Pennsylvania has the second largest rural population of all the states and its agriculture represents a larger capital investment than either its mining or manufacture of primary metals.

Great numbers of rabbits used by hospitals and laboratories for scientific operation are shipped in special metal containers with comfort and food allowance, according to the Railway Express.

Ben Gerke Herd Is Leader For Month

Herd Qualifies For Gold Medal Award

The registered Holstein herd of Ben Gerke leads the testing association for the month of September. "This is a fine herd of Holstein cattle, which speaks well of its owner not only from a feeding standpoint, but as a breeding standpoint. Ben is doing a real job up there in the northeast corner of the county," the county tester stated.

The Gerke herd has accomplished during the just completed testing year one of the feats that every dairy herd improvement member strives to obtain, that is, the seldom reached goal of qualifying for the gold medal award.

Only one other herd in the last seven years has won this award, the Paul Liechty and sons herd. Eight high herds are: Ben Gerke,

1447; Shoemaker & Brehm, G. 423; Wm. Burke, G. 364; Edwin Nussbaum, H. 345; Rolandes Liechty, H. 333; Stanley Arnold, G. 313; Dave Habegger, H. 31; Ben & Noah Mazelin, H. 30.

Eight high cows are: Ben Gerke, May, 79.6; Harry Lehman, Flossie, 68.0; Edwin Nussbaum, Tex, 66.9; Harry Lehman, Spot, 64.8; Ben Gerke, Spot, 63.8; Ben Gerke, Gloria, 63.2; Stanley Arnold, Betsy, 62.3; Ben Gerke Sally, 59.7.

The ancient Acoma Indian Pueblo, which lies on top of a mesa in western New Mexico, is said to be the oldest continuously occupied village in North America.

Nickel produced from an old mine near Gap, Pa., was at one time exported to all industrial nations, leading to many of the developments that gave the metal universal use in mechanical arts.
