Says Atom Energy  
Program LaggingOne-Day Vacation  
By Sen. Kefauver

SANTA FE, N.M. (UP) — Sen. Estes Kefauver, the hardshaking Democratic vice presidential candidate, took a "one-day" vacation from campaign chores today with nothing but time on his hands.

The rangy Tennesseean rested at a ranch five miles from Santa Fe. He planned to watch the first game of the World Series on television, and to get some sun and rest before resuming his energetic campaign in Los Angeles Thursday.

Discussing his plans for what he termed the "one-day vacation," Kefauver told newsmen in his party that he has been a "Dodger fan" for years and expects to watch the telecast. He conceded he is "worried about the Yankees this year."

The senator's holiday host was Frank McKinney, publisher of the Santa Fe New Mexican who recently served as chairman of a citizen's panel which reported to congress last spring on peacetime uses for atomic energy. One phase of the atomic energy program—nuclear power—was Kefauver's main campaign topic in New Mexico Tuesday.

Speaking at the government's giant research center at Los Alamos, Kefauver declared that other nations—including Russia—have outstripped the United States in nuclear power development because President Eisenhower let bogged down in partisan politics the atomic energy program get ticks.

The United States, the senator said, has dropped to "third" behind Britain and Russia. In the struggle for power while chairman Lewis L. Strauss of the atomic energy commission "busied himself injecting the AEC into politics through the notorious Dixon-Yates deal."

Bloodmobile Unit  
In Berne Friday

Mrs. Ed. Bauer, county chairman of the Red Cross blood program, stated today that the bloodmobile unit will be in Berne Friday at the Berne auditorium from 10 a.m. to 4 p.m.

The quota is 126 pints and it is important that the quota be met because of a shortage of blood at the Fort Wayne blood bank. Any persons from Decatur who wishes to give, may visit the unit at Berne. The next visit in Decatur is scheduled for Dec. 10.
