

Castro Follows Up Red China's Line

MIAMI (UPI) — Cuban Prime Minister Fidel Castro fell into step with Red China's hard line today and urged revolutionaries throughout Latin America to "hurl the masses into combat."

"That is the duty of revolutionary leaders," he said. "That is what they did in Algeria and what the (Communist) patriots are doing in South Viet Nam. That is what we did too."

The bearded Cuban leader, in a speech broadcast by Havana Radio, said that as far as he is concerned the Caribbean crisis has not ended.

Although Castro did not name the Soviet Union or Premier Nikita S. Khrushchev, he assailed unidentified "critics" in a way that described Moscow and its policy of "peaceful coexistence."

Attacks Theoreticians
In particular, Castro assailed "false interpretations of history." "Some Johnny-come-lately the-

oreticians have said that in Cuba there was a peaceful changeover from capitalism to socialism," he said. "If there had not been an armed fight by our people, we still would have seen (ex-President Fulbright) Made, in the U.S.A. Batista with us."

Castro lashed out at persons who criticized the ORI—his "poliburo"—for its refusal to live up to Khrushchev's promise to allow inspectors to verify the withdrawal of Soviet offensive weapons from Cuba.

"There was no lack of isolated voices of criticism against the national leadership of the ORI on Cuba's attitude toward territorial inspection and the pirate (U.S. inspection) flights," he said.

Never Submit
"For them apparently we should have allowed ourselves to be inspected in order to consecrate the right of the imperialists to declare what arms we can or cannot have. We shall never accept those demands..."

"Those who cast doubt on the

correctness of the leadership of the Cuban revolution are making a mistake. Those who foment division are committing a lamentable treason."

Castro's speech contained the customary denunciations of President Kennedy and the United States, which he described as "the most aggressive nation in the world."

"For us, the Caribbean crisis has not been resolved..." he said. "A war was avoided but the peace was not won."

SPECIAL WASHINGTON REPORT

Communism at Home

By Attorney General Robert F. Kennedy

A letter came to my office from an irate citizen. He was upset about something the Department of Justice was doing and as a closing threat to his argument, he added, "Instead of worrying about this, why don't you round up all the communists in this country as you are supposed to be doing?"

This demand is not an unusual one in our mail. Many like it come not only from irate citizens but from those who are simply concerned about the threat of communism in this country.

Americans need to be concerned about the danger of communism. We are facing a dedicated, resourceful enemy who makes no secret of his goal—to replace our way of life with his, the world over.

We are staunchly resisting the advances of communism from the Himalayas to Havana. We are risking the lives of our young men and spending our resources to see that the tyranny of communism is not imposed on our allies.

The communist advance is not necessarily in military formation. Communists adopt the pose that best suits their needs in a particular situation—as agrarian reformers in China, leftist workers in Japan, anti-colonialists in Africa.

Americans must be alert to the danger of communism in whatever guise it may appear. But to be effectively alert, we must know our enemy and we must know the best way to defeat him.

The most visible thrust of communism in this country is the Communist Party, U.S.A. At various times this organization has adopted the trimmings of our political parties—conventions, committees and even occasional campaigns and candidates.

Yet, the Communist Party is not a legitimate political organization. As the Supreme Court affirmed last year, it is "substantially directed, dominated and controlled by the Soviet Union which controls the world communist movement."

This is the group that some want "rounded up."

That might be an easy immediate solution but it would be just as illegal as rounding up all the Democrats or all the Republicans. No United States law outlaws the Communist Party. Indeed, the First Amendment to the Constitution guarantees to all Americans the right to as-

semble and speak and write what they please. This is one of our most precious rights and we do not want to dilute it even when the most odious foreign dictated doctrines are preached.

But I am sure that on reflection, all Americans agree that we must meticulously follow due process of law for when those procedures are circumvented or curtailed, tyranny begins.

This certainly does not mean that we must stand idly by, awaiting court orders, while communists infiltrate our country. Many of the things which the communists seek to do violate the law or tend to do so, and the Federal Bureau of Investigation is constantly on the job to protect our security.

U.S. COMMUNIST PARTY FOUND GUILTY
WASHINGTON—The Communist Party of the United States was found guilty (Dec. 17, 1962) of refusing to register as an agent of the Soviet Union and was dealt the maximum penalty—a \$120,000 fine.

The Party's conviction was the first obtained under the 1950 Subversive Activities Control Act (the McCarran Act).

This conviction came after 12 years of legal maneuvering that witnessed Party leaders go all the way to the Supreme Court in efforts to keep the case from trial.

The Party was convicted under a 12-count indictment that charged it with failure to register under the McCarran Act as a "Communist action organization" by a 1961 deadline set by the Government and with refusing to register on each of the 10 days following the expiration of the deadline—and refusing to file an accompanying registration statement.

Attorneys for the Party said they would appeal the verdict.

Action Taken To Bar Prosecutor

INDIANAPOLIS (UPI) — The Indiana Supreme Court today gave newly-elected Jackson County Prosecutor Christopher D. Moritz, Seymour, 10 days in which to show cause why he should not be barred from carrying out his duties.

The high court, acting on a petition filed by the Indiana State Bar Association, issued the order to Moritz and directed it be served by the Jackson County sheriff.

The bar association charged that under terms of the Indiana Constitution, a prosecutor must be an attorney at law and said Moritz was not an attorney and that he therefore should be "enjoined from the unauthorized practice of law."

Such enjoinment would prevent him from serving as prosecutor. The petition, signed by Frederick Franklin, Indianapolis attorney for the bar association, said Moritz twice took the bar examination, in 1945 and 1946, but failed to pass both times.

The petition further alleged that Moritz ran for and was elected Jackson County prosecutor and beginning Jan. 3 commenced practicing law in Jackson Circuit Court.

The petition cited a number of cases in which Moritz served as prosecutor. Attached to the petition as an exhibit was a letter from the Jackson County Bar Association, saying that on Dec. 29, the group raise the question in an original action in the Supreme Court, concerning the right of Christopher Moritz to serve as prosecuting attorney, said Christopher Moritz not being duly admitted to the practice of law in the State of Indiana.

South Bend Newsman Dies Of Poisoning

SOUTH BEND, Ind. (UPI) — J. Vance Harsh, 48, office manager of the South Bend Tribune's circulation department, died today of carbon monoxide poisoning while warming up his car in a closed garage in below-zero weather.

Dr. Harry A. Lidwick, a deputy coroner, ruled death accidental. He said the car's motor was running when firemen responded to a call from the family.

Forecasts Cold To Continue In State

Indiana suffered another siege of below-zero temperatures today and dug in for at least five more days of weather averaging 12 to 20 degrees below normal.

Overnight lows this morning included 10 below at South Bend—one degree warmer than Tuesday's minimum—6 below at Fort Wayne, 4 below at Lafayette, 5 above at Indianapolis, 12 above at Evansville, 12 at Louisville and 6 above at Cincinnati.

The lows came after a cold and mostly clear day Tuesday when the mercury advanced no higher than 1 above at South Bend, 5 at Lafayette, 9 at Fort Wayne, 14 at Indianapolis and 26 at Evansville. Forecasts called for highs today ranging from 15 to 28, lows tonight from near zero to 18 above, and highs Thursday from 24 to 33. It will be just a little warmer Friday.

But the five-day outlooks called for temperatures to average 15 to 20 degrees below normal north and 12 to 18 below normal elsewhere with little change south and central and a two-day moderation beginning Thursday north.

Light snow was predicted for Thursday in the north and a chance of widely scattered light snow flurries central. Precipitation the five days ending next Monday will average one-tenth to one-half inch north and one-fourth to one-half inch elsewhere. The precipitation will come as occasional light snow, with no time element mentioned, in the north, and mainly toward the weekend elsewhere.
