**Disarmament:** Atomic Energy Commission Chairman Lewis L. Strauss rejected as "spurious" proposals for halting nuclear weapons testing without at the same time cutting off nuclear weapons output and starting to switch atomic material to peaceful uses. Strauss told the Senate disarmament subcommittee a moratorium on testing would be "advantageous to Russia and would 'freeze' U.S. defensive research."

### UTILITY

(Continued from page one)  
 the money obtained from the sale could be used to pay off the other debts, such as the sewage system. Hill explained that Kendallville had done this through a series of legal transfers within the city budget, and that it could be done. He also stated that the state law, which affects this, would probably be changed soon.

George Litchfield asked whether it was true that I-M had brought two new industries into Kendall-

ville since I-M bought their plant. Hill stated that it was not true, but that I-M had just completed arrangements for the new factory in Geneva.

Next week's program will be a court of honor for Boy Scout troop 61, it was announced. On May 1, a ladies night, Dusty Miller, noted humorist, will speak. On May 6, a Tuesday, Bluffton will host the meeting at that city at 8:15, to pay off the attendance contest which they lost to Decatur.
