first to plant Windsor

WINDSOR is probably the most notable grass improvement in a generation. It makes a lawn that's thicker, more carpet like and richer green. It's sturdier, too. More resistant to disease and drought.

Right now is the best time of the whole year to plant it. And you'll be planting a permanent lawn — one that you and your children and their children can all expect to enjoy. Like all Scotts seed, 99.9% weed-free.

Got a lawn question? We're here to help.
