

Senate Drives For Vote On Election Bill

WASHINGTON (UPI) — The Senate drove today toward a final vote on the clean elections bill already stiffened to limit campaign donations by individuals and total spending in presidential campaigns.

Another "tough" provision—this one aimed at curbing labor's influence in elections, primaries, conventions and caucuses—was up for action.

Sen. Strom Thurmond (D-S.C.) offered the labor amendment, clearly aimed at the AFL-CIO's Committee for Political Education (COPE).

The amendment would prohibit labor unions or their political arms from making any "contribution or expenditure" in campaigns or elections.

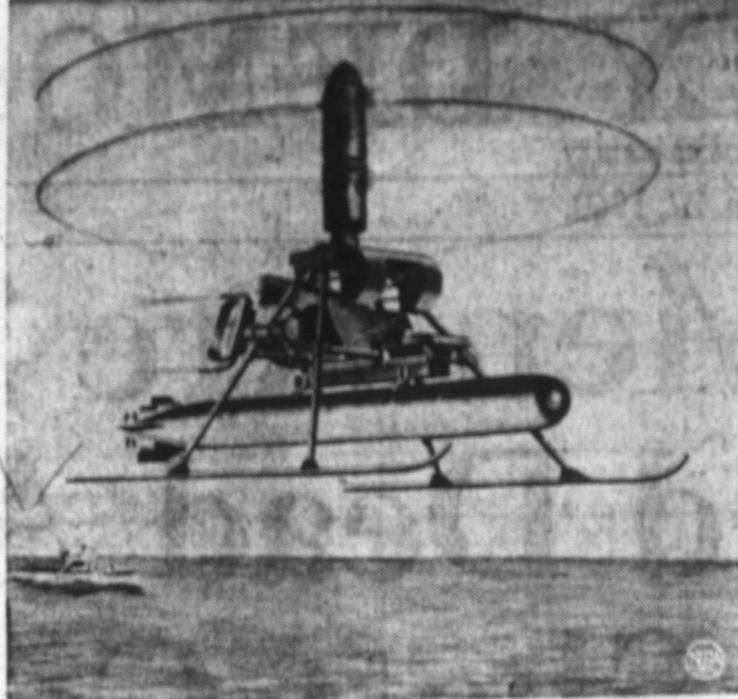

Other congressional news: Tranquillizers Chairman Estes Kefauver (D-Tenn.) of the Senate

anti-trust subcommittee—in its second day of hearings on drug prices—said research on drugs for cancer and mental health might be lagging because drug companies oppose government patent policies. Kefauver said there was danger of socialized medicine if companies failed to cut drug prices soon.

Narcotics: Senate investigators have been told "bureaucratic bungling" in the Treasury Department is interfering with efforts to halt narcotic smuggling from Mexico, Sen. John A. Carroll (D-Colo.) said. He made the statement at the start of a Senate juvenile delinquency subcommittee investigation of the international narcotics traffic.

Censorship: The House Government Operations Committee charged the administration exercises "arbitrary censorship" to hide the facts of government from Congress and the people. Five Republican members of the committee said it was time to take such charges to court.

Civil Rights — Democratic liberals planned a "southern-style" talkathon in the House next Wednesday. Their action will be an effort to win Republican support for a parliamentary short cut to pry a stalled civil rights bill out of the House Rules Committee.

TORPEDO MOSQUITO—Hot on the tail of a submarine is an unmanned helicopter, imagined in artist's drawing above. The odd aircraft, now in the development stage, will be used aboard the Navy's first helicopter destroyer, Hazelwood. When contact with an enemy sub is made, the drone is flown by remote control to the suspected area where it drops its homing torpedo and then returns to the ship.

Red Rocket May Be Missile Prototype

WASHINGTON (UPI)—The super rocket Russia fired into the Pacific might have been the prototype of a war missile able to carry the nuclear equivalent of five million tons of TNT.

Soviet Premier Nikita S. Khrushchev claimed long ago to have such a weapon that could be fired approximately the distance traveled in Wednesday's Pacific shoot.

A five megaton Russian warhead would pack two to three times the destructive force of America's battle-ready Atlas intercontinental missile. But the Soviet warhead still would have only a fraction of the bomb and guided missile power carried by a U.S. B-52 jet bomber.

The enormous payload capacity of the Russian missile could be developed to carry a smaller warhead plus a group of decoys to confuse defense radar.

Splashes Into Target Area
In their first Pacific test, Soviet scientists fired their rocket 7,766 miles. They claimed their radar, optical and acoustical apparatus showed the dummy nosecone splashed into the target area less than 1.2 miles from the aiming point.

The U.S. Defense Department said in a terse statement that the rocket apparently came down in the 320-by-175 mile target area Moscow stalked out Jan. 8. Defense Secretary Thomas S. Gates said the shot was "damn good" if the rocket landed within 1.2 miles of its goal.

President Eisenhower told Congress in his State of the Union Message that the last 15 Atlas missiles tested landed within two miles of their targets more than 5,000 miles from the launching pads.

Moscow insisted the multi-stage rocket was fired in a program to produce boosters for heavy satellites and interplanetary space voyages. Whether it was a space or a weapon project, the rocket yielded valuable data to the Russians on guidance accuracy and atmosphere re-entry.

See No Planning Change
This data would be equally useful for warfare or scientific space exploration. Except for the ill-fated American Vanguard, all artificial satellites have been launched with military boosters.

For the most part Washington was taking the Soviet fete calmly. Officials insisted there was no need to consider any change in U.S. military planning.

One author of that view was Gates, who called the Russian shot a "normal intercontinental missile test" and said it was "not

particularly" surprising. But a powerful contrary view came from Speaker Sam Rayburn (D-Tex.) who normally does not comment on the annual administration-Congress debate on U.S. defenses. Rayburn said the administration was "just too complacent."

Exams January 28 On Academy Appointees

WASHINGTON — U. S. Rep. E. Ross Adair today announced open competitive civil service examinations to qualify candidates for the fourth district for appointments this year to the Air Force, Naval and Military Academies.

The examinations will be held Thursday, January 28 at 8:30 a.m. in the federal post office building at Fort Wayne.

Young men between the ages of 17 and 22, as of July 1, from Allen, DeKalb, Steuben, Noble, Whitley, Adams, Wells and LaGrange counties are eligible to compete for the appointments.

The congressman has one principal and three alternate appointments to West Point, two principal and 10 alternates to Annapolis and 11 candidates who will compete for the one principal appointment to the Air Force Academy.

Applicants desiring to take the competitive examination should send their requests to Congressman Adair at Room 1511, House Office Building, Washington, D.C. before midnight, January 24.

The purpose of this examination is to assist in determining the best qualified candidates for the appointments. Successful candidates must then pass regular physical and mental entrance examinations of the Academies before admission on July 1.

Holiness Association Will Meet Sunday

The January meeting of the Adams county holiness association will be held at the Mt. Hope Church of the Nazarene, northeast of Berne, Sunday afternoon at 2 o'clock.

The Rev. Vernon Riley, pastor of the Monroe Friends church and president of the association, will be the speaker. The host church will have charge of the music and singing.

Hint Recovery Of Nose Cone Of Red Rocket

MOSCOW (UPI) — Two prominent Soviet scientists indicated today that the Russians may have recovered intact the nose cone of the multi-staged ballistic rocket fired 7,762 miles to within 1 1/4 miles of its target in the central Pacific ocean.

Three Soviet scientific ships were in the test area about 1,100 miles southwest of Hawaii and about 1,000 miles east of the U.S.-administered Marshall Islands. The official Tass announcement on the rocket firing said the ships tracked the nose cone until it hit the water, "less than two kilometers (1.24 miles) from its pre-determined point."

The announcement did not pinpoint the launching site of the rocket which Tass said attained a speed of 16,146 miles an hour. But the distance Tass said it spanned on its flight indicated it was fired from somewhere between the Caspian and Aral seas in southern Russia.

A rocket with such a range could hit any point in the United States.

Today Tass quoted scientist V. Dobronravov as saying "the nose cone of the last stage was protected against burning out while passing through the dense layers of the earth's atmosphere."

The official Tass announcement made no mention of a recovery of the nose cone.

Homer Winteregg Is Head Of Committee

Homer Winteregg was reelected president of the Adams county extension committee at their annual meeting recently. Other officers elected were: Everett Singleton, vice president; Mrs. Lester Sipe, secretary; Wilbert Thieme, treasurer; and Mrs. Gale Cook, director.

The annual meeting was opened by prayer by Rev. Mishler, representative of the county ministerial association. The secretary's report was read by Mrs. Noah L. Habeger. The treasurer's report was distributed and reviewed by Wilbert Thieme. The report of the 4-H building committee was given by Peter B. Lehman, chairman.

Reports of extension activities were given by project committee chairmen and township extension representatives.

New business discussed confirmed the dates of the Adams county fair, August 2, 3 and 4. Discussion also concerned relations of 4-H fairsgrounds and Monroe.

Miss Elizabeth Knapp, home demonstration agent supervisor, spoke to the group as to the meaning of census figures and urbanization. Also Hugh Heckard, county agent about the responsibilities that they have to the county extension program. He pointed out that it takes everyone working together to make it as effective as possible.

The 1960 Adams county extension plan of work was distributed to the committee. The group enjoyed a pot-luck dinner at noon.

Rev. F. G. Kuebler

Rev. F. G. Kuebler At Trinity Church

The F. G. Kuebler, pastor of the Bremen Salem Evangelical United Brethren church, has been chosen to be the guest minister for the evangelistic services at the Trinity Evangelical United Brethren church. Rev. Kuebler is presently pastor of a congregation which averages more than 350 in attendance in both morning worship and church school. He has held successful pastorates in Huntington, Indianapolis, South Bend and Rochester. He is now serving in his eighth year at Bremen Salem.

Rev. Kuebler is known as a Bible interpreter and a minister with a great love for his people. He has served on many conference committees and boards. At present he is member of the conference council, group leader of the Plymouth group, conference statistician, member of the board of pensions and the superintendent's advisory committee.

He will bring his first message Sunday evening at 7 o'clock. He will bring messages on each of the following evenings except Saturday, Sunday, January 31, he will speak in both the morning and evening services.

The music program for the services will include anthems by the chancel choir, youth and junior choir and a volunteer youth choir. There will also be special solos, duets, trios and quartets in every service. Walter Henkel will lead the congregational singing. Harold Mumma and Kay Wynn will preside at the organ, and Linda Jackson will play the piano.

Trinity young people will have special responsibilities in leading the services. They will read scriptures, lead the evening prayers, participate in the volunteer choir on nights on which the chancel choir is not singing, and serve as greeters at the door to welcome people.

The children will have a part in the services also. Every evening Rev. Kuebler will bring a story or object lesson which will be of particular help and interest to the boys and girls.

A supervised nursery will be provided for children under four years of age.

The evangelism committee extends a welcome to the entire community to attend these services and especially to families who have no church home.

Democrats To Kick Off '60 Election Drive

WASHINGTON (UPI) — Democrats kicked off their 1960 campaign today with a national committee meeting that will be climaxed Saturday by a \$100-a-plate banquet featuring seven presidential hopefuls.

Former President Truman also will speak at the dinner, which is expected to bring more than \$200,000 into party coffers. Democrats have complained that the party is financially strapped.

Adlai E. Stevenson will be the only major Democratic presidential possibility who won't speak at the banquet. The unsuccessful 1952 and 1956 candidate originally was scheduled to appear but withdrew on grounds he was not seeking the nomination.

Potentials On Hand
The potential candidates who will address the dinner are Sens. John F. Kennedy (Mass.), Hubert H. Humphrey (Minn.)—the only announced contenders—Stuart Symington (Mo.) and Lyndon B. Johnson (Tex.), and Govs. Edmund G. (Pat) Brown (Calif.), Robert B. Meyner (N.J.) and G. Mennen Williams (Mich.).

At least nine other Democratic governors and hundreds of the party faithful also will attend the affair at the Sheraton-Park Hotel. The national committee planned to take up a proposal by party Chairman Paul M. Butler for fixing quotas on contributions of state Democratic organizations to national headquarters.

Fireworks Could Erupt
Fireworks could erupt on this issue. If they do, Butler's earlier statement that good hotel reservations and convention seats would be allotted according to how states meet their quotas could come up.

Butler this week named a committee to consider appeals from states unhappy about their quotas.

The Democratic convention opens July 11 in Los Angeles. Truman told a news conference Thursday he thought presidential primaries were meaningless and this would be shown by convention time.

Although the former President is widely regarded as a supporter of Symington, he still refused to name his choice for the presidential nomination. He said he would endorse a candidate "at the proper time."

Coldest Weather Of 1960 Retains Grip

United Press International
The temperature slid to zero's fringe area today as the coldest weather of 1960 kept a firm grip on Indiana.

Amid a continuing barrage of light snow flurries, the mercury fell to 3 above zero at Goshen, 5 above at Lafayette, 7 above at Indianapolis, 8 at Fort Wayne, Chicago and Cincinnati, 10 at Terre Haute, 12 at South Bend, 14 at Louisville and 15 at Evansville.

The gentle dip toward the mid-way point on Hoosier thermometers was expected to be climaxed tonight with possible zero readings in the north and near zero elsewhere.

Forecasts called for zero to 5 above northeast, zero to 10 above northwest, around 5 above central, and 8 to 15 above south.

Sub-freezing highs were recorded all around the state again Thursday, and more of the same was due daily until at least Sunday, when a slight moderation was expected.

Meanwhile, snow flurries which increased the depth of the blanket in the South Bend area to 8 inches were expected to continue around Hoosierland into Saturday, probably diminishing before Sunday.

Highs Thursday ranged from 16 at Lafayette to 27 at Evansville. Today's highs will range from 17 to 27 and Saturday's highs from 18 to 32.

The five-day outlook called for temperatures averaging 5 to 8 degrees below normal for the period ending next Wednesday, with a "very slow" moderating trend throughout the period. Scarcely one-tenth of an inch of precipitation in the form of snow north and rain or snow south Tuesday or Wednesday was expected.

"BROASTED" GOLDEN BROWN CHICKEN AND CHOPS
SHAFFER'S RESTAURANT
904 N. 13th St. Phone 3-357

PUBLIC SALE

My health will not permit me to continue my present farming operation, so we will have a complete closeout of our livestock and farm machinery at the farm 2 1/2 miles south of Bluffton on No. 1 road 350, then east to road 450, then south 1 1/4 miles; or, 9 miles west of Berne, Ind. on No. 118 to road 500 E, then north 1 mile; or, north of Petroleum on No. 1 to Reiffsburg, then east on No. 118 to road 500 E, then north 1 mile; on

WEDNESDAY, JANUARY 27, 1960

SALE TO BEGIN AT 10:00 A. M. PROMPT

MODERN FARM MACHINERY

2 TRACTORS—GRAIN-O-VATOR—FORAGE HARVESTER

ELEVATOR—BURR MILL—PLANTER—PICKER—2 WAGONS

2 PLOWS—LINE SPREADER—POWER DIGGER—SPREADER—BLOWER

Case 401 Diesel tractor, eagle hitch, live power, used less than 500 hrs.; 1951 Case "SC" with M & W pistons, with cultivators; Grain-O-Vator auger wagon, 115 bu., 12 ft. auger, tandem wheels; Case forage harvester, corn head and hay pick-up head; McCurdy 40' elevator 21" double chain, used very little; Knodder burr mill with lateral auger, hasn't been used enough to remove paint from burrs; International 449 corn planter, fiberglass boxes, side placement fertilizer, planted 200 acres; 2-row M & W corn picker; 2 sets wagon running gears; 2 McCurdy hopper beds; 2 sets hay ladders with grain boards and ensilage and straw racks; Case 3-bottom 14" breaking plow and Case 2-bottom 14" breaking plows, both on rubber; 3 Lantz coulters; Eze-Flow 10' lime spreader with grass seeder attachment; Case blower, 70' pipe and extra elbows; power take-off post hole digger, 9" auger; 95 bu. manure spreader; 4 bar Case side rake; 7' disc, good; rotary hoe; 3 section spike tooth harrow; 8' double cultipacker; Case junk combine; 12'-4" grain auger.

NOTE—This machinery has been housed and well cared for.

OATS, STRAW AND HAY — 600 bu. oats; 300 bales straw; 400 bales hay.

65 Brood Sows, 105 Feeders, 2 Pure Bred Boars

20 sows with pigs; 20 sows due to start farrowing last of Feb.; 25 Hamp-York cross gilts, due to start farrowing March 20th; 2 meat-type Hamp yearling pure-bred boars from the herd of L. L. Stewart & Son of Frankfort, Ind. These sows are bred to farrow from these boars and are old-immuned. 105 feeding shoats, weight 110 lbs., vaccinated, castrated, wormed, treated for mange, and have had iron shots. These hogs have been raised under a disease-free sanitation program.

HOG EQUIPMENT — Ranger No. 22 hog feeder, 1 yr. old; other feeders; 3 winter hog fountains, stainless steel; 20 hog troughs; handling crate; 18 farrowing crates; 12-sow portable hog house, 2 section 12x18 makes 30x18 building; 15 drop cords and infrared heat bulbs; Cooler sprinkler system and pipe.

BROODER HOUSE, AUTOMOBILE, LUMBER, STORAGE TANK, MISC. 8x16 brooder house; oak 2x10's, 28' long; 2x4's; 4 creosoted poles; 20' long; odd lots of lumber; 1951 Hudson, on good rubber & runs; 300 gal. tank, stand & filler hose; hammer mill; 50' 6" endless belt; 2 water tanks; 42' of cattle feeder bunks; Surge vacuum pump; 14' portable bucket conveyor for liquid manure; steel corner post; 21' feeder fence for bunker silo; 8 rolls picket cribbing; 200 electric fence posts; set of blocks, 150' rope; conveyor buckets, 14x6, with 60' new chain; 30' line shaft; 1 1/4" and pulleys; 4 sets tractor wheel weights; mounted power grass seeder; hydraulic cylinder with quick coupler; 2 oil heaters; 2-gal. milk pasteurizer; etc.

TERMS—CASH Not Responsible For Accidents.

MR. & MRS. HERMAN PENCE, Owners

Auctioneers—Dell Shaw & Walter Wiegmann
Clerk—Farmers & Merchants Bank
Lunch by Bethel Church Ladies Aid.
