## "MEMOS" from your Stylist

"MEMOS" FROM YOUR STYLIST  
By: Cassandra (Cassie) Strickler

The perfect combination for keeping the human body in shape is exercise and rational eating habits. However, few people seem to have either the time or the inclination to exercise consistently and eat with restraint.

Exercise, whether it be sports, calisthenics or machine-type, should be engaged in with consistency. A frantic day of wild exertion can't make up for several months of inactivity. The same steady dedication to proper dieting must be observed if the individual is to assume and retain the figure desired.

What you may desire in the matter of hair styling, however, is another story. The happy answer to that story will be found at CASSANDRA'S HOUSE OF STYLE, where our stylists know all facets of their trade. Make your appointment soon at CASSANDRA'S HOUSE OF STYLE, 215 So. 3rd St. Phone 3-3714.

THIS WEEK'S HELPFUL HINT: Smooth, velvety skin can be had by rubbing cheeks, chin and forehead with a skinned avocado.

**Squeaking Floors**  
To stop the annoying squeaks caused by two floor boards rubbing against each other, spray some powdered graphite or sprinkle some talcum powder between the offending boards at the friction spot. The graphite or talcum will work its way between the loose boards and act as a lubricant in preventing further squeaks.

**Remeshing Zipper**  
To remesh a zipper that pulls out of its slider, remove the slider to the open end, hold it loosely, and insert the end tooth on the pull-out side into the slider where it belongs. Be careful to hold flat the rest of the zipper in front of the zipper in front of the slider, so that the two sides are exactly parallel and so close they almost touch. If you are holding them correctly, you can hold the ends of the tape as the slider pulls up and meshes the teeth.

**Smooth Starch**  
Never allow your starch to stand uncovered, since that is what makes that annoying scum form over it, which breaks up into lumps when the starch is used.

**Solder Stains**  
Lead or solder stains on rugs or clothing can be removed with mercury, also called quicksilver. With a dull knife, scrape off as much as you can. Then pour a little mercury onto the stain and work it around with a glass rod or stick, until the stain is absorbed. CAUTION: Mercury is poisonous!

**Beautified Bridge Table**  
Has the top of your bridge table become worn and shabby looking? A simple renovation job can be done with a piece of left-over floor linoleum. Cut it to fit the top of your table, right to the edge, then secure the linoleum with some linoleum cement. Your table will reward your work with longer life, an unusual appearance, and an easy-to-clean surface.

**Miniature Yuletide Tree**  
If you'd like a miniature tree this Christmas, mix plaster of paris with water, pour it into a greased pan, sprinkle it with snow powder, and stick your midget three in the middle while the plaster is still soft. When it hardens, you'll have an attractive, solidly-based tree for a centerpiece or window sill.

### Other Activities

He is a member of the national 4-H club foundation's board of trustees, and a member of their sponsors council. ## Two Persons Killed At Ligonier Monday

A head-on truck-car collision on the crest of a hill on U. S. 6 a mile east of Ligonier killed two persons Monday, raising Indiana's 1962 highway death toll to at least 25 compared with 26 this time last year.

Killed were Mrs. Florence Larkin, 57, Wolcottville, the car driver, and Robert Conrad, 16 Ligonier, a passenger in the truck which was driven by Harold Gaff, 20, Columbia City.

Gaff and Mrs. Larkin's daughter, Mrs. Wyveta Hill, 37, Wolcottville, were injured critically and taken to McCray Hospital, Kendallville. Also hospitalized was Clair Morris, 20, Albion, another passenger in the truck.

## Mother Of Two Is Brutally Murdered

FULLERTON, Calif. (UPI) — A mother of two children was bludgeoned to death in her home Monday and police said the slaying was similar to that of wealthy socialite Doris Bowman.

The body of Mrs. Charlotte Schmidt, 46, was discovered by her husband, Ethan, also 46, when he returned from work Monday evening. He works in the research laboratory of the Union Oil Co. in Brea, Calif.

Deputy Coroner John Egan said the victim was fully clothed.

Mrs. Bowman was murdered Jan. 2. Her fully clothed body was discovered face down in the bathtub of her \$100,000 home. An autopsy showed she was not raped.

Both women died from six or seven blows on the head from a blunt instrument.

"There was no bathtub here, but everything else has similarities" to the Bowman slaying, said Fullerton Police Chief Wayne Bornhoft.

"We have no idea of the weapon used," Bornhoft said.

Mrs. Schmidt was the mother of a son, Frank, 20, and a 22-year-old daughter.

The sites of the two slayings are about 40 miles apart. Pacific Palisades where the Bowman home is located is northwest of this Los Angeles suburban city.

Los Angeles detectives have been working on the Bowman slaying but so far have not arrested a suspect.

Officers were puzzled at the apparent lack of a motive. The Bowman home was not ransacked. The murder weapon was never found.

The Schmidt home also was not robbed, police said.

## Four Children Are Abandoned In Rain

BEDFORD, Ind. (UPI) — Four children ranging in ages from 5 weeks to 5 years were abandoned here by their parents in a heavy downpour Sunday night, authorities reported.

A witness reported that the oldest of the children, a 5-year-old boy, ran crying after the car in which his parents departed after leaving the children in a street. The boy had the 5-week-old baby in his arms.

The parents told the children to go to the home of their paternal grandparents a block away. The police said the parents are separated and a divorce case is pending. The mother lives in Bedford and her husband in Bloomington.

A witness phoned police who found the children at their grandparents' home. The children later were taken to the home of an aunt in Bedford while the probation department of Lawrence Circuit Court investigates the case.
