## Boy Is Convicted Of Manslaughter

WASHINGTON, Ind. (UPI)—Larry Eugene Brown, 16, charged with second-degree murder in the gun death of a teen-aged rival, was convicted on involuntary manslaughter charges by a Daviess Circuit Court jury late Wednesday.

The jury deliberated for an hour and a quarter before finding Brown guilty of the lesser offense. Judge Robert J. Hyatt ordered a pre-sentence investigation and set Feb. 8 as the date for sentencing. The trial began last Monday.

Brown was charged in the shotgun slaying of Charles Jenne, 18, a married youth who was killed last Sept. 2 at a secluded spot where he had met Miss Alberta Yerkes, 17, a girl whom authorities said also was the object of Brown's affections.

During a defense testimony Wednesday, Brown told the jury "I only meant to scare him."

"I decided to walk down the (railroad) track and scare him," he testified. "When I got there, Jenne called me a foul name and said, 'I am going to kill you.'"

Brown testified that he pulled the trigger of a shotgun when Jenne started to get up. Afterward, he said, he walked 20 blocks to the Washington police station and reported the shooting.

## Packers Union And Members Convicted

CEDAR RAPIDS, Iowa (UPI)—A United Packinghouse Workers of America local union and six officers and members have been found guilty in connection with violent picketing at a meat packing plant.

Local 3 and the members were found guilty Wednesday of contempt of court in violating an injunction forbidding violence and limiting pickets at the gates of the strikebound Wilson & Co. plant here.

Linn County District Judge Floyd Philbrick, however, suspended jail sentences for the members and fined the local \$500. He suspended payment of \$400 if \$100 and trial costs are paid by Friday.

Philbrick dismissed contempt citations brought against three other union members by Wilson, saying he was not convinced the strikers were involved in rock-throwing incidents which broke out at the plant last Nov. 14.

Suspended 90-day jail terms were handed out to Albert Stewart, Floyd Hill, Donald Gatewood and Leo White, all members of the local, while local Vice President Donald Hepker and member Leonard Sipe drew 60-day suspended terms.

The Cedar Rapids plant has been strikebound since Nov. 3.

## Noble Credit Union Plan Is Approved

INDIANAPOLIS (UPI)—A reorganization plan that could put the floundering Noble County Credit Union back on its feet was approved Wednesday by the Indiana State Department of Financial Institutions.

Under the plan approved by the department, shareholders in the bankrupt union would be paid 30 cents on the dollar, but funds would be frozen for the next three years while the firm regained its feet.

The union went into solvency last year when a two million dollar shortage was uncovered. Former manager Arnold G. Hobbs, 34, was convicted on embezzlement charges and was sentenced to a 15 year prison term. Hobbs appealed his conviction to the Indiana Supreme Court.

The plan approved by the department was created by Roger D. Branigan, Lafayette, attorney for the shareholders' committee, and Earl Gates, Columbia City, attorney for the credit union's liquidator. Two-thirds of the defunct union's shareholders had approved the plan before it was submitted to the department.

The department was told the union has total assets of \$1,135,430, including \$486,971 in cash, and total liabilities of \$2,868,520.

Next step for the union is election of new officers and specific plans for reorganization which must win approval of the department.

## Over Half Inch Of Rain Recorded Here

More than one-half inch of rain in two days has swelled St. Mary's river depth more than double since Wednesday's reading, according to Decatur weather observer Louis Landrum today.

At the 7 a.m. reading, the river level was at 6.29 feet, while the depth was 2.65 yesterday. Landrum recorded .25 inches of rain this morning with .32 being listed for Wednesday, totaling .57 inches.

The medium fog that shrouded the Decatur area last night and early this morning seems to have lifted and visibility is improving, Landrum said. This type of fog is known as ground fog, and results from a sudden change in moist air conditions.
