

# SOCIETY

## BETTY JANE MILLER ENGAGED TO WED

Miss Betty Jane Miller, youngest daughter of Mr. and Mrs. Harry Miller, of route 1, will become the bride of Roger L. Singleton, eldest son of Mr. and Mrs. Frank Singleton, route 2, on Sunday, February 8, at six o'clock in the Mt. Pleasant Methodist church. Miss Erma Morrison and Albert Selking will attend the couple.

The Rev. C. C. Conn will read the double ring ceremony.

## PSI IOTA XI HAS BUSINESS MEETING

Psi Iota Xi sorority met last evening at the home of Mrs. Malcolm Locke for their regular business meeting, with Mrs. Eugene Durkin, president, presiding.

A report of the recent province convention was given by the delegates and announcement was made that the next social meeting will be a chili supper at the home of Mrs. Ned Johnson on February 18.

Following the meeting, Mrs. Izora Roop gave a paper products demonstration.

## GIRL SCOUT LEADERS MEETING IS HELD

Twenty-two ladies met at the junior-senior high school Wednesday afternoon for the Girl Scout leaders meeting, with Mrs. R. C. Hersh, president, presiding.

Mrs. H. L. Lankenau gave a short talk concerning the Juliette Low fund. An interesting topic "Why Sing" was given by Mrs. W. J. Krick. Mrs. Hamilton Putnam led in the folk dancing and stressed the importance of working it into the troop meetings. Mrs. Kenneth Small was elected the leaders representative to the council.

A committee, consisting of Mrs. Gerald Strickler, Mrs. Everett Faulkner and Mrs. Robert Monnier, was appointed to make arrangements to entertain the council.

Lovely refreshments were later served by Mrs. R. Monnier, Mrs. Don Cochran and Mrs. Alva Baker.

## BPW CLUB MEETS LAST EVENING

The Business and Professional Women's club met last evening at Swearingen's dining room for a six thirty dinner. The Valentine theme was carried out in the table decorations. The centerpieces were bouquets of white carnations, interspersed with red hearts. Small red hearts and red nut cups marked each place.

After the dinner, Robert Heller addressed the group on legislation, tracing the history of the present school lunch law, and the change in the employee compensation law.

During the business meeting, conducted by the president, Miss Joan Wemhoff, a report of the benefit bridge was given and announcement was made that a silent auction sale will be conducted at next month's meeting. A quiz on the constitution will also be held.

Mrs. Marjorie Rentz was chairman of the committee, assisted by Mrs. Lorene Black, Mrs. Mary Katherine Teeple, Mrs. Helen Barnett and Miss Kathryn Weidner.

## C. L. OF C. PLANS POT LUCK SUPPER

The Catholic Ladies of Columbia will hold a pot luck supper at the C. L. of C. hall next Tuesday evening at six thirty o'clock. Members are asked to note the change in meeting date from the usual third Tuesday of the month.

Meat and rolls for the dinner will be provided by the committee, which is as follows: Mrs. Herman Geimer, Mrs. Leo Alberding, Mrs. Clem Lengerich, Mary Ellen Geimer, Mildred Berling, Mary and Rose Coffee, Rita Lengerich, Marie Schmitt, Clara Lengerich, Agnes Lichtle, Gladys Coffee, Blanche Ervin, Dorothy Clouser, Jean Geimer, Mildred Geimer and Marie Studebaker.

## KIRKLAND TOWNSHIP P. T. A. IN MEETING

The Kirkland Township Parent-Teachers association met Monday evening at the high school.

Mrs. Walter Egley, president, opened the meeting by leading the group in singing "Faith of Our Fathers," followed by prayer by the Rev. Russell Weller. The third and fourth grade pupils presented several skits and the seventh and eighth grade pupils displayed their school work.

Miss Arlene Freels played a piano solo, after which Walter Nessel, Allen county probation officer, spoke on "Parent Neglect." He also displayed several articles often found on delinquent children. A movie showing the change of a delinquent boy was also presented.

Refreshments were served by the committee during the social hour. The next meeting will be held March 2, with Hilliard Gates as the guest speaker.

The meeting of the associate chapter of Tri Kappa sorority, scheduled for February 10, has been postponed to Tuesday, February 17.

## CLUB CALENDAR

Society Deadline, 11 A. M.  
Phones 1000 — 1001

### Thursday

Pleasant Dale Ladies Aid society, church.

Magley Ladies Aid society, parsonage, all day.

So Cha Rea, Mrs. Fred Schulte, 7:30 p.m.

Kirkland W. C. T. U. and Pleasant Dale Ladies Aid, church, all day.

Eveready class meeting, postponed.

Aeolian choir rehearsal, high school, 7:30 p.m.

Heidelberg class of Zion Evangelical and Reformed church, church, 7:30 p.m.

Ladies Aid society of First Christian church, Mrs. Dan Roop, 7:30 p.m.

Ladies Aid society of Union Chapel, Mrs. Harve Koos, all day.

Ladies Fellowship of Missionary church, Mrs. Burt Ralston, 7 p.m.

### Friday

W. M. A. of Nutman Avenue U. B. church, Mrs. Doris Troutner, 7:30 p.m.

Lincoln P. T. A. founders day banquet, K. of P. home, 6:30 p.m.

Ave Maria Study club, Mrs. William Bowers, 8 p.m.

### Saturday

Eastern Star rummage sale, Masonic hall, 9 a.m.

### Sunday

Ruralistic Study club, Mrs. Louis Staub, 6:30 p.m.

### Monday

Ladies Firemen's auxiliary, Mrs. Vernon Hill, 7:30 p.m.

### Tuesday

Dutiful Daughters class of the Bethany Evangelical U. B. church, Mrs. Walter Butcher, 7:30 p.m.

Associate chapter of Tri Kappa, postponed.

Dorcas class of Bethany Evangelical U. B. church, church, 7 p.m.

C. L. of C. Pot Luck Supper, C. L. of P. Hall, 6:30 p.m.

Monmouth P. T. A. Founders day dinner, 6:30 p.m.

The Dorcas class of the Bethany Evangelical U. B. church, church, 7 p.m.

The Ladies Firemen's auxiliary will meet at the home of Mrs. Vernon Hill Monday evening at seven thirty o'clock.

The Berne high school junior class play, "A Lucky Penny," will be given Saturday evening at seven forty five o'clock. The play was postponed from Tuesday night, the original date, because of illness among members of the cast.

Dismissed: Mrs. Raymond Teeple and daughter, Tocsin; Mrs. D. M. Hensley, 609 West Madison street.

Divorce, Alimony Awarded by Court

Alice Schafer was awarded a divorce from Frederic W. Schafer in Adams circuit court Wednesday afternoon by Judge Earl B. Adams. She was awarded alimony in the sum of \$20,150.

Mrs. Finley Duff Dies In Michigan

Berne, Feb. 5 — Word was received here of the death Tuesday of Mrs. Finley Duff, 60, of Buckley, Mich., who died at the Traverse City hospital. Mrs. Duff was the former Ethel Runyon and was a native of this community. Funeral services will be held at Buckley at 2 p.m. Saturday. Surviving are a brother, Harry Runyon, Buckley; a sister, Mrs. Rufus Boze, Berne; a half-brother, Eugene Runyon, Decatur and a sister-in-law, Mrs. Courtney Runyon, of Montpelier.

The state of Connecticut, a great manufacturing center, boasts, also, of its agricultural interests, and points especially to a superior brand of tobacco it produces.

Tickets are on sale at the Adams county auto license branches for the Lincoln day dinner, to be held here February 11 under auspices of the Adams county Republican central committee. Frank Millie, state treasurer, will be the speaker.

## Taking Radioactive Iodine Is As Simple As Drinking Water

(Editor's note—This is the fourth of a series on the latest cancer research.)

BY PAUL F. ELLIS

(Copyright, 1948 by United Press) New York, Feb. 5.—(UP)—Taking a dose of radioactive iodine to treat a thyroid cancer is as simple as drinking a glass of water.

In fact, that is what the patient does—drinks a glass of water. This water, however, contains a substance that is throwing off penetrating radiation.

Use of this substance, radioactive iodine, is breaking out of the experimental state at New York's Memorial hospital for cancer and allied diseases, which is cooperating with Massachusetts General hospital. Radioactive iodine is now being recognized as a routine treatment for certain types of thyroid cancer, particularly those types of cancer where the original cancerous condition has spread to other parts of the body, and will collect iodine. Such distant cancers are called metastases.

In some severe cases radioactive iodine comes into use.

A patient suffering from thyroid cancer—one who is likely to benefit by the new treatment—is carefully prepared, before he receives his first glass of water containing radioactive iodine. Extensive X-ray pictures are taken to determine where the thyroid cancer may have spread. He is placed on a diet of low iodine content. This prepares the way for small tracer doses of radioactive iodine. They are given to determine whether the distant thyroid cancerous growths will pick up the radioactive iodine.

Some types of thyroid cancerous tissue will collect the iodine; others will not.

No matter where in the body thyroid cancer has spread, if it still picks up radioactive iodine, it can be detected by the Geiger

counter, a delicate instrument that detects and records radio activity.

When it has been determined that a patient's thyroid cancer will collect iodine, the Memorial scientists move quickly to administer the radioactive substance. The radioactive iodine is in a distilled water solution, usually about three ounces. Technicians use long tongs to lift it out of a lead container. They must guard against exposure to the radioactive material because, tragically, sometimes, many of the agents which are used in treating cancer are also, under certain circumstances, able to cause cancer.

Expert hands carry the radioactive iodine in its lead container to the bedside of the patient. It is again removed by the use of long tongs. The patient takes the glass out of the tongs and drinks the solution down. The glass is then rinsed two or three times and the patient drinks the rinsings. The iodine works fast, sometimes reaching the thyroid tissues in 20 minutes or less.

The patient realizes what he is drinking but rarely does he show any reaction, except that he knows medical science is trying to cure him. The solution with its radioactive iodine tastes like distilled water.

The radioactive substance travels through the blood stream, but not all of it goes to the thyroid tissues. Much of it is excreted in the urine. In the early days, when radioactive iodine was scarce, the separated excretion in the urine was readministered.

Eventually, most all of the radioactive material is excreted from the body. In many instances it is still "hot," that is, still radioactive, a substance that cannot be poured down a drain.

The procedure is to put it back into lead containers and leave it there until its intensity decays.

Mrs. Dean Byerly, of 128 South Third street, will leave tonight for Baton Rouge, La., where she will visit her daughter. She also plans to attend the Mardi Gras in New Orleans on February 10.

## Cite Black Market In Farm Machinery

### Manufacturers To Present Testimony

Chicago, Feb. 5.—(UP)—Farm machinery manufacturers said today that despite their efforts to wipe it out, there is a flourishing black market in tractors, combines and other urgently needed farm equipment.

Manufacturers said black market sales usually are made by farmers and individuals over whom they have no control. Many farmers, they said, have sold slightly used tractors to other farmers at prices \$1,000 or more above the manufacturer's list price.

The farm equipment makers said they would tell their story of the black market to the house agriculture committee in Washington next week. Rep. Clifford Hope, R., Kans., committee chairman, announced yesterday that the committee would begin public hearings on the farm black market Feb. 10.

Many manufacturers said they already had received invitations from Hope to appear for testimony at the hearings. They said they would tell the committee that the only ultimate solution of the black market problem is increased production to satisfy the huge demand.

When that would be, they said, was anybody's guess.

Most of the big companies, including International Harvester, Allis Chalmers, Caterpillar Tractor and J. I. Case, are expanding their production facilities. International Harvester opened its Louisville, Ky., tractor plant last fall, and expects it to reach a maximum production of 50,000 units per year next fall.

Caterpillar spokesmen said the company is building two big new plants at Peoria, Ill., in a \$30,000,000 expansion program which is expected to "greatly increase" production next year.

Manufacturers said the shortage of farm machinery is caused by many factors. During the war they were occupied almost entirely with war production. In 1946 several of the major companies, including Allis Chalmers and J. I. Case, were beset by strikes.

Steel shortages have been a contributing factor, spokesmen said. Nevertheless, most of the farm implement plants are running at capacity. Still, they have not eased the tight supply problem.

A spokesman for International Harvester said that the company's dealers in all sections of the country had reported individuals engaging in black market operations.

An official of Deere & Co. at Moline, Ill., said the black market moves from south to north with the harvest seasons. When southern farmers have their crops in, he said, they often are tempted to sell their equipment to northern farmers in desperate need of machinery to harvest their crops.

Associate reverently, and as much as you can, with your loftiest thoughts. — Thoreau.

APPOINTMENT OF ADMINISTRATOR ESTATE NO. 4409

Notice is hereby given, That the undersigned has been appointed Administrator of the estate of Moses Myers late of Adams County, deceased. The estate is probably solvent.
