## Our Health Department

About ten days ago we published the report made by the state department of health concerning the local health board, which includes Dr. John Terveer, city health officer; Dr. A. H. Girod, Dr. C. William Freeby, Dr. R. E. Allison, and Mrs. Walter Gilliom.

This is the board that hires the city health sanitarian, Ray Lehman. The sanitarian, in the state report was complimented for his efforts, but the board was actually criticized, rather plainly, for not enforcing the local ordinance.

When the board took steps to comply with the state request, some local people got the idea that this was the doings of the sanitarian himself. It was not—the state department of health just feels that it is time to start moving forward, and practicing better health measures.

Certainly you would be ashamed to serve someone a glass of water or a cup of coffee with lipstick marks on it, or dirt around the edge. You would not knowingly permit weevils in your flour, or rats in your stored potatoes or goods.

This is just good common sense. But it appears that some of our local restaurant and grocery people do not understand public health: when you ask a public place to be kept up to state standards, and our local health ordinance is just a re-enactment of the state regulation, — why, then the people take it personally.

No one's feelings should ever have been hurt. The whole idea is to clean up Decatur's places of business and get them up to minimum standards, set in 1943, and accepted since that time. Businesses should welcome the health decal as proof that they are complying, not only in the front parts of their establishments, but in every part of the store.

Not one complaint has been made, to our knowledge, back to the city board of health that any more than "sour grapes." If you think that the sanitarian has been unfair, then take your case to the board of health. We have not published these proceedings in full because we do not want to embarrass individuals, if good health measures can be established here any other way.

But, the proceedings of the health board are public, and if the businessmen insist that their violations be made public, it will be done. We hope your stomachs are strong enough to stand it.

We would like to compliment Mayor Gage and the city council, for backing up the department of health in this matter. There is nothing in the code that a good housewife would not insist upon, and certainly it is a bare minimum of what should be expected in public.
