Expect Hog Prices To Continue Steady

Hog prices are expected to continue steady to strong for the next few weeks with their peak arriving during July or August, say Purdue University agricultural economists.

However, weaker fed cattle prices are in prospect for June, a good month to cull cows.

After touching a seasonal low, fluid milk prices should start to rise in July.

Wheat prices probably will decline as the harvest begins. The economists forecast Indiana wheat prices to average 10 to 15 cents a bushel below the loan rate of \$1.81.

Corn and soybean prices should remain near current levels until 1960 crop prospects become evident.

In the wake of new record levels of broiler placements and egg settings, July and August broiler prices will probably be considerably below present levels.

However, fewer layers and a 25 per cent drop in egg-type chick replacements likely will result in substantial increases in egg prices during the late summer and early fall.

With the Indiana crop of strawberries 10 days to two weeks late, but of favorable quality, prices to growers should be above the 1959 average of 19 cents a pound.

20 Years Ago Today

June 1, 1940—Rescue of thousands of trapped Allied soldiers in Flanders is hailed as military miracle.

Citizens of Geneva will meet June 12 to consider a new site for a new town hall.

Iven Riley Richey will celebrate his 103rd birthday anniversary June 9 at his home in Tocsin.

Adams county's Red Cross war relief quota has been doubled to \$2,000, as the local fund is now slightly over \$500.

Three Wells county men have been fined for killing a cock pheasant out of season along the Wash river in Adams county.

The annual homecoming of the Pleasant Mills Baptist church will be held Sunday.
