

Capsule Recovery Hailed Milestone

WASHINGTON (UPI)—The Air Force said today its historic recovery of the Discoverer XIII capsule brought the United States "considerably closer" to its goal of rocketing manned vehicles into space.

Lt. Gen. Bernard A. Schriever told a news conference the Air Force planned to follow up its achievement by trying to launch and recover a similar object with a chimpanzee aboard, possibly within a month.

Schriever, head of the Air Force Air Research and Development Command, said there would be a 50-50 chance of recovery of similar capsules in future tests.

The 85-pound, silver-coated capsule was fished out of the Pacific Thursday about 300 miles northwest of Hawaii by a Navy helicopter.

It had orbited the earth 17 times in the Discoverer satellite.

"Significant Milestone" Schriever termed the feat "a significant milestone in the space age."

"The techniques of recovery plus the life specimens will bring us definitely closer to success in the man-in-space program," he said.

He also said the capsule, first man-made object recovered from an orbiting satellite, also provided important data recorded by its instruments.

The capsule itself weighed 85 pounds. Its retro-rocket and equipment for keeping it afloat and guiding searchers weighed 215 pounds. So the total weight of the package brought back from space was 300 pounds.

Schriever said the Air Force has been preparing a "small chimpanzee" as a passenger on one of the future shots in the Discoverer series.

He said the "chimp shot" probably would follow one more non-life shot which is scheduled in about one week. Schriever said the Air Force planned two shots per month if conditions permit.

The Air Force research chief emphasized that recovery was "still a real tough problem," but said that he felt the present success would lead to a higher rate of recovery.

Expected Much Data E. A. Miller, manager of the Discoverer program for the General Electric Co., said the capsule's instruments monitored "all of the significant events of the rocket's stages."

He pointed out this would provide a record for the first time of an object's re-entry into the earth's atmosphere.

Miller also said the instruments gathered data on temperature, pressure and deceleration problems that must be solved before the nation can put a man into space.

"This is all significant technical information," he said. "We expect to get quite a lot of data for the first time."

AMERICAN LEGION OFFICERS INSTALLED—Herman Bittner, right of center, accepts the gavel as incoming commander of the American Legion Post 43 from Robert White, Auburn, district commander, left of center, with the past commander, Ambrose Spangler, center. Officers pictured are: Sealing, fourth vice-commander; and Robert Raudenbush, adjutant; rear, standing, from left to right, Wendell Macklin, three-year trustee; Robert Ashbaucher, trustee; Norman Scheumann, sergeant-at-arms; White, fourth district commander; Spangler, Bittner; Dan Emenhiser, trustee; and Charles Chew, first vice-commander. Dr. R. K. Parrish, second vice-commander, was not present for the ceremony.

Farm Bureau Film On TV Sunday

A new film, "Food for Thought," which is a feature story of Indiana farming, will be shown on WKJG-TV in Fort Wayne Sunday at 3:30 p.m. This is a Farm Bureau produced film and those watching the Sunday afternoon show will gain a first hand look at Hoosier farming.

KENNEDY

(Continued from page 1)
"Franklin D. Roosevelt was a Phi Beta Kappa, the highest general scholastic honor granted, yet Sen. Kennedy's achievement was even higher than this. Never has so brilliant a man been nominated for our highest office."

Religious Issue
"Yet there may be those who say, yes, this is fine, but maybe we should not let a Catholic serve as president."

"Let me touch briefly on the religious issue. When the 55 men who wrote the constitution of the United States met, they included"

Episcopal, Catholics, Congregationalists, Presbyterians, those with no church, and many others.

"And the constitution which they formed, and which still stands inviolate today, plainly says, in Article 6, that"

"... but no religious test shall EVER be required as a qualification for any office of public trust or profit in the United States."

Washington On Bigotry
"When George Washington, towards the end of his great patriotic career, spoke at the First Baptist church in Philadelphia, he said,"

"We have abundant reason to rejoice, that in this land, the light of truth and reason has triumphed over the power of BIGOTRY and SUPERSTITION, and that EVERY person here may worship God according to the dictates of his own heart. In this enlightened age, and in this land of equal liberty, it is our boast, that a man's religious tenets will not forfeit the protection of the laws, nor deprive him of the right of attaining and holding the highest offices that are known in the United States."

My Grandsons
"I myself was born and reared a Baptist, but I married a Methodist, and we compromised and joined the Presbyterian church, in which I have been quite active. In 1842 my grandmother left Ireland during the great potato famine that took one-third of the inhabitants of that country, and I have had the pleasure of seeing her signature on the registry of St. Paul's Cathedral in Court, Ireland. My grandfather was an Episcopal from London."

"Today I have three grandsons, all in their early teens. One is, like myself, a Presbyterian; the second is a German Lutheran; and the third is a Roman Catholic."

"As any grandfather, I love all my grandchildren equally. Is it to be expected of me that I say to two of them, yes, work hard, you can attain any goal you set for yourself, yes, even president of the United States—and to the third say, no, my grandson, you can work just as hard, learn just as much, mean just as much to me, yet you can never be president?"

"No ladies and gentlemen, I say to you, and I hope you will tell every friend, that it is the ability, intelligence, and capability of a president, not his smile, his golf game, his religion, or other non-governmental characteristic, that should determine our choice of president in this crucial year."

Kingsley Speaks To County Rural Youth

Rural Youth members and guests heard Leonard Kingsley, of Berne, describe the 2½ years he and his family spent on the island of Timor at the Adams county meeting Thursday evening. Kingsley spoke to the group, telling about the people of Timor, the history of their land, and also showed slides of the island and its inhabitants. Jerry Gerber, local member, introduced Kingsley to the group.

Safety mixers opened the meeting, led by Legora Markle. A contest was held to see who could find the most safety hazards.

The business session was conducted by Leslie Plouffe, president. Jerry Springer led group singing and Joyce Busick gave the devotion. Guests were introduced from Adams and Wabash counties.

The special feature for the month will be a swimming party to be held at Pine Lake Friday night, August 19. Other business announcements included the foot-long hot-dog stand to be held at the Berne fall festival and the report of the 4-H fair stand, by Clair Inniger. The local club operates the 4-H fair stand as a community service with all profits being turned over to the 4-H treasury.

Members were reminded to send a birthday card to Robert Brown, who is in the Parkview hospital in Fort Wayne. The group also discussed giving blood in the name of Robert Brown, and several members volunteered.

Carol Fox of Hartford township was elected secretary for 1961 to replace Joan Fleming, who had resigned the office.

Monkey, was presented to the local club by Wabash county.

John Mesberger gave the special feature of the evening, which was a humorous reading.

Recreation was led by Carolyn Moore and John Mesberger, and Leslie Plouffe and Ted Kipfer served refreshments.

Dance For Teenagers At Center Tonight
The teen council will sponsor a dance tonight at the Youth and Community Center, starting at 8:30 and lasting until 11:30. The dance was originally scheduled for the Elks home to be sponsored by the Explorer Scouts, but was changed yesterday.

Ball State To Offer Course At Bluffton

Ball State extension will offer a course for the fall quarter to be held in Bluffton in one of the following subjects. There must be 16 registrations on or before August 2. The course will give four quarter hours of graduate or undergraduate credit and will start late in September.

The following courses should be considered by interested teachers or other adults and an expression of interest and preference should be in the office of the Wells county superintendent of schools, L. C. Lieurance, as soon as possible. Information may also be secured by calling 01 or 1397, Bluffton.

1. Education 400g. Current movements in education. Investigations of trends and practices of modern education throughout the world, with emphasis on viewpoints and underlying philosophies. A total of 8 hours credit may be earned in this course; that is, it may be repeated if taken once before.

2. Education 414.1 and 545. Coordinating school and community. School and community relations. Planning with other community agencies to avoid duplication, effect economies, and evolve a constructive pattern to reinforce important accepted objectives. Communicative techniques and cooperative scheduling of events.

3. Education 510.1 and 410.1 Curriculum development. Principles to be used in determining the nature and content of the learner's experiences in the public school. The issue of essentialism and progressivism, teacher-pupil planning.

4. Social science 425g. Public administration. Organization, personnel, and functions of the various agencies of administration—national, state and local.

5. Social science 44g. The family. The role of the family in contemporary society, factors influencing trends in family structure, functions, roles stability, and their implications for both the community and for individuals at varying stages of the family life cycle.

6. Social science 449g. The community. Major differentiating characteristics, with special emphasis on the urban community. Basic patterns of social and economic organization and factors contributing to community integration and disorganization.

It has already been announced that there will be a Ball State art education course "Art in the elementary schools and recent trends in art" offered in Bluffton in the spring quarter which begins the week of February 20.

This course gives four quarter hours credit, both graduate and undergraduate. It will be given if 16 or more teachers or other interested adults have enrolled on or before January 20, 1961.

Nickel Plate Vets Attend Convention

Two Nickel Plate railroad veterans from Decatur will leave Saturday at 6 a.m. for Cedar Point, O., to attend the 53rd anniversary convention of the Veterans' association of the railroad, which is for any man or woman who has worked for the Nickel Plate 25 years or more.

Ed Highland, a 52-year man, and Frank Rumble, who has over 25 years of service, will represent Decatur at the convention. They will make the trip with Charlie Kohne, of Willshire, O., and Charlie Stroud, of Bluffton, both of whom have over 25 years of service.

A business session will be held in the morning with F.S. Hales, president of the association and a member for 19 years, speaking to the nearly 1,000 men and women who are expected to attend. H. E. Massillon, O., is this year's president, locomotive engineer from Decatur of the association and will serve as chairman of the convention.

The business sessions will end about 11 a.m. and until about 3 in the afternoon the veterans will enjoy a general get-together. A banquet will be served in the evening and will be free to all those with 50 or more years of service.

NOTICE
Notice is hereby given that the assessments in the Grandstaff Drain in Root Township, Adams County, Indiana, have been placed on the Ditch Tax Duplicate for collection November 1, 1960.
