"Pronto Pups"

Weiner Done in the Bun.

- ◆ Now available to Hoosiers
- ◆ Exclusive County Franchises for this New Food Sensation.

In making the Pronto Pup, a meat skewer is inserted into the weiner which is then inserted into a specially prepared batter. Then the batter covered weiner is placed in hot oil, held momentarily until seared, then released. It will submerge, then rise to the top and cook for 2½ minutes at which time it is removed and served either plain or lathered with mustard.

Because of the nominal investment required this product is ideal for either starting a new business or for a feature item for already established business.

We are looking for persons who are financially responsible and with the ability to promote this item in each county. For further information write stating your qualifications.

H. F. Vollmer

or

M. D. Welch,

450 Rose Lane,
Ft. Wayne, Ind.

The committee slashed a requested \$19,284,788 (M) for the state department's international information service and cultural relations program to \$10,000,000 (M) despite a plea by secretary James F. Byrnes that it was important to future understanding between nations.

But it heeded FBI director J. Edgar Hoover's warning that the postwar crime wave is alarming and voted the FBI the entire \$28,700,000 (M) it requested. It even suggested that the FBI should add additional funds if the crime wave grows.

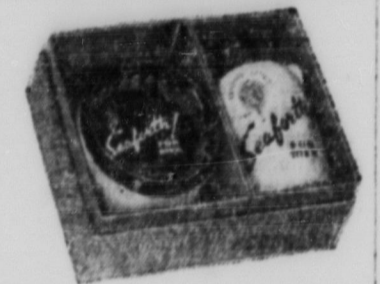

The committee cut only \$1,608,800 from the justice department requests, but said it thought the anti-trust division was "gradually losing its perspective" in that field. It said cases of "misguided investigations and prosecution of the little business man" have been brought to its attention.

RUSSIAN ENVOY

(Continued From Page One)

In addition to Poland, there will be Russia's demand that the council reverse itself and declare its action on the Iranian case "incorrect and illegal."

Both the United States and Britain will oppose the Soviet move unless it is drastically modified. They will insist at least on a report from both Iran and Russia on May 6 that the Russians have carried out their promise to remove their troops from Iran by that date.

Record Low Vote In Illinois Predicted

Little Interest In Off-Year Primary

Chicago, April 9—(UP)—Illinois voted in the nation's first off-year primary election today with one of the lightest votes in state history expected as a result of a drab lack of contests.

Fewer than a third of approximately 4,400,000 voters were expected to go to the polls, threatening the record low of 1,490,000 ballots cast two years ago, in the primary election, and throwing doubt on the election's importance as test of party strength.

Nominees for two state offices, all of Illinois 26 seats in the national House of representatives, all seats in the state's House of representatives, and 27 of its 51 state senators were to be selected, in addition to county and party office-seekers.

The statewide contest was limited to choosing a Republican nominee for the post of state treasurer and congressman-at-large. The state constitution limits the state treasurer's tenure of office to a single term, and the GOP-endorsed candidate, a former secretary of state, was opposed by three hopefuls backing the party organization.

The endorsed Republican candidate for congressman-at-large also faced opposition. William G. Stratton, a navy lieutenant en route home from Okinawa for discharge had limited opposition from three candidates.

The Democratic party's candidates for the state offices had no opposition, nor had the incumbent congressman-at-large, Mrs. Emily Taft Douglas.

Nomination of congressmen from the state's 25 districts was contested in eight of the Chicago-Cook county districts and four in the remainder of the state. Biggest single fight was over the place of the veteran Democratic congressman, Adolph J. Sabath, Dean of the House of representatives, who was seeking his 21st term of office.

Although contested, incumbents challenged in the other districts were not believed threatened by upsets.

Candidate Arrested

Chicago, April 9—(UP)—Charles Anderson, Jr., 38, Republican congressional candidate in today's primary election, was held today on a charge of assault with intent to commit murder in the shooting of a 15-year-old boy.

Anderson was arrested last night after shooting and seriously wounding Grover McLean. He told police he thought the boy was tampering with his automobile, which was parked in front of the Anderson home.

Police found the wounded boy after receiving an anonymous telephone call. A companion, Charles Hutchison, 15, told them that he, young McLean and another boy were tying the bumpers of two automobiles together as a prank.

A man appeared at the entrance of the house and fired as they ran, the youth said. McLean was hit twice, and hospital attendants said he was in serious condition.

Dismiss Libel Suit Against Columnist

Chicago, April 9—(UP)—District Judge Elwyn R. Shaw dismissed a \$6,000,000 libel suit brought by the International Latex Corp. and its president, Abraham M. Spanel, against columnist Westbrook Pegler, King Features Syndicate and the Illinois Publishing and Printing Co., publishers of the Chicago Herald-American.

In dismissing the suit yesterday, Shaw said the complaints did not "state a cause of action as a matter of law." Spanel had claimed that Pegler implied that the Latex Corp. is communist controlled.

In addition to traveling in every state in the union, Dr. Jones has also visited Mexico, Guatemala, Peru, British West Indies and Puerto Rico. He also served for a time as a missionary in Japan.

Army Poll-Watchers Are Named In Japan

General Election By Japs Wednesday

Tokyo, April 9—(UP)—Teams of U. S. army poll-watchers were established by Gen. Douglas MacArthur today to prevent bribery, vote thefts and coercion in Wednesday's Japanese general election.

The supreme commander's decision to send American military squads to the polling places was part of his policy to assure a "free and untrammelled expression" of the Japanese people's will for the first time in many years.

The poll-watching teams were warned by headquarters, however, that "the charge that this election is being conducted under the threat of Yankee bayonets must not be permitted to arise."

Orders of the teams instructed them to watch particularly for "police interference with campaign activity, efforts of landlords and employers to exert economic power to influence voters, efforts of political machines to bribe voters, excessive campaign expenditures and dishonest tabulations of votes."

MacArthur's action followed, but was not caused by, yesterday's disorders, when Premier Baron Ki-Juro Shidehara was mauled when he attempted to walk out of a conference with Japanese popular front leaders.

Linotype Operator Kills Four Of Family

Des Moines, Ia., April 9—(UP)—William Irwin, 41, was held without bond on first degree murder charges today after he hacked his wife, mother, and two sons to death with a pickaxe.

Irwin, a linotype operator for the Des Moines Register and Tribune, begged police to kill him and insisted that "God ordered me to kill my family."

Decrease Reported In Orders To G. E.

Schenectady, N. Y., April 19—Orders received by the General Electric company during the first quarter of 1946 amounted to \$111,775,000 compared with \$355,466,000 for the corresponding period of 1945, a decrease of 72 percent, president Charles E. Wilson announced today.

Strike Troubles In Indiana Are Eased

Only Eight Plants Idled By Strikes

Indianapolis, April 9—(UP)—Indiana's tension-whipped labor situation of a few weeks ago has eased to a point where it scarcely causes more than a ripple in a millpond.

At the desk of the state's labor difficulties, upwards of 150,000 workers were idled directly by strikes. State labor commissioner Charles Kern estimated that approximately 25 percent of Indiana's production from a monetary standpoint was halted.

Now only eight strikes, involving some 8,000 workers, are listed on the state labor department's docket. Another 7,500 soft coal miners also are out.

In fact, the department's eight-man conciliation staff, almost hopelessly engulfed by walkouts six weeks ago, has reversed its field so that it moves into potential trouble-spots before a strike actually starts.

Kern said this type of conciliation frequently forestalls the threatened work stoppage.

Of the eight plant strikes still in progress, only three—the Allis-Chalmers at LaPorte, the Phelps-Dodge at Fort Wayne and the Rex Manufacturing company at Connersville—involve more than 700 employees.

Kern believes that his conciliators are on the point of settling the Connersville strike. He said he anticipates a settlement "any day."

The state's most prolonged strike at this time is the Hicks Body walkout at Lebanon. It began last November. Minor violence flared several times when non-union members tried to crash picket-lines of the AFL federal union.

Currently, the union has withdrawn its pickets, the company has agreed not to attempt to operate the plant until the strike is settled and Kern anticipates an "early ending" of the dispute.

All this doesn't mean that the state's labor picture is absolutely "rosy," of course, although dozens of Indiana strikes have been settled since the first of the year.

Kern said he anticipates a few additional walkouts, in the rubber and refrigeration industries, this week or next. Most of them will be minor from the point of statewide production stoppage.

"Things are reasonably calm," he added, "and I believe they'll stay that way for some time—I hope."

CONGRESSMEN

(Continued From Page One)

their campaigns for re-election. Committee members said the army wanted to keep the draft act on the books but would be willing to accept a moratorium on inductions for from four to six months—the elections are Nov. 5—if, the compromise gave the president authority to renew inductions after the suspension period if volunteer enlistments failed to meet army manpower needs.

House Democratic whip John J. Sparkman, of Alabama, said he was "certain" the army would accept the compromise. Sparkman has been leading the fight in committee for the full year's draft extension requested by the army.

The recruiting program would run six months until Nov. 15. If this plus the higher pay failed to attract sufficient volunteers, the president could declare that the national emergency existed and invoke the draft for one year until Nov. 15, 1947.

President Truman and representatives of the army and navy

repeatedly have requested a one-year extension of conscription. They argue that it is the only way to keep the nation strong, and maintain the peace.

Army chief of staff Gen. Dwight D. Eisenhower appeared before the senate committee yesterday in a last-minute plea for draft extension.

Eisenhower conceded that 18-year-olds were not good policemen. At the same time, he said they should not be excluded from any draft.

Indiana Youth Is Cleared Of Murder

Continue Hunt For St. Louis Slayer

St. Louis, Apr. 9—(UP)—A Charlestown, Ind., youth who allegedly wrote her a threatening letter was cleared today in the murder of Alice Shryock, 16-year-old bobby-soxer.

Clarence (Buddy) Snelling, 19, was absolved after questioning by Indiana state police. Authorities said he established the fact that he was in Charlestown during the weekend when the girl was shot and killed near here. Her semi-nude body was found Saturday on a wooded hillside six miles from her suburban St. Louis home.

Snelling, who had dated the girl before she and her family moved here from Charlestown, was questioned after the victim's father, John Shryock, said the youth had threatened her in a letter.

Shryock, a carpenter and contractor, told a coroner's jury that Snelling "wanted to marry Alice, but I wouldn't let him." The threatening letter followed, he said.

"I didn't see it," he said, "but I know she got this letter."

One of the letters Alice received from Snelling addressed her as his "wife," the father said. Sheriff Arthur Mosley said the victim, who liked swing music and carried pictures of several servicemen in her purse, may have been killed Thursday in a vacant lot next to her home. It was there her shoes and a photograph she carried were found. Mosley believed the girl's body may have been driven to the hillside where it was found.

The father said he had reprimanded his daughter Wednesday over visiting taverns, and an argument ensued. She went to a movie against his wishes Wednesday night, he said, and never was seen again.

OPA Settlements \$6,044.72 In Week

Indianapolis, April 9—(UP)—The total of treble damage suits for ceiling price violations for the week ending March 29 was \$6,044.72, Indiana district OPA enforcement attorney Addison M. Dowling announced today.

Settlements by sections of the enforcement division during the week were as follows: Food, \$417.50; apparel and industrial goods, \$25.00; and rent and durable goods, \$5,602.22.

REELECT DIRECTORS

(Continued From Page One)

Friday, for the afternoon and evening sessions, more than 160 members visited the canteen, Mr. Dorwin said. The table tennis and checker tournaments are being conducted now, with a large number of contestants. Selected reading is also offered the members and the American Legion has provided three dances for the bobby soxers during the past months, Mr. Dorwin stated.

Steve Everhart, scoutmaster, reported on Boy Scout and Cub activities, stating that 85 boys were enrolled in scouting and 100 in the Cub packs. He stated that plans were being made to

take the Scouts to Big Island at Rome City this summer and that the annual trip to Beaver Island, Mich., would be resumed this year. The scouts will participate in the 4-H club show in August, Mr. Everhart said.

Mrs. Colin Finlayson, chairman of the Girl Scout council, reported that 183 girls were members of the various troops. Plans are being made to conduct the day camps again this summer, she stated. The Girl Scouts have given assistance in civic and charitable drives and collected 2,000 cans of fruit and vegetables in the recent drive, the chairman explained.

Mr. Pumphrey presided at the meeting and about 25 members attended.
