## Foreign Aid Bill Signed By Kennedy

WASHINGTON (UPI) — President Kennedy Tuesday signed the \$3.9 billion foreign aid bill, which was a billion dollars short of what he wanted. It also was \$586 million less than last year.

## Ike Urges All Americans Back Stand On Cuba

WASHINGTON (UPI) — Former President Dwight D. Eisenhower said Tuesday night that Americans should support President Kennedy's action against Cuba. But he said that didn't mean they needed to support his political views.

Eisenhower, in a speech at a Republican rally near his farm at Gettysburg, Pa., said "Though we support the President in foreign crisis, we do not have to support him when he speaks or acts as head of a political party."

"A united America need not and should not degenerate into a conformist, silenced America," he said. "Unity should not become an excuse for compliant submission by Republicans or a shield against our valid criticism of Democrats."

Eisenhower has said previously that Cuba should not be made an issue in the November congressional elections, but most Republicans had not heeded his advice.

In California, former Vice President Richard M. Nixon campaigned from the northern end of the state to the south. Gov. Edmund Brown, Nixon's opponent in the California gubernatorial race, lambasted Nixon's stand for tougher narcotics laws.

He insisted the state's narcotics laws were tough enough already and said Nixon didn't know "the difference between aspirin and heroin."

In Illinois, Rep. Sidney Yates, running for the Senate against Senate GOP Leader Everett M. Dirksen, planned another day of galloping campaigning through Chicago. Dirksen was in Washington because of the Cuban crisis.

In Michigan, Gov. John Swainson cancelled his campaigning plans to continue discussions with state officials over Michigan's plans in the event of a national emergency.

His GOP opponent for the governorship, George Romney, called for support of Michigan's mental health program saying many persons are waiting to get into the state's mental hospitals.

## UNITED STATES (Continued from Page One)

ing in the United Nations Security Council of put through a resolution calling for removal and dismantling under U.N. supervision of the missiles now in Cuba. Russia was certain to veto the proposal and Cuba reacted derisively toward the U.S. resolution.

High government sources confirmed what congressional leaders learned from their meeting late Monday with the President—that as a matter of military expediency, invasion plans were going forward.

These sources said, however, that this country hopes that success in the United Nations would make invasion unnecessary.

## Says More Needed

Chairman Richard B. Russell, D-Ga., of the Senate Armed Services Committee reportedly told Kennedy Monday that action stronger than a blockade would be necessary to root the already-installed Soviet missiles out of Cuba.

The blockade was ordered into effect at 10 a.m. EDT. Word of the President's action was flashed around the world during the night to all nations operating merchant vessels.

Early today, the U.S. Navy broadcast warnings to merchant ships to stay clear of the Windward Passage, Yucatan Channel and the Florida Straits. The Navy said these heavily traveled sea routes near Cuba may become "dangerous waters."

Test Imminent  
First test of the blockade could come today, according to Defense Secretary Robert S. McNamara. Ships of any nationality attempting to pass into Cuban ports will be stopped and searched for arms ranging from missiles to bombers.

Vessels attempting to run the blockade will be halted by U.S. weapons and sunk if necessary. No precise hour for the first contact between Russian ships and U.S. blockade units was forecast, but the first test was expected during the afternoon unless the Soviet vessels change course.

A showdown at sea seemed inevitable. Valerian Zorin, Soviet delegate to the United Nations, said "no self-respecting state will permit its shipping to be tampered with." In Havana Premier Fidel Castro thundered that the U.S. arms quarantine "will very soon have repercussions."
