**THE CHURCH INVITES YOU**  
The greatest problems, worldwide and also within our nation, are those of human relations. Treaties, laws, conferences and force are being used in the attempt to solve these problems. Jesus said a great many things about human relations but his suggested solution was not in the areas that are being employed at present. He taught that the way to better human relations was to improve people. Better people relate themselves to each other in a better way than those who are subject to compulsion. Jesus' method requires more time than the method in vogue
