

Stamp Honoring Audubon To Be Issued November 29

HENDERSON, Ky. — The National Audubon Society has produced an "official first-day cover" envelope for the John James Audubon stamp to be issued by

the Post Office Department in its "American Artist series." A five-center reproducing Audubon's striking painting of "Columbia Jays," the stamp will be released Nov. 29 from the postoffice at Henderson. The pioneer artist and naturalist ran a store and painted birds here for several years early in the 19th century.

"First day covers" postmarked at the city where a new stamp is released are highly prized by stamp collectors and as gifts and souvenirs. Feature of the society's envelope is a cachet in four colors that reproduces Audubon's painting of the great blue heron. An inset shows a portrait

of the artist. The envelope was designed for the Society by the Fleetwood Cover Service of Pleasantville, N. Y., who also will handle distribution. Proceeds will aid Audubon wildlife sanctuaries and the society's programs in conservation education.

Fleetwood is offering an "Audubon Special" consisting of a single stamp on one envelope and a block of four stamps, with the printing-plate serial number showing on the margin, on a second envelope, both postmarked at Henderson, for \$1. The so-called "plate blocks" also are highly prized by philatelists.

The first "Audubon Society" for the protection of wild birds was organized in 1896 by Dr. George Bird Grinnell, a New York magazine publisher, who was inspired to become a conservation leader by the paintings and journals of Audubon. The idea spread and in 1905 the leaders of several state societies formed a national association, extending its purposes to "birds and other wild animals." This is now the National Audubon Society, recognized as one of the largest and most effective conservation organizations in the world.

NATIONAL SCHOOL LUNCH WEEK Oct. 13-19

Sixteen million school children buy economical, nutritious noon meals at school every day under the National School Lunch Program, through which the U. S. Department of Agriculture provides about 20 percent of the total cost in cash and food. In recognition of the efforts of local citizens who run the program in 68,000 schools across the Nation, the President has proclaimed National School Lunch Week, October 13-19, during which school and community activities will point up the contributions of school feeding to the health and well-being of tomorrow's citizens.

Moisture Content Of Corn Delays Harvest

By GAYLORD P. GODWIN
United Press International

WASHINGTON (UPI) — The government's weekly weather and crop bulletin reported producers in parts of the corn belt have delayed corn harvest because moisture content of the grain still is too high.

Most of the harvest delay occurred along the northern fringe of the belt, the bureau said, although grain with high moisture content was prevalent in much of the area.

Above-normal temperatures and clear skies during the week ended Oct. 14 will help speed up the harvest, the bureau said.

Most of the corn in the belt has matured and is safe from loss by frost and freezes, the bureau said. It added that frost now is needed to kill weeds and dry the corn.

Along the southwestern fringe of the belt the harvest-made rapid progress and was ahead of normal. The bureau adjusted harvest 46 per cent completed in Missouri, but much lower in states just north and east.

The 1963 flax harvest was nearly complete in North Dakota, while seeding flax in southern Texas for the 1964 crop was halted by lack of soil moisture.

The bureau said dry soils over the major portion of the nation hampered the seeding of winter grains. The agency said that while seeding of the 1964 winter wheat crop was well advanced in major producing areas, more moisture is needed for proper germination. In Oklahoma, where soils are too dry to complete the seeding, some acreage will need to be replanted. From Colorado north and west the conditions for winter wheat and barley are somewhat better.

The bureau said rapid progress was made in the soybean harvest.

The Agriculture Department's cold storage report shows that Oct. 1 stocks in refrigerated warehouses totaled 6 billion pounds, second only to the 6.5 billion pounds stored on Oct. 1, 1962.

Supplies of frozen turkeys increased more than 90 million pounds during September to 246 million pounds on Oct. 1. Turkey holdings are 5 per cent larger than a year earlier and 37 per cent more than average for this time of year.

Total poultry stocks rose 109 million pounds to 365 million pounds on Oct. 1, compared with 331 million stored last year.

Beef stocks were up to 219 million pounds after a 17 million pounds gain in September. Beef stocks a year ago totaled 145 million pounds.

Pork supplies declined seasonally during September to 210 million pounds. The pork stocks, however, were 51 per cent larger than on Oct. 1, 1962, and 48 per cent above the 1957-61 average.

Orange concentrate on hand Oct. 1 totaled 27 million gallons. A year ago stocks were 51 million gallons.

Leading Speakers For History Confab

The Indiana civil war centennial commission announced today that it is joining with the Indiana historical society in bringing several outstanding civil war speakers to Indianapolis on November 1 and 2. Rear Admiral E. M. Eller, Director of Naval History will speak on "Civil War on the Inland Waters" at the Saturday, November 2nd luncheon in the Riley Room of the Claypool Hotel. Admiral Eller is recognized as an outstanding authority on Civil War Naval History and is in constant demand as a speaker.

Dr. Chase Mooney, Professor of History, Indiana University and Editor of the Mississippi Historical Review will speak at the Friday, November 1st dinner in the Franklin Room of the Claypool Hotel. This dinner is sponsored by the Indiana Civil War Centennial Commission in honor of the County Civil War Centennial Committee and Civil War Roundtable members throughout Indiana.

Two-Year-Old Girl Is Killed By Auto

EVANSVILLE, Ind. (UPI) — Two-year-old Becky Lynn Rogge was injured fatally Wednesday when her uncle's car ran over her as he pulled out of his driveway.

The uncle, Bobby Davis, said he did not see the child playing in the driveway. Becky was rushed to St. Mary's Hospital where she died. An autopsy was scheduled.

Hi-Way Trailer Court News

Mr. and Mrs. Robert Rider and family are the new residents at 45 Vindale Trail.

Mr. and Mrs. Sam Bell, Jr., and family, 59 Bella Casa, spent the weekend with his parents, Mr. and Mrs. Sam Bell Sr., in South Milford, and Sunday they visited her mother, Mrs. Vera Petrie in Avilla.

Mr. and Mrs. H. F. Ewbank and family of Rushville spent Sunday with their daughter, Mrs. Darrell Stearley and family, 48 Vindale Trail.

George and Mike Bair of Fort Wayne spent the weekend with Dr. and Mrs. Harold V. DeVor.

Mr. and Mrs. Edward Lose and family of Cincinnati, O., spent the weekend with his father, Charles Lose, 27 Star Lane.

Mr. and Mrs. Wm. Burgan have moved their mobile home from 15 Krick St. to 55 Vindale Trail.

Mr. and Mrs. Leroy Wisel, 14 Krick St., spent Sunday with their parents at Angola.

Mr. and Mrs. Arthur Eversole, 62 Bella Casa, spent the weekend with his parents, Mr. and Mrs. Milo Eversole in Middle Point, Ohio, and Mrs. Eversole visited her mother, Mrs. August Frie-moth in Delphos, Ohio, Sunday afternoon.

Friends of Mrs. Rilla Amstutz, 13 Krick St., from Pandora, O., were her Sunday guests.

Mr. and Mrs. Ivan Davis Jr., 28 Star Lane, and Jerry Davis and Sandra Beery, spent Sunday with her sister, Miss Diana Reed and family in Greentown.

Sunday visitors at the home of Mrs. Fern Frey, 46 Vindale Trail were: Mr. and Mrs. Charles Frey, son Billy Joe and daughter Lou Ann of Noblesville; Mr. and Mrs. Lloyd Frey, son Dan and daughters Angie, Moira and Valerie of Willshire, Ohio; Mr. and Mrs. Keith Frey, and daughters Karen and Kristene of Decatur, and Mr. James Frey of Decatur.

Mr. and Mrs. Gergg Zimmerman, 70 Bella Casa, observed their second wedding anniversary Oct. 12th.

Mr. and Mrs. Ronald Hinkle, and son Tony, 10 Detroit Ave. spent Sunday at Silver Lake, Mich.

Mr. and Mrs. West and family are the new residents at 36 Star Lane.

Mr. and Mrs. Joe Schinnerer, 52 Vindale Trail, attended the wedding of his sister, last Saturday. Mrs. Schinnerer was matron of honor.

Gray Iron Castings Shipments Increase

NEW ORLEANS — It now appears that a continuing strong demand for gray and ductile iron castings, bulkmarked by upward trends in automotive, machine tool, construction, and machinery markets, will send shipments of these iron castings to the 12.7 million ton mark for 1963, top officials of the Gray Iron Founders' Society said here today.

That would put the nation's gray and ductile iron foundries almost 10 1/2 per cent ahead of the 11.5 million tons shipped in 1962, said Donald H. Workman, executive vice president of GIFS, which is holding its 35th annual meeting at the Royal Orleans Hotel here through Friday.

Dollar volume of this year's gray and ductile iron castings shipments is likely to total more than \$3.5 billion, added James W. Simmons, Jr., vice president and treasurer of Cox Foundry & Machine company, Atlanta, Ga., and president-elect of the Gray Iron Founders' Society. Simmons said the industry fully expects to attain the 13-million ton and 3 3/4 billion dollar marks in shipments next year.

The general economic indications in industries utilizing gray and ductile iron castings bears out the fact that such castings are finding new and renewed usage in a variety of applications," said Workman. "Automobile manufacturers again this year have introduced several new gray iron engines, for instance, and also are swinging to gray iron for such other things as carrier-type axles for their compact or smaller cars."

Both executives emphasized that a dramatic growth trend in the use of cast ductile iron is complementing rather than hurting gray iron growth because ductile is being utilized in many areas where steel previously has been used. "At the same time, improvements in casting techniques and properties of gray iron are enabling it to fulfill jobs formerly considered impractical for gray iron types," said Workman. Gray and ductile iron shipments of 12.7 million tons this year would make 1963 the best tonnage year for such castings since 1957, when the industry shipped 12.6 million. This high 1963 tonnage is even more significant when it is considered that technical developments now enable the use of lighter, stronger gray iron sections for the same applications which required heavier castings in years past.

Union Chapel Youth Will Meet Friday

The senior youth fellowship of Union Chapel EUB church will meet at the home of Pam Nidlinger, Friday at 7:30 p.m. They will go for a hay-ride, and then return to her home for devotional and refreshments. All of the youths are urged to be present.

Also, Saturday, October 19, is the first day some of the youth will clean corn fields. Money from this effort will be used to underwrite the yearly budget and for some project work.

St. Joseph Tag Day This Saturday

Tag day, to raise money for uniforms to the St. Joseph grade school band, will be this Saturday. Band members will be stationed uptown in Decatur, with canisters, from 9:30 a.m. until 5 p.m.
