

Cadillac

One Thing Men Agree Upon!

It is in the nature of things for men to hold opinions and to argue and dispute.

Football, baseball, politics—guns, golf clubs, breeds in dogs . . . name a best, and you have an argument.

And so it goes through boats and trains—and horses and tennis and makes of planes.

But when the discussion turns to motor cars, you'll seldom get an argument if you name **CADILLAC** as the car of cars.

That's about as close as men come to universal agreement. And with good reason.

Who could look about him at the various styles in motor cars—and not give the nod to Cadillac for its great dignified silhouette?

Who could take the wheel of this dynamic performer—and not crown it the king of the highway?

Who could relax in its luxurious comfort for a mile or five hundred—and fail to recognize it as the finest riding car on the world's highways?

And who could look back over its illustrious past—or look about him at the people who own it and drive it today—and not acclaim it as the most distinguished car in the whole automotive world?

We feel assured that you, yourself, are aware that Cadillac is the car of cars. But that is but part of the wonderful Cadillac story.

There are economy—and value—and dependability. And there are all the other sound, practical reasons for owning a Cadillac.

Come in and see us. Thirty minutes at the wheel . . . and you'll understand why there's no argument about a Cadillac!

Violations Of Korean Truce Are Protested

UN Command Makes Strong Protest To Buildup By Reds

PANMUNJOM (INS) — The United Nations command today lodged the most strongly worded protest against Communist truce violations since the Korean armistice and "demanded" the Reds "cease immediately" illegal imports of war materials.

The senior U. N. C. delegate to the joint allied-Communist military armistice commission, Maj. Gen. Harlan C. Parks, told Communist delegate Lt. Gen. Lee Sang Cho:

"Proven Communist armistice violations stand as monumental evidence to the United Nations command and the free world of your insincerity, dishonesty and other lack of integrity."

The U. N. C. protest stemmed from evidence obtained from two North Korean aviators who fled to political asylum in South Korea two weeks ago.

The fliers told authorities that the Reds had 530 modern planes and 14 airfields operating in North Korea and more were being imported all the time.

There were no Communist aircraft or airfields in operating condition in North Korea at the time of the armistice two years ago and any such import is a violation of the armistice agreement.

Parks' vehement and strongly worded statement to Lee Sang Cho declared:

"The United Nations command, at this time, lodges the strongest and most serious protest made against your side since the signing of the armistice and charges that, through your willful and deliberate illegal build-up of your combat forces, you have:

"1. Flagrantly violated every basic provision of the armistice agreement, including the spirit and intent of that document.

"2. Freely demonstrated your aggressive intent of acquiring a favorable military position over the forces of the United Nations command."

Parks then said the United Nations command demands that:

"1. You provide the United Nations command without delay, an accurate accounting of all combat materiel and combat aircraft introduced into the territory of your side since the signing of the armistice.

"2. You immediately provide the neutral nations supervisory commission with corrected-combat materiel reports which reflect the mass of combat materiel and hundreds of aircraft you have illegally introduced into Korea.

"3. You cease immediately the illegal introduction of additional combat materiel and combat aircraft into the territory of your side."
