Five Escape From San Quentin Prison

SAN QUENTIN, Calif. (UPI)—Five minimum security convicts at San Quentin Prison broke out of the state penal institution early today by scaling a 40-foot wall with a stolen ladder and made good their escape, prison officials said.

Some 30 San Quentin officers, in addition to California highway patrolmen, local police and Marin County sheriff's deputies, immediately launched a search for the men.

Warden Fred Dickson said the men, three of whom were serving light sentences, were working the night shift in the textile mill. He said they used two large screwdrivers to break into a locked room and steal a 40-foot extension ladder.

Except for the screwdrivers, it was believed that the men were unarmed. They were wearing prison denim uniforms.

It was the biggest escape at the 4,461-man prison, according to guards and prison officials, since the early 1940s.

NOTICE OF SALE OF PERSONAL PROPERTY AT PUBLIC AUCTION
The undersigned Administratrix of the Estate of Glen L. Chronister, deceased, being estate number 5124 in the Circuit Court of Adams County, Indiana, by virtue of an order of said Court authorizing the same, hereby gives notice that she will on the 12th day of April, 1962, offer at public auction at the late residence of said decedent in St. Mary's Township, Adams County, Indiana, the following personal property of said estate, to-wit: Ford Tractor, Corn picker, Grain drill, Mower, Power saw, Miscellaneous farm tools & equipment, 1950 GMC truck, Mfr's Ident. Denies Claim Made On Radar Station

OMAHA (UPI)—A communications failure during last fall's Berlin crisis gave false indications that the Air Force's Thule, Greenland, radar station might have been obliterated by missile attack, the Strategic Air Command said today.

The North American Air Defense Command (NORAD), Colorado Springs, denied the claim. The SAC confirmation came following publication of a copyrighted story Sunday in the Washington Star which said planes carrying H-bombs were rushed to runways throughout the world during a four-minute alert caused by the communications failure. While admitting that the incident occurred, a SAC spokesman insisted it was only "seconds" in duration.

"The story was essentially correct with one exception and that was the portion pertaining to the amount of time it took us to find out that this was not an attack, but merely a mechanical failure," the SAC spokesman at Offutt Air Force Base said.

"We had an aircraft on a training mission in the Thule vicinity. We immediately contacted this aircraft and confirmed that Thule was still there. We then knew immediately that it was a mechanical or communications matter and not an attack. This took only a matter of seconds and not four minutes," the spokesman at SAC headquarters said.

SAC declined to reveal the date of the incident.
