throwing in some of their first finest SS panzer troops, the Nazis prevented the relief column from crossing the river.

### Urges Schools Aid Navy Day Observance

Dr. Clement T. Malan, state superintendent of public instruction, has asked all school administrators to cooperate in the navy day celebration, October 27, and to urge high school students to enter the fourth annual essay contest on "Why Our Navy Guarantees Freedom," sponsored by the navy league of the United States in cooperation with the navy personnel of the Indiana area and the state department of education. "Navy Day is especially important in these times when we look to the navy as our spearhead of victory to protect our lives, our homes, and our property," Dr. Malan says.

Each principal of a public, private, parochial or denominational high school may submit two winning essays, one by a boy and one by a girl from his school. Prizes of \$100, \$50 and \$25 war bonds will be awarded the three boys and the three girls who win in the state. Those six students will receive special recognition at the navy day luncheon in Indianapolis. The con-

test closes October 15. Howard C. Caldwell, Indianapolis, is chairman of the state navy day committee.

### Decatur Fire Chief Attends Convention

City fire chief Harry Stults went to Fort Wayne today to attend a three-day convention of Indiana fire chiefs.

Paul Feiber, chief of the Central Soya company's industrial department and president of the Northwestern Indiana volunteer and industrial firemen's association, is also attending. Mayor John Stults and Joe Brennen, a member of the city council, are planning to attend the program and banquet tomorrow.

### Seek Entries For Riding Horse Show

Roy Price, chairman of the riding horse show that will be held at 7:30 p. m. on the school playgrounds in Berne on Friday, October 6, states that the committee will appreciate having entries made before the show. Entries can be made with any member of the committee. The committee is Roy Price, chairman, Decatur; Glen Gifford, Berne; Menno Elcher, Berne; Dr. J. O. R. Campbell, Geneva.

A great deal of interest in this event is being shown by the own-

ers of riding horses and ponies. From the standpoint of entries and size of crowds, it is anticipated that the riding horse show will be one of the outstanding events on the week's program, which includes 4-H club showing of girls' projects, dairy cows and heifers, pigs, suckling colt sow, and horse pulling contest.

### Road To Berlin
