## Urges Other Nations Give Economic Aid

WASHINGTON (UPI) — President Eisenhower called on other industrial nations today to provide more economic aid to spur the growth of less developed countries.

The President, addressing the opening session of the 14th annual meeting of the World Bank and International Monetary Fund, urged the 68-member nations to support a new billion-dollar International Development Assn. proposed by the United States. Russia is not a member.

Eisenhower said the prosperity he saw on his recent trip to Europe was a sign that industrial countries have recovered from wartime setbacks and can do more in the international aid area.

There is among many nations, the President said in his brief talk, a general desire for economic development and a need for international capital investment.

He said the industrialized countries could provide economic aid directly and through international institutions, such as the proposed development association.

He told the 1,500 fund and bank delegates and guests that the American economy, "despite the increasingly heavy impact" of the steel strike, is in a "healthy condition."

The President said American business has "long since completed recovery from the 1957 recession" and is "well advanced into a new period of growth."

## Over 2,600 Dead, Missing In Japan Storm

TOKYO (UPI)—The most disastrous typhoon in many years lashed Japan for 12 hours over the weekend with winds up to 135 m.p.h., leaving more than 2,600 persons dead or missing in its wake.

Damage to U.S. Air Force installations in this island nation was estimated at more than a million dollars, but the only known American casualty was an airman slightly injured by flying glass.

An official police report from communities on the storm track early today showed 1,159 persons known dead, 1,458 missing and 4,695 injured. Many of the missing were feared dead.

A total of 350,000 homes were wrecked or washed away during the nightmare hours Saturday night and early Sunday when the nation was battered by howling winds, mountainous waves and surging floodwaters. An estimated 970,000 persons were homeless.

The American Red Cross made hundreds of blankets available to disaster headquarters here for emergency relief to storm refugees.

Thirty-eight of Japan's 46 provinces suffered some degree of damage from the typhoon, but the heaviest harm was inflicted on three provinces—Aichi, Mie and Gifu—bordering Ise Bay.

The total damage is expected to exceed 120 million dollars. Construction Minister Isamu Murakami said the government will ask parliament to approve a supplementary budget to meet the costs of the disaster.
