By Carrier: 30 cents per week. Single copies, 6 cents.

Those who provide sunshine for others cannot help but bring some into their own lives.

"I would sooner read a timetable or a catalogue than nothing at all. They are much more entertaining than half the novels that are written." — Somerset Maugham.

Vacation time always shows an increase in accidents to children and the reasons are apparent. It would be advisable for all of us to drive more slowly and carefully during this vacation period. Our youngsters are our greatest asset, do your part in protecting this group of boys and girls.

Next on the agenda is the All-Star football game in Chicago. This promotion has been one of the highlights of the sports world for a number of years and is the big August attraction. Many future pros and coaches are forthcoming from this affair. Fan interest in the Chicago area has declined and a change of locale might provide the stimulus that is needed for a big game.

A general reduction in beef, pork, and lamb supplies will be cause for higher prices for those meats later this year, according to the Department of Agriculture statisticians. Poultry prices are expected to remain near current levels with usual seasonal variations. No doubt weather conditions will add further readjustments to these predictions. At any rate the housewives will be hard put to keep up without a change in food budgets.

The current disaster fund drive should merit your early concern. The Red Cross, under General Gruenther, is pressed to the limit and we can make a contribution that will be appreciated by those who have suffered so much during recent storms. Make it a point to do your part soon.

Pay-as-you-see television may be the answer for some of us who feel that present programs are too musty to view anyway. With this new gimmick it is quite likely that we will pay and pay for the present costs are borne by the consumer in the final price of the commodity which is "sold" on the screen.

Continued disruption in Japan lends itself to some concern for those who insist upon further occupation. Rabble-rousers are in part responsible, yet one wonders if we are over staying our welcome. Twelve years have passed since V-J Day and if our rehabilitation of the Japanese has been a success it might be time to get out. If we wish to maintain an Eastern bastion against the Reds, let's say so and begin to sell more good-will than we have so far been able to accomplish. Our democratic way is surely enough to out-sell other political hysteria.

A number of large industries are sending some of their engineers back to school to give a broader background which is intended to produce top executives. Flow diagramming, showing the "input" into a business is a part of the advanced training to which these men are subjected. Experienced engineers are appointed to take the courses which include Boolean algebra and use of computers which "look into the future rather than the past". The general segment of the program is designed to "look at broad social problems" and better fit these men for a part in their communities. Sounds interesting though a bit complicated for the layman.

Canon 35 of the Canons of Judicial Ethics of the American Bar association has excited quite an extensive discussion among many adherents of these canons. After a series of "raucous publicity circuits" this canon was adopted in 1935 to bar newspaper photographers and radio broadcasters from courtroom procedures. This was broadened to cover television in 1952 and has become the center of extended controversy since that time. It is felt by some that the above-mentioned activities "are calculated to detract from the essential dignity of the proceedings, distract the witness in giving his testimony, degrade the courts, and create misconception with respect thereto in the mind of the public, and should not be permitted". A detailed discussion in the American Bar Association Journal leads to a series of conclusions that goes back to the best interest of the defendant as well as the wishes of the particular court in question, which seems to be fair to those concerned.

20 Years Ago Today

July 10, 1937—Nation continues to simmer in heat wave. More than 200 deaths are reported as directly connected with the intense heat.

Mr. and Mrs. R. O. Gass, of Huntington, visited with friends and relatives in Decatur last evening.

The Rev. R. W. Graham, pastor of the Decatur M. E. church, was named publicity manager of the Epworth Forest assembly to be held at Lake Webster.

Vernon Aurand has been employed as solicitor for the Leo Ehinger insurance agency. Ehinger recently took over the Rose Fisher insurance agency.

More than 500 delegates are expected to register today for the tri-state convention of the Improved Order of Red Men.

The Chicago Cubs are still leading the National league while the Yankees are out in front in the American.

Mrs. Susie McKeeman visited her mother, Mrs. Jestine Hocker, Monday afternoon.

It is reliably reported that Frank G. Thompson, Bluffton publisher, will seek the Democratic nomination as candidate for secretary of state on the 1938 ticket.

Household Scrapbook BY ROBERTA LEE

Clock Cleaner
If your mantle or grandfather clock stops running for no apparent reason try setting a little cup or jigger of kerosene inside the case for a day or so. The fumes of the kerosene have a way of cleaning and lubricating the works and if there's nothing else wrong with it, the clock should resume its running.

Leather Chairs
Clean the leather chairs by rubbing them with a soft cloth dipped in ordinary milk - or better still, in beaten egg white. When they're dry, go over them again

with a clean soft cloth.
Dog Biscuit Substitute
To make use of stale bread, place it in the oven and let it dry out until hard. Then use it with the dog's meat and gravy instead of dog biscuits.

Admitted
Jerry Lee Andrews, Decatur; Mrs. James Pollock, Decatur.

Soil Supervisors To Meet Next Sunday

The soil conservation district supervisors of Adams county will meet with the other supervisors of area II, the northeastern counties of Indiana, in a picnic meeting to be held at Woodburn next Sunday. There are five supervisors in Adams county.

BUFFALO, N. Y. (UP) — Two employees checking eggs by X-ray at a grocery chain's warehouse here came across a normal-size egg with five yolks. Hyman Kahn, a 36-year veteran in the company's egg and butter department, said a four-yolk egg had dropped up once before — but never one containing five yolks.

No Nagging Backache Means a Good Night's Sleep

Nagging backache, headache, or muscular aches and pains may come on with over-exertion, emotional upsets or day to day stress and strain. And folks who eat and drink unwisely sometimes suffer mild bladder irritation...with that restless, uncomfortable feeling. If you are miserable and worn out because of these discomforts, Dean's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys — tending to increase the output of the 15 miles of kidney tubes. So if nagging backache makes you feel dragged-out, miserable, with restless, sleepless nights, don't twiddle your thumbs, get the same happy relief millions have enjoyed for over 60 years. Ask for new, large, economy size and save money. Get Dean's Pills today!

Must Weigh Enrolled Calves During July

Calves enrolled in the 1957 gold medal calf club project, must be

weighed sometime during July. Ken McDonald, Purdue University extension beef cattle specialist, reminds owners. Approximately 6,000 calves are enrolled in the project by some 1,300 Hoosier farmers.

MacDonald explains that weight cards can be obtained from county agricultural agents who return them to Purdue after the weights have been recorded. To be eligible to be exhibited in gold medal competition, steer calves and bulls

must gain two pounds daily and heifers one and one-half pounds a day. All calves have an assumed birth weight of 70 lbs.

Trade in a good town — Decatur

BRIGHTEN UP TIME!

More homes are painted with SWP HOUSE PAINT

than any other brand!

Why? Because SWP House Paint gives homeowners the lasting satisfaction they have every right to demand... because SWP gives extra years of beauty and protection that pay off in lower cost-per-year of house painting. It's easy to apply. You'll find it's the best for your home, too.
