Wheat Growers Of
Nation Vote Today
Vote On Government
Marketing Curbs

WASHINGTON (UPI) — Wheat growers go to the polls today to choose between strict government marketing curbs and lower government price supports for their 1957 crops.

If the growers approve controls, they will be assured of a minimum national average price support rate of \$2 a bushel—\$2½ per cent of the June parity price for wheat. But if they refuse, supports would drop to 50 per cent of parity about \$1.21 a bushel.

Agriculture department economists predicted privately that the growers will overwhelmingly choose controls. They said it was "simply a matter of money-in-the-pocket" to accept controls on next year's crop.

Wheat farmers in 36 states are eligible to vote in the referendum. However, fewer than half the 950,000 eligible growers were expected to vote. Those who do were expected to roll up a total vote far above the two-thirds majority necessary to assure controls.

Last year 77.3 per cent of the 347,000 farmers who voted approved controls. In 1954, 73.3 per cent approved controls.

Under controls, farmers who put part of their 1957 wheat acreage in the new soil bank would be assured of government payments of \$1.20 a bushel for wheat they do not produce.

If they turn down controls, the soil bank payments would be only 73 cents a bushel.

It took 38 years for American automobile manufacturers to produce their first 50 million cars. The next 50 million required 17 years and the 150 millionth motor vehicle was produced in 1955, only seven years later.

**Predicts New
Hungary Boss
To Fall Soon**

**Deposed Premier Of
Hungary in 1947 In
Views On Nation**

(EDITOR'S NOTE: Ferenc Nagy, Hungary's first postwar premier, was deposed in 1947 by a Communist coup executed by Matyas Rakosi. Now living in exile in the United States, Nagy was on a visit to Switzerland Thursday when Rakosi himself fell. In the following exclusive interview with United Press, Nagy gives his views on the latest Hungarian upheaval.)

By ANDREAS GREGORIADIS
(United Press Staff Correspondent)

RHEINFELDEN, Switzerland (UPI) — Exiled Hungarian premier Ferenc Nagy said today that Hungary's new Communist boss is a Stalinist and will soon follow his ousted predecessor into discredit.

Nagy, first postwar premier of the Hungarian republic, was deposed in the 1947 Communist coup engineered by Matyas Rakosi. The Hungarian Communist "strongman" suffered a similar fate this week.

Nagy said that new party chief Ernö Gerö "will not be able to hide his sympathy for the old reactionary type of Communism and will fall very soon."

Gerö was named secretary general of the Hungarian Communist party Wednesday in the biggest party shakeup since the 1947 coup. He took over from Rakosi who resigned the "strongman" post with a confession of "grave mistakes of the cult of the personality and the injuring of socialist law."

"Rakosi's resignation did not surprise me," Nagy said in an exclusive interview with United Press. "I was expecting his downfall any day."

"But it is a great satisfaction for me to hear about his resignation here in Switzerland, the same country in which I was spending a vacation when he carried off the coup d'état against me with the help of the Red army, and made it impossible for me to return to Hungary."

Nagy, premier of Hungary from 1945 to 1947, was on a private visit to Switzerland when the Communists took over his homeland.

He now lives in Herndon, Va., and is on a visit to Europe.

Nagy said he believes the main cause of Rakosi's downfall were the following:

"As a faithful and reactionary follower of Stalin, he could not adjust himself to the new policy of the Soviet Union, namely the denunciation of Stalin.

"He was the most unpopular dictator in central eastern Europe and not only hated by the whole Hungarian nation, but also by the second-rate leaders of the Communists. Under the present circumstances, the Soviet Union cannot tolerate such a hated and unpopular satellite leader."

"There is a growing uneasiness in Hungary at present and an intellectual revolution. It was started by the writers and poets and through the youth it is going through the whole nation."

"Finally, Rakosi was abandoned and attacked by his comrades, who were afraid that if they did not adjust themselves to the new trend of Soviet policy, they would also be ousted."

Anderson Youth Dies
At Guardsmen's Camp

CAMP MCCOY, Wis. (UPI) — Indiana national guard Pvt. Robert Lee Eytchison, 17, Anderson, died here Thursday of undetermined cause.

He was with Indiana's 38th infantry division on summer training here.

Eytchison fell dead as he walked from a battalion dispensary to his barracks after an examination failed to disclose an ailment.

**Lists Priority To
Four Road Projects**

**Top Road Projects
In Indiana Listed**

INDIANAPOLIS (UPI) — A new multi-million federal highway program will mean improvements for only a handful of Indiana roads, state highway chairman Virgil Smith said today.

The interstate highway construction bill recently passed by Congress would mean \$24 million dollars for Indiana over a 13-year period if the program is carried to completion.

Smith said most of that amount plus about \$8 million dollars in unmatched funds previously appropriated would be used in extending a system of dual lane highways over the state.

Construction of the limited-access highways will cost about 1 million dollars a mile, Smith said. The \$24 million "doesn't amount to much" on that basis, he said.

Smith listed four projects that have top priority:

1. Dual-laning U. S. 31 from Jeffersonville to Seymour, making the road dual-lane from Indianapolis to Louisville.

2. Dual-laning Ind. 46 from near the Ohio line to Greensburg, and U. S. 421 from Greensburg to Indianapolis. This would complete dual pavements from Indianapolis to Cincinnati.

3. Completion of Ind. 100, which will surround Indianapolis. This will afford a bypass for all highways leading to and from the state capital.

4. Dual-laning a 17-mile stretch of U. S. 52 and U. S. 41 near Fowler, to give motorists a divided highway from Chicago to Indianapolis.

When these projects are completed motorists driving the Chicago-Indianapolis-Louisville route will have divided highways all the way.

Other projects include a dual lane route from Indianapolis through Fort Wayne and north to the Michigan border. The route probably would be over Ind. 67 to Anderson, Ind. 9 through Marion to Huntington, U. S. 24 to Fort Wayne, and U. S. 27 and U. S. 327 to Michigan, Smith said.

Other projects are dual-laning U. S. 150 from Louisville to Vincennes, and completion of the Tri-State highway in the Calumet area to join Chicago with the northern Indiana toll road and U. S. 20.

Smith said Indiana's part in the interstate program probably would take "18 or 20 years" to complete.

Dozens of other projects are needed, Smith said, but "we're trying to get the worst done first."

Before Indiana can pick up new federal funds by matching them on a 90-10 percentage basis, it must claim \$8 million dollars in previously appropriated funds on a 60-40 basis.

The report on the board of review also shows \$11,380 in new improvements in Geneva, \$23,700 in the town of Monroe, \$22,030 in Union; \$80,940 in Root, \$32,760 in Preble; \$8,520 in Kirkland, \$60,060 in Washington, \$2,910 in Blue Creek, \$18,780 in St. Mary's, \$13,480 in Monroe township, \$14,910 in French, \$22,990 in Hartford, \$23,600 in Wabash, and \$6,460 in Jefferson.

Also shown in the report are additions in the personal property assessments. Major jumps in this column were in Wabash, Monroe, Blue Creek and St. Mary's townships, where new gas pipe lines totaling \$326,050 boosted personal property assessments.

deals with them.

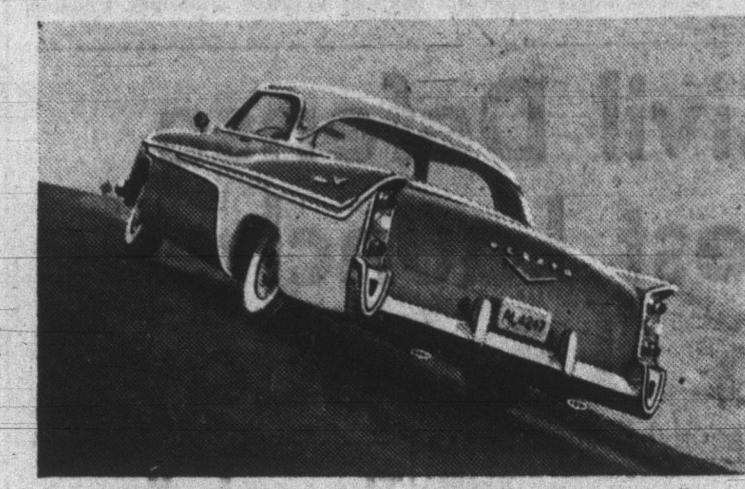

Coutrakon resumed interrogation of Hodge in preparation for a grand jury session Monday.

The prosecutor said he has not drawn up any specific charges against anyone involved in the huge check scandal in the auditor's office yet. But he said he hopes to have some indictments returned next week, possibly Monday.

Hodge resigned as state auditor, as Republican candidate for re-election and as a delegate to the GOP national convention after the scandal broke. He began making his statement to "tell all" Wednesday. Coutrakon, however, refused to reveal what Hodge said until after the statement was completed and placed before the grand jury.

Government economists predict the registration of motor vehicles in the United States will go from the present \$1 million to \$1 million by 1965.

Take the wheel...
then talk deal!

255 hp DE SOTO

Most powerful car in the medium price field

Pick any test of performance—low speed take-off, high speed acceleration, cornering or hill climbing, then match this glamorous pace-setter with any other car in the medium price field and watch De Soto shoot out front and stay there. And the clincher to the De Soto success story is the new low price deal. See your neighborhood De Soto dealer today. Take the wheel... then talk deal. Drive and price a De Soto before you decide.
