Kennedy Relaxes In Vacation At Seaside

HYANNIS PORT, Mass. (UPI) — Sen. John F. Kennedy moved today to win for himself the votes which the state of Virginia cast for President Eisenhower in the 1952 and 1956 presidential elections.

The Democratic presidential candidate, vacationing at his Cape Cod summer home announced appointment of William Battle, Charlottesville, Va., as executive director of his campaign in Virginia.

Pierre Salinger, Kennedy's press secretary, said Battle had accepted the appointment and "could expect to work closely with the regular Democratic organization including Gov. (J. Lindsay) Almond and Sen. (Harry F.) Byrd."

"He also hopes all other groups in Virginia will unite behind Senator Kennedy and try to win Virginia which the Democrats lost in the last two presidential elections," Salinger said.

Salinger said Battle, son of former Gov. John S. Battle, was named "after consultation with the Democratic state committee in Virginia." Kennedy has known him since World War II, when Battle commanded the group that rescued Kennedy after his own PT boat was sunk by the Japanese in 1943.

Salinger also was asked to clarify his statement of Sunday night in which he said Kennedy and Sen. Lyndon B. Johnson, his running mate, would be happy to participate in top secret intelligence briefing which President Eisenhower had offered. A newsman said the statement left some doubt as to whether they would do so alone or wanted to share these briefings with Adlai E. Stevenson and Rep. Chester Bowles (D-Conn.) their liaison men with the White House.

"Senator Kennedy and Senator Johnson will be happy to participate in any way the President desires," Salinger replied.

The Democratic presidential nominee arrived at this picturesque Cape Cod resort Sunday night to a rousing welcome from U.S. reconnaissance jet shot down by Soviet planes July 1.

Russia Sunday asked that the council be called into session to consider the Congo — presumably to complain that Belgian troops have not been withdrawn from that African country. Council President Jose Correa of Ecuador planned to put it on the docket for Tuesday.

Miller, who believes he would be the youngest pilot ever to fly by himself from coast to coast, landed at Richmond Municipal Airport early Saturday evening and took off again shortly after dawn Sunday.

He plans to visit an uncle at Coopersport, visit a friend near Boston, Mass. and fly to South Carolina before heading westward on his home journey through Oklahoma and Texas.

Miller said his father, a pilot for Pan American Airlines, taught him to fly when he was 8 years old. He got his operator's license last February. He will be a high school senior next fall.

Miller sleeps in the plane, eats most of his meals from a canned food supply he brought along.

The plane is small and has a gas tank which holds only 18 gallons. He usually flies at an altitude of about 10,000 feet.

Breakin Is Reported At Willshire Store

Local and state authorities were alerted Saturday night on reports of a break-in and robbery at Pete's Place in Willshire, O. A lady living near the business house heard a rear window being opened and saw two young men in the building.

She immediately called the Van Wert sheriff's department but the intruders had made their escape in an old model car parked outside the building. Only items reported missing were some cigarettes and potato chips.

Urge Anti-Trust Laws For Unions

SOUTH BEND, Ind. (UPI) — Former Rep. Fred A. Hartley, Jr., co-author of the Taft-Hartley labor law, said Sunday night that anti-trust legislation should be written for labor unions.

Hartley, speaking on the Marion radio forum under the auspices of former Notre Dame law school dean Clarence Manion, said also that the Landrum-Griffith law should be strengthened to prevent mass picketing, eliminate "feather-bedding" provide for secret strike votes, and support the "right to work" laws.

However, Hartley said the major problem is curbing union "monopoly" powers. He called for the passage of a bill which has been introduced in Congress to apply the anti-trust laws to labor organization.

"If these proposals are eventually adopted," Hartley said, "labor and management will stand equal before the law. The collective bargaining rights of the workers will in no way be impaired, and . . . they will contribute to the greatest era of industrial peace that we have experienced in many a decade."
