

**Fall Is Fatal To
Indianapolis Man**

INDIANAPOLIS (UPI) — Matthew W. Chastain, 42, Indianapolis, died Wednesday night of injuries suffered in a fall last Saturday. Chastain received severe head injuries in the accident in a downtown market. Authorities believed a heart attack caused the fall.

**Charge Dulles
Responsible In
Poznan Riots**

**Soviet Government
Organ Makes Charge
Against Secy. Dulles**

MOSCOW (UPI) — The Soviet government and Communist party today accused U.S. secretary of state John Foster Dulles of responsibility for the "bloody" Poznan riots in Poland.

The government organ Izvestia said the Poznan uprising followed "inflammatory" speeches by Dulles and the appropriation of 125-million dollars by the U.S. congress

for "subversion" of the Iron Curtain countries.

Izvestia, organ of the Communist party, lashed out at the "bloody provocations like the one of American agents in Poznan."

It accused Dulles of "gross falsifications" in alleging that the denunciation of the cult of Stalinism in the Soviet Union had left Communist parties "in a state of utter confusion."

Observers noted the markedly strong tone of the two articles. They said it now remains to be seen whether the Russians, who have been giving tourist visas virtually for the asking, will now close the gates to the unprecedented stream of Western tourists and newsmen.

Izvestia accused the United States of "oral responsibility" for the Poznan rioting.

It cited the congressional appropriation, Dulles' "liberation policy" and his "inflammatory" speeches as evidence that the United States

is faging an intensive campaign of subversion and espionage in the Communist countries.

Izvestia accused the United States of violating the Roosevelt-Litvinov agreement of 1933 which provided the signatories would refrain from intervention in each other's internal affairs and particularly not permit the subsidy or support of any organization and groups struggling against the political and social order of both states."

The ruling circles of the United States are the official inspirers of the subversive, diversionist activity against socialist states," Izvestia asserted.

"Dulles' much-advertised so-called doctrine of liberation serves as the theoretical foundation for the policy of subversion."

The government newspaper said that congressional approval of funds for alleged subversion in the Communist countries was "glorification of the provocateurs who

unleashed the bloodshed at Poznan."

"In light of this congressional resolution, it is crystal clear that the gentlemen senators strive to encourage freedom for rapists and murderers," it said.

**Urge Congress To
Pass Civil Rights
Measure This Year**

WASHINGTON (UPI) — Sen. Hubert H. Humphrey said today the Democratic-led congress should pass some civil rights legislation this year to help avoid an "explosion" at the Democratic national convention.

The Minnesota Democrat gave this suggestion for dealing with the issue which looks like the toughest one plaguing the Democrats until they are ready to name a presidential nominee.

It is an issue bothering Democrats like Humphrey, who favor Adlai E. Stevenson for the nomination. These Democrats see a peaceable solution of the civil rights issue as perhaps the biggest barrier now between Stevenson and the nomination.

Close to a third of the support now claimed for Stevenson comes from the south, where tension is high over the racial segregation question. A Democratic platform which provoked a southern walkout or even caused southern delegates to cut loose from Stevenson could damage his chances.

"I feel it is necessary for the Democratic congress to demonstrate its good faith on civil rights by passing legislation — at least something to set up a civil rights commission — if we are going to avert an explosion at the convention," Humphrey told a reporter.

The commission which he proposed would investigate racial discrimination problems and make recommendations for coping with them.

Other political developments:

— Stevenson, in a Fourth of July speech in Bloomington, Ill., ridiculed the Eisenhower administration's claims of an improved foreign outlook. He charged "we are falling behind in the critical contest with Communism." The administration's foreign policy statements, he said, are a "dust of sweet complacency which can lead only to fatty degeneration."

— Former President Truman planned to breakfast this morning with New York Gov. Averell Harriman, another contender for the Democratic nomination, but Mr. Truman said their meeting had no particular political significance. He told newsmen Wednesday he liked both Stevenson and Harriman. The name of Sen. Estes Kefauver (D-Tenn.), a third contender for the nomination, was not mentioned.

— Former Gov. Herman E. Talmadge of Georgia Wednesday opened his campaign for the senate seat now held by Democratic Sen. Walter F. George with a speech attacking the U.S. supreme court. Talmadge referred to the court as the "black-robed arm of judicial tyranny" and said he would work to curb its jurisdiction.

Humphrey suggested that the 1952 Democratic platform plank on civil rights was a good one. "If we add to that our recognition of the role of the supreme court in our system of government." By that action, he said, the party would "be doing what is honorable and what is expected."

He was thus echoing the views of many northern Democratic leaders who have insisted that the party platform must at least accept the supreme court decision against school segregation. While southern delegates will disagree, the current evidence indicates that they will not walk out of the convention.

Stevenson forces are wondering whether backers of Harriman, now regarded as Stevenson's chief rival, will try to fan the civil rights conflict into a party rending fight.

But if the split is to be avoided, it probably will have to be achieved without congressional approval of legislation which Humphrey advocates. With congress pointed toward adjournment late this month, there is little chance of action on any civil rights bill in the face of southern opposition.

**Jobless Pay Claims
Increase In State**

INDIANAPOLIS (UPI) — Hoosiers filed 1,050 more unemployment compensation claims last week than Indiana employment security division of 40,512 claims was filed last week, division director William Stalnaker said. In the corresponding week of 1955, 23,971 claims were filed.

Stalnaker estimated Indiana's auto industry has about 20,800 employees on layoffs and an other 11,800 persons are off work in auto supplier industries.

The San Francisco Bay Bridge between San Francisco and Oakland is eight miles long while the ferry boat route between San Francisco and Alameda is only four miles.
