Winter is going to hang on just as long as it possibly can and we still may have a few weeks of not too pleasant weather. These are long days because we all are anxious to get out on the yard and start digging. We'll have plenty of time however. But it is an excellent time to start planting grass seed the minute you can get on the lawn.

The finals of the Indiana high school basketball tourney have been a sell-out for many weeks and those fortunate enough to have a ticket for the final games will see three fine games. Then the high school season will be over and soon the professional play-offs will be completed and sports fans will have major league baseball until late next fall.

Baseball teams are in the middle of their spring training schedule and before long they'll start heading back to their home grounds. Then the regular season will start and with the shift of two teams to the west coast this should be an interesting year. It looks yet, however that Milwaukee and the Yanks will be the teams to beat.

Let's hope that the controversy at the Decatur General Electric plant is settled to everyone's satisfaction. It's always bad on a community when there is a work stoppage of any kind and especially when there is a depression and people need all their wages. We don't know anything about who is right but we do know that conditions always are better when everyone is working and happy.

If you're planning a trip remember the other fellow may not care as much for his life as you do. Drive with care and live longer.

There is some early activity in the construction business here and indications are that many new homes will soon be under construction. This is a good sign and in the next few weeks business can easily show improvement in many fields.

We heard an uninformed man the other day state that newspapers wanted depressions because then, for that man and everyone who thinks that way, he is dead wrong. Our business and profits both go down when there is a depression, same as in any other business and we're just as anxious to see the depression end as anyone.

Darl Dee Parker, one of two Fort Wayne bank bandits which got \$50,000 from a Fort Wayne bank last fall was caught in Canton, Ohio this week and in all probability will be brought back to Fort Wayne for trial in federal court. Not much of the details has been announced, but it has been released that the one bandit has been captured and is in jail. In all probability, details are being kept secret with a hope that the bandit's partner will soon be captured. Let's hope that the police work will continue until both men are caught and properly punished. It was one of the biggest holdups in northern Indiana in many years.

20 Years Ago Today

Modern Etiquette
BY ROBERTA LEE

Q. Is it permissible for a dinner guest to ask for a second helping of a dish?

A. Only if he is eating with relatives or very good friends. Otherwise, the hostess should see that her guests' wishes are fulfilled without the necessity of their asking.

Q. I have been asked to pour tea at an afternoon function in the near future. How long am I supposed to remain at the tea table?

A. Just so long as guests are arriving and asking for tea.

Q. Should an usher at a church wedding offer his arm to every woman he escorts down the aisle, whether he knows her or not?

A. Certainly.

Q. Is it permissible to sip water at the table while one has food in the mouth?

A. This is considered very poor manners. One should never take so great an amount of food into one's mouth as to make it necessary to use water to wash it down.

Q. On which arm of her father does the bride proceed down the aisle of the church?

A. On his right arm.
