The Wabash river went out of its banks over the weekend as the result of the rains and the lowlands in the south part of the county are now covered with ice.

In the days of sailing ships, men-of-war carrying more than 100 guns were called "first rates." Those in the "second rate" had 90 or more, "third rates" boasted about 74, and "fourth rates" usually had 56. Though the ships have vanished, the expressions, their nautical meanings forgotten, live on in our language.

The gain of life is not measured by how much a man can obtain, but by what he seeks to obtain. Blessed are they who rejoice in the power of prayer, they draw very near to God.
