Attend Meeting On Career Conference

FORT WAYNE — Approximately 75 educators from a 10-county area were among those present Wednesday when the formal plans for the general career conference to be held at Indiana Technical College were made. The conference, an all-day affair, will be held Nov. 14.

Purpose of the all-day conference will be to enable high school juniors and seniors to obtain professional counseling in 22 special fields.

The range of guidance will appeal to almost every upperclassman in the area served. The subjects go from accounting to transportation and close with a general heading of crafts. The latter includes possible guidance in 24 various trades, from air conditioning to welders.

Representative of the list is counseling in secretarial careers, teaching, agriculture, building trades, management, medical services, and religion.

While Indiana Technical College is an engineering and science institution, the subjects covered for career day will extend beyond the college's curriculum.

"Indiana Tech is simply serving as host for this conference," said president Archie T. Keene. "We're merely trying to promote further guidance service for young people on the threshold of choosing a career."

Most of the counseling will be obtained from the Fort Wayne area, from men who have geared to assist in this one-day high school event.

Those attending Wednesday's conference planning session on the Tech campus included: Gail M. Grabbill, Adams county school superintendent; Gerald Vizard, Pleasant Mills principal; E. M. Webb, Berne school superintendent; Clarence J. Neuenschwander, Berne principal, and Deane Dorwin, counselor for Decatur high school.

C.Y.A. Study Club To Meet This Evening

The home of Alice Gage was the scene of the C.Y.A. study club meeting last week with two discussion groups selecting topics under the leadership of Noreen Miller and Mary Ann Jackson.

The Rev. Robert Jaeger, group moderator, commented on the discussion practices and expressed his ideas for future discussions to the groups. The meeting closed with a prayer, after which refreshments were served.

The next meeting will be conducted at the Catholic school auditorium this evening at 8:30 o'clock. All members are urged to attend.

Reveal Wounds Of Steel Head Self-Inflicted

HYANNIS, Mass. (UPI) —A knife wound suffered by Walter F. Munford, 59, U. S. Steel Corp. president, was inflicted accidentally, Dist. Atty. Edmund Dinis said today.

"I am afraid there was no criminal action" in the case, Dinis told newsmen at Cape Cod Hospital where Munford was recovering from emergency surgery.

Dinis, after questioning Mrs. Munford, house guests and others, reported that the executive suffered an abdominal puncture from a pair of pliers. He said the accident occurred while Munford was putting away utensils in the kitchen of his summer home at nearby Chatham Wednesday.

"The kitchen floor is flagstone and highly waxed and polished," Dinis said. "Mrs. Munford tells me it is a difficult step down into the kitchen."

Earlier the hospital had issued a brief statement.

Munford was hospitalized Wednesday and underwent abdominal surgery. A police investigation was begun when details of the stabbing were cloaked in mystery.

Munford's condition was described as "good" today after the surgery.

The hospital said Munford had been under care of his personal physician for the past few weeks suffering from fatigue and nervous exhaustion.

Dist. Atty. Edmund Dinis dispatched several investigators from his office to determine "whether the stab wounds were self-inflicted or otherwise." Two
