Nixon Winds Up Campaign Of Hawaiians

HONOLULU (UPI)—Vice President Richard M. Nixon declared Thursday night that the United States will never "tolerate being pushed around" and that it will stand with forces of freedom in West Berlin, Cuba or "wherever it is."

He told 11,000 people in Honolulu's picturesque Kapiolani Bowl on Waikiki Beach that the United States must be "firm without being belligerent" in foreign affairs.

If he is the next president, Nixon served notice that the Soviets could expect negotiations only from a position of U.S. strength and only if there is a reasonable prospect for success.

Nixon spoke from a concert shell only a few hundred yards from the lapping waves at the climax of a two-day campaign romp over the 300-mile length of Hawaii's island chain.

Returning to Mainland

The vice president was scheduled to fly at 12:35 p.m. e.d.t. today to Seattle for more campaigning.

Earlier, Nixon had told television interviewers that if elected he would take more direct control of foreign policy than President Eisenhower did.

"It is essential that the president directly assume control and consolidation of non-military policy," he said in response to questions on a show that oddity, was never broadcast because of technical difficulties.

But Nixon said these remarks were not a criticism of President Eisenhower. "The situation is changing and conditions will be different in the next few years."

Comments On Lodge

In his Kapiolani Bowl speech, Nixon stressed again his idea of putting his running mate, Henry Cabot Lodge, in charge of non-military cold war programs is their ticket will be in November.

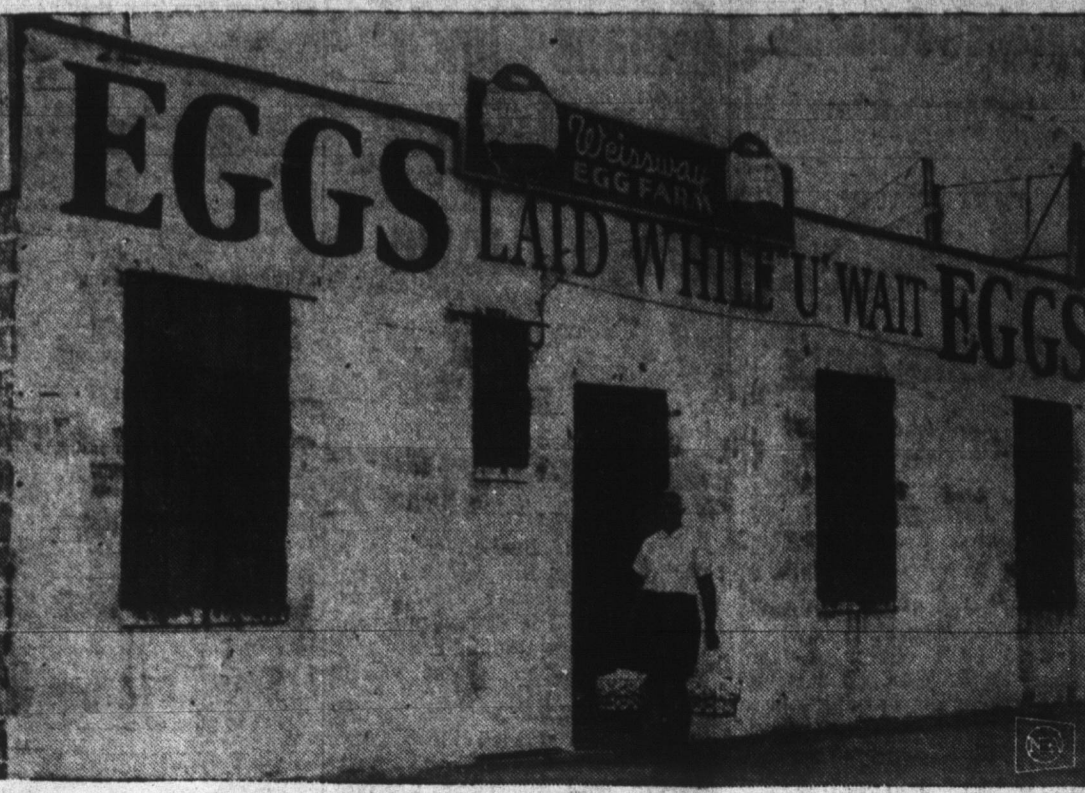

Nixon promised that if he becomes president, "we will never place ourselves in a position where we will have to negotiate from weakness."

The insular audience, including many Orientals, was told that old concepts of colonialism versus democracy no longer hold true in Africa and Asia.

He said new nations would side with the West if they can make progress.

Foreign policy, Nixon said, was "the greatest issue of the campaign."

He invited the audience to look at both him and Democratic nominee John F. Kennedy and "measure us both" and "then decide what road America must take."

Severely Injured As Auto Hits Bridge

Max Leroy Rauch, 23, route 2, Berne, suffered severe facial lacerations when he apparently fell asleep at the wheel of his car and hit a bridge abutment, demolishing his car. The accident occurred at 11:30 p.m. Thursday on state road 116, 1 1/2 miles east of Geneva. Rauch apparently fell asleep while heading east on 116. He crossed the roadway and hit a concrete abutment on the left side of the road.

Rauch was taken to the hospital with a severely laceration to his nose and forehead. His tongue also was severely lacerated. He went into surgery last night and was in deep shock throughout the night. He was listed as doing much better this morning, however, as he recovered from the shock.

Midwest, Atlantic Coast Hit By Rain

United Press International

Mid-summer rains Thursday night soaked much of the Middle West and Atlantic Coast, already hard-hit by torrential downpours that caused millions of dollars' damage and several deaths.

Floods and storms which swept the eastern half of the country this week caused at least five deaths in Illinois, Wisconsin, Michigan, Florida and West Virginia. A vicious onslaught which hit West Virginia stopped railroad trains in their tracks and washed away one home and two highway bridges.

Officials in Florida estimated flood damage at \$2 million around Tampa and \$2.25 million in a six-county area.

The heaviest downpour in 30 years doused Evansville, Ind., with 3.2 inches in less than 1 1/2 hours.

Winds of 45 miles an hour blew through Washington, D.C., which reported an unofficial three inches of rain. Up to three feet of water swamped some streets in the capital and suburbs.

A 6.2 inch downpour started a flash flood at Lakes Street Park in southeast Ohio, routing 400 campers. Roads were under water and trees were uprooted in the area.
