I.U. Preview Meet  
Scheduled Feb. 18

Local high school seniors interested in attending college have been invited by the Indiana University alumni club of Fort Wayne to a "Preview of I.U." meeting Thursday, Feb. 18, at 8:30 p.m. The meeting is scheduled to be

held in the Oak room of the Hotel Van Orman, Fort Wayne.

Miles Gerberding, chairman of the meeting, said that parents of students and all I.U. alumni are also invited. Coming from the Bloomington campus will be Max Skirvin, alumni field secretary, and Samuel E. Braden, dean of undergraduate development.

Mt. Tabor Revival  
Runs Another Week

More than 150 guests attended the 15th consecutive revival night at the Mt. Tabor Methodist church, encouraging the Rev. Roy Johnson, of Spencerville, O., to stay over an extra week; it was announced this morning.

Rev. Johnson has preached nightly for the past two weeks to large crowds, the crowd Sunday night exceeding the others in size.

This was Rev. Johnson's third visit to Mt. Tabor church, having preached at revivals there in 1956 and 1959. Special music by the local congregation accompanied each service, which starts at 7 p.m.

Everyone is invited to hear him during the final week.

## People 60 to 80

If You Will Simply Send Us  
Your Name And Address

... we will explain how you can still apply for a \$1,000 life insurance policy to help take care of final expenses without burdening your family.

You can handle the entire transaction by mail with OLD AMERICAN of KANSAS CITY. No obligation of any kind. No one will call on you.

Tear out this ad and mail it today with your name, address and year of birth to Old American Insurance Co., 4900 Oak, Dept. L213B, Kansas City 12, Missouri.

as seen on TV

wheeee  
now playtex  
brings you  
a fabulous new bra fabric  
holds its  
shape month  
after month  
playtex cotton-pretty bra

Now you can see on TV how actual tests at Good Housekeeping Institute confirm that this new bra holds its shape month after month. It's a special blend of cotton and dacron\* created for the new Playtex Cotton-Pretty Bra. Even after 65 machine washings it won't become limp, shrunken or shapeless. And all new Playtex Cotton-Pretty bra lasts longer—smooth without ironing—softer—absorbs like cotton. You'll wear it longer—than any bra you ever wore. White only. 32A-40C. Only \$2.50.

look wonderful when  
new, but after a few  
washings become  
shrunken and shapeless

Cotton-Pretty bra  
holds its shape and  
fit even after 65  
machine washings

Speed Time Needed  
For Air Retaliation

WASHINGTON (UPI) — President Eisenhower's proposal to share nuclear weapons with U.S. allies is designed primarily to cut the time required to retaliate against any Soviet air attack, it was learned yesterday.

American strategic and tactical bombers in Europe are only between 10 and 20 minutes flying time away from the Iron Curtain.

While U.S. air defense systems could react almost instantly to a Soviet air attack, Eisenhower's military advisers warn that West European anti-aircraft systems

could not be armed at all times.

## Armed After Battle

British submarines and surface vessels, under the Eisenhower scheme, also would be permitted to carry atomic weapons whenever they leave port.

Under present arrangements, foreign vessels would receive their atomic weapons from the United States only after the battle had started.

The administration apparently has not yet decided which of two possible methods it wishes to use for the new arrangement: "systems," and prepare them for fir-

ing.

Eisenhower, according to reliable sources, hopes to come up with an arrangement under which the warheads could be mounted at all times.

British planes which would carry American-made atomic weapons in wartime are not now armed. Under the Eisenhower plan, however, such planes would be armed at all times.

## Question of Time

This is so primarily because although Britain and other NATO members have received American-made weapons designed to carry atomic warheads, the warheads themselves are stored in separate installations.

Time would be required to unlock the warheads, mount them on their carriers or "delivery sys-

tems."

The administration apparently has not yet decided which of two possible methods it wishes to use for the new arrangement: "systems," and prepare them for fir-

ing.

Eisenhower, according to reliable sources, hopes to come up with an arrangement under which the warheads could be mounted at all times.
