The New York stock market seems to be wiggling around a little, probably setting the stage for another boom or perhaps some of the boys are getting tired of the old "bingo" game. It's a little dangerous for those who haven't any idea what the score is.

Fort Wayne will have a tax rate of \$1.70 for next year if present plans go through, compared to \$1.86 this year. Officials claim it was made possible by an eight million dollar boost of valuations. Any way they did it they are to be congratulated.

The Presbyterian church in Warsaw and the Warsaw-Wayne township Library are to receive \$42,900 and \$14,300 respectively from the estate of Mrs. Ada Fraiser who died last year. Her will provided for a number of bequests and the balance to be divided 75% and 25%. The estate was worth \$237,787. The sums will put the two institutions on easy street.

Connie, first dangerous hurricane of the season continued her course to a point southeast of Wilmington, N. C., where she decided to take a vacation for a day or so before moving on. It provided thrills for thousands of vacationers, along the Carolinas as well as for many natives who remember the storms of last year.

Election returns from Kentucky's Democrat primary election held last Saturday show A. B. (Happy) Chandler leading by enough votes, about 20,000, to cause his competitor, Judge Combs to concede the election and to say he would support the candidate and promised his full support. Looks like the former baseball commissioner will make a "grand-slam."

They tell us now that they are going to build the mind up to meet the jet-propelled age. So far as our minds can be analyzed we are still in the model-T stage and we can't realize or recognize the advancements, science is making. They have discovered that the government spends about fifteen billion dollars per year to keep up with the crime wave but

only half that amount for education. Maybe that's all that is needed for "readin', writin' and 'rithmetic, which used to be considered sufficient. And we had less crime in those "good old days."

Indiana cities and towns are still Saturday nighters, according to a state Chamber of Commerce survey. The survey included small cities and towns and 52 answers said their town was a "Saturday night". Only a handful of Indiana communities are closed on Saturday nights, and they remain open on Friday nights.

The Daily Democrat and the Erie Railroad are joining in offering to the people of the Decatur area a three-day trip to New York City. Leaving Decatur on the Friday before Labor Day, the train will arrive in New York Saturday afternoon. Those who take advantage of the tour will have Saturday afternoon and until Sunday night in the nation's largest city. Several trips, while in New York are included in the all-expense tour. Read the several informative articles which will appear in the Daily Democrat the next few days pertaining to the trip. We believe you will like it.

"I congratulate the citizens of Decatur on the remarkable task in planning and constructing the Youth and Community center. It is one of the outstanding accomplishments of present day planning for better care of our young people." These are the unsolicited words of Earl G. Schwalm, trust officer of Lincoln National bank and Trust Co., Fort Wayne and chairman of the board of trustees of Western College for Women. Mr. Schwalm, who with Herrick Young, president of Western College has done a remarkable job of rebuilding that college until it is recognized as one of the outstanding women's colleges of the nation, has long been interested in youth movements. We know the people of Decatur will be happy that their endeavor is recognized by busy men like Mr. Schwalm and with such recognition, it should keep us constantly on the alert to keep Decatur the best little city in the United States.

Chinese Reds Demand End To Korean Riots

Demands U.S. Take Measures To Halt Rioting By Koreans

SEOUL (INS) — Communist China demanded that the United States take immediate "effective measures" to halt the riotous South Korean demonstrations against neutral armistice inspection teams.

The red government in Peking aired the demand in a broadcast which also called anew for a Far Eastern conference of interested powers to seek "peaceful settlement" of the entire Korean question.

Radio Peking announced the Communist Chinese foreign ministry issued a statement declaring that the United States "which signed the armistice on behalf of the United Nations command," bears "unshrinkable responsibility" in the present South Korean crisis.

Call For Halt

SEOUL (INS) — The Republic of Korea today renewed a call to end violence in the current campaign aimed at ousting communist members of the neutral nations supervisory commission.

Dr. Hongkee Karl, director of the ROK office of public information, urged police and citizens to "de-tain" and demonstrators who resort to force.

Karl echoed a statement made by ROK President Syngman Rhee Wednesday, decrying the violence which has resulted in injury to 13 American soldiers and 45 Koreans over the past four days.

The Americans used tear gas and high pressure fire hoses to turn back demonstrators storming compounds housing the truce inspectors from communist Poland and Czechoslovakia and from Sweden and Switzerland.

Rhee was sleeted this morning with Gen. Lyman L. Lemnitzer, United Nations Far East commander who flew from his Tokyo headquarters to Seoul to investigate the disturbances.

Lemnitzer is under orders to protect the truce inspectors who have been given an ultimatum by the ROKs to leave Korea by midnight this Saturday.

Demonstrations continued today but were reportedly orderly.

Hongkee Karl, in his plea for an end to violence said: "Our aim is to survive, not to harm others. Our people therefore should be careful not to cause any trouble for our friends with violence or disorderly actions."

Before Karl made his statement, violence broke out at the seaport of Incheon Wednesday night. Demonstrators have been staging a sitdown at the entrance to a cause way leading to Wolmi Island in Incheon harbor. Some of the truce inspectors are quartered on Wolmi.

An estimated 300 demonstrators attacked American soldiers guarding the causeway but were driven off by tear gas bombs and fire hoses.

Favor Increase In State Gasoline Tax

Federal Funds May Be Lost To State

FAVOR INCREASE IN INDIANAPOLIS (INS) — The 1957 general assembly will be under terrific pressure to hike the gasoline tax two cents a gallon. The present state tax is four cents.

The weight of the Indiana highway commission was behind that proposal today after commission chairman Virgil Smith said the backlog of unmatched federal road funds for Indiana had mounted to \$65,243,000.

Smith said: "We must sell the public on the need for a higher state gasoline tax so it can be provided by the 1957 general assembly."

Smith said that \$9,500,000 in federal money available to Indiana since October, 1952, may be lost unless matched by June 30, another \$13,697,598 must be matched by June 30, 1957, \$21,021,328 more by June 30, 1957, and the latest apportionment, \$21,024,748, by June 30, 1959.

The additional revenue from a two cent hike would range from \$25 million to \$30 million a year.

Household Scrapbook BY ROBERTA LEE

Magazines

When filling magazines for future use, cut out the page with the table of contents and write the name of the magazine and date at the top of this page. Keep in a convenient place. It will save time when one desires to refer to some old article.

The Canary

The canary will not scatter seed over the floor if a cheesecloth bag with an elastic at the top is pulled over the bottom of the cage, just covering the feed cups.

Costume Jewelry

If the costume necklace leaves a dark ring on the neck dip it in shellac. This prevents it from tarnishing.

Modern Etiquette BY ROBERTA LEE

Q. Some friends have just told me that I committed a serious breach of etiquette by congratulating a girl upon her engagement — that this suggested I thought she was lucky to have found a

man. Is this true?

A. This was a mistake, but it is very common one, and you should not worry too much about it. The usual procedure is to congratulate the man, and offer wishes of happiness to the girl.

Q. When drinking any kind of refreshment, isn't it proper to leave a little of the liquid in the glass?

A. Not necessarily. One may

very properly drink it all.

Q. When is a guest privileged to leave a wedding reception?

A. At any time he wishes, but not before speaking to the bride and bridegroom.

If you have something to sell or rooms for rent, try a Democrat Want Ad. It brings results.
