## Insurance In A Package!

Just like breakfast food. Something new is being added to the insurance field—insurance in a package. If your insurance seems a puzzle to you, divided between and on your home, furniture, car, liability needs, etc., why not ask about the new packaged policies. All of your insurance needs can now be included in just one or two policies. Besides simplifying your insurance program, it eliminates most of the possibilities of uninsured losses. Payments frequently can be divided.

## County Agent's Column

### Feed Molasses

Hoosier dairymen can supplement roughages of low feed value this winter with molasses, reports G. A. Williams, extension dairyman at Purdue University.

Feeding tests indicate that 6.5 gallons of molasses are equivalent in livestock feed value to one bushel of corn. If the corn-molasses price ratio is favorable, dairymen should consider the use of molasses, Williams says.

Molasses may be diluted and poured over unpalatable forages, thus increasing consumption, or may be fed free choice up to two or even three pounds per cow daily if prices are favorable. Three pounds of molasses equals about one quart.

Feed records secured from DHIA members last year indicate that a number of herds, especially if silage was not fed, received molasses during a part or all the winter months.

Molasses does not increase the feeding value of low grade forages but it does add palatability and permits the cow to consume digestible nutrients in larger amounts.

## Court News

### Motion Filed

In the complaint for damages filed by Ollie J. Henderson against the New York, Chicago and St. Louis railroad and venued from Allen county, the plaintiff has filed a motion to require the defendant to produce at the trial the tape which recorded the speed of the engine at the time of the accident in which the plaintiff alleges she was injured.

INDIANAPOLIS LIVESTOCK  
INDIANAPOLIS (INS) — Livestock:

Hogs 8,000. Barrows and gilts mostly fully 25c higher, 185-260 lbs 16-1825, 120-160 lbs 13-1450. Sows 25c higher, 270-300 lbs 1450-1525, a few 1550, 350-450 lbs 14-15, 450-600 lbs 1350-1425.

Cattle 2,500. Calves 300. Steers slow. Few loads choice suitable for shipping and several loads bought to arrive little change. Heifers slow, not enough to establish market. Cows steady to strong. ## Expect French Parliament To Approve Move

Opens Fall Session Today, Expected To Okay Withdrawal

PARIS (INS) — The French parliament, reconvening today for its fall session, was expected to voice its approval of the government's decision to withdraw from the UN General Assembly.

But that action by the national assembly, to be taken out of national pride, will be one of the few issues on which Premier Edgar Faure will not face a fight.

The deputies will be taking up a series of international and domestic problems, each one of which is suitably controversial enough to end in the overthrow of Faure's seven-month-old cabinet.

The premier's policy in Morocco is in the crucial stage of unfinished business. His efforts to replace the now exiled Sultan Mohammed Ben Moulay Arafat with a regency council and install a native government to negotiate home rule with France have been under heavy attack by the right-wing colonialists.

The need for quick action in the North African protectorate has been underlined in the past few days by the renewed attacks by native Nationalists which have left at least 23 persons dead.

As for Algeria, while Faure can expect endorsement of his cabinet's decision to boycott the UN body for its decision to debate the question of native demands for independence, he can not expect complete support for the "integration" policy which is supposed to guide French action there.

The non-Communist left wing in French politics has attacked this as simply a slogan designed to buy time. If France were to treat Algeria as a part of metropolitan France—which is its position in the UN dispute—150 Moslem deputies would have to be seated in today's national assembly.

Aside from North Africa, the government may expect to come under fire for its decision announced Monday to cancel the Moscow visit of Faure and foreign minister Antoine Pinay which had been scheduled for Oct. 14.

Pinay informed the Soviet charge d'affaires that the action was necessary because of the Russian vote in the UN favoring consideration of the Algerian situation.

One case was tried in mayor's court this morning and one case disposed of. Robert Hicks, Lima, Ohio, who was arrested Monday night for public intoxication and held overnight in the county jail, was fined \$5 and costs after a plea of guilty. The fine totaled \$18.

Walter A. Hayes, who has resided in the county jail since an arrest for petit larceny about 10 days ago, was released with emphatic instructions to stay out of this city and Indiana in general. A check of Hayes' fingerprints with the F.B.I. showed that Hayes had been around. There were three sheets of arrest reports returned to the police department.

The arrests ranged from petit larceny and public intoxication to violation of federal narcotics acts and manslaughter. The man has spent time in hoosegows ranging from county jails to Leavenworth and San Quentin. His first arrest dated back to 1930 and have been pretty regular since. He was escorted to the state line and informed that the next time he shows up in Decatur, he can add the Indiana penitentiary to his list of lodgings.

Judge Elmer D. Doyle said that Barker is deemed the father only for purposes of settling the temporary support hearing which was conducted Monday and that the ruling would not prejudice his right to present evidence later that he is not the parent.

Barker denied heatedly Monday that he had fathered the pretty, 25-year-old beauty's child, which is expected in six weeks. He agreed to submit to blood tests and lie detector examinations to help decide the case.

Miss Doughty, who was in tears during part of the court battle, also agreed to undergo blood tests after the child is born and to take lie detector tests.

## Killing Frosts In Indiana Forecast

To Hit North Part Of State This Week

LAFAYETTE, Ind. (INS)—Killing frosts are likely in the upper one-fourth of Indiana this week, with frost damage in the central portions expected some time after Oct. 10, and not until Oct. 15 in southern Hoosierland.

That was the prediction of Purdue University agronomists, who noted that they were both delighted and embarrassed by last week's heavy rains.

A 30-day forecast released by Purdue had called for dry weather last week, but air masses starting in the Gulf of Mexico area double-crossed the weather prognosticators.

The resulting rains over Indiana brought soil moisture to a point described by the Purdue specialists as "adequate."

Chief casualty of the long drought, which started July 25 and ended a week ago, was believed to have been the soybean crop. Soybeans output was said to have dropped 20 percent from lack of moisture.

Corn generally escaped serious damage.

G.O.P. Headquarters Will Open October 15

Announcement was made that the formal opening of Republican headquarters for the November election campaign is scheduled for Saturday, Oct. 15. Headquarters will be located in the Speigel building on South Second street.

However, it was also announced that it would be open from 7 to 9 p.m. Wednesday and from 2 to 5 p.m. and 7 to 9 p.m. Thursday, Friday, Saturday and Monday for the benefit of those eligible voters who wish to be registered. A deputy registrar will be there at those hours.

Monday is the final day for registration. Anyone not registered properly by that date will not be eligible to vote in the November city election.
