Neo-Republicanism

The "new" Republican party in the south, which is rapidly absorbing segregationist Democrats like Sen. Erwin of South Carolina, is posing a number of problems to life-long Republicans in the north.

Many find it very difficult to give up the beliefs of Abraham Lincoln, and Teddy Roosevelt, to absorb such radical ideas as segregation, racial intolerance and hatred, after their fathers grandfathers fought the civil war to end such things.

In the south itself, the registration of Negroes, who see their old segregationist foes in the "new" Republican party, can only add Democratic votes. Of course, the registration of all eligible voters will be very slow.

Most Republicans in this area believe in conservative tax policies. But most also believe in Christian civil rights, as taught by the majority of Protestant churches, by Jewish temples and synagogues, and by the Catholic church.

Almost every survey and poll taken in the Middle West and East indicates that the vast majority of conservative Republicans will either refrain from voting this fall, or vote for Johnson as the "lesser of two evils," putting up with his fiscal policies rather than back the irresponsible civil rights stand, and war stands of candidate Goldwater.

If Sen. Goldwater wins, it means the end of moderate conservatism in the Republican party, and control for a long, long time by the radicals. Most Republicans believe that Eisenhower, a moderate, is more nearly right than those who reject him, and push the Goldwater candidacy.

Modern Etiquette

By Roberta Lee

Q. When one has received an invitation two weeks in advance of a large dinner party in a friend's home, when should one acknowledge this invitation?

A. Immediately. There is nothing so discourteous or so inconsiderate as keeping a hostess waiting for a reply to such an invitation.

Q. A couple dropped in at our home a few evenings ago, and the woman had her hair completely set in pin-curls. Am I right in thinking this was very poor manners on her part?

A. You are more than right! Q. Is it all right for a divorcee to have a maid-of-honor and three bridesmaids at her second wedding?

A. This is not in good taste. She should have no more than one attendant at her second marriage.

Nuclear Weapons?

To The Editor:

During this campaign much has been said by Barry Goldwater and his running mate about that horrible picture on T.V. showing the little girl picking flowers, and the next picture showing an exploding nuclear bomb. I, for one, believe this picture should be shown over and over again, then perhaps we would wake up and realize the dangers our loved ones might face if these men were chosen to lead our great country! or the next four years. We must remember that it was Goldwater who advocated the use of nuclear weapons to defoliate the trees and bushes in Viet Nam so that the Commies could be brought out into the open.

How heartless and naive can this man be? If he should be elected and carry out this hair-brained idea does he realize what this would mean? Is he heartless enough to bring a reign of terror on the innocent women and children and non-combatants on Viet Nam just to find a few Commies? Sure I know we are losing men there, but I honestly believe these men would have gladly died rather than see the results of this irresponsible act. Another question comes to mind. Is Goldwater naive enough to think that if this act were perpetrated in Viet Nam the Commies would retaliate in Viet Nam? I think not, but they would hit the source, which would be the United States. God forbid.

About two months after the first atom bomb was dropped on Hiroshima I had the opportunity to see both Nagasaki and Hiroshima. It was about 5 o'clock in the afternoon when we pulled into Nagasaki, and if I should live to be a hundred I shall never forget the horrible stench of decaying bodies lying buried under the rubble of this devastated city. We were only permitted to get off our ship for about one hour, and then no further than the dock, because disease was on every hand as the results of this bomb. In Hiroshima I had the opportunity to see first hand the horror and devastation created by this bomb. As our landing craft touched the dock we were almost mobbed by Japanese children.

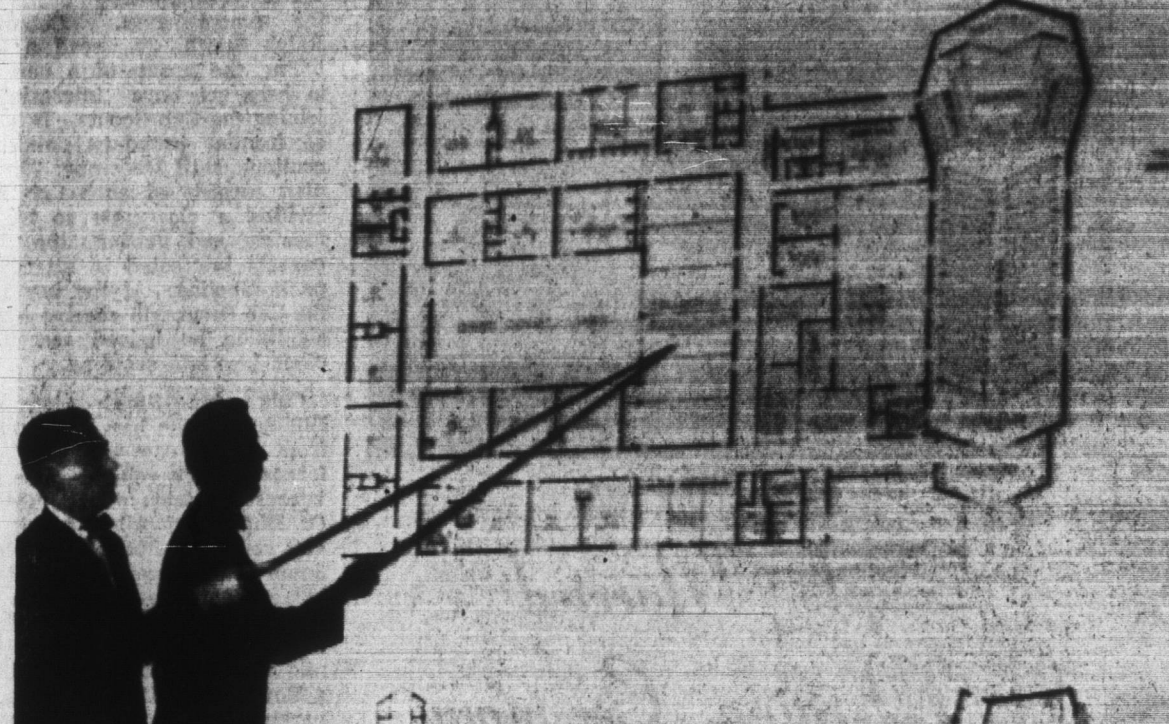

This is what I would have liked for Barry to have seen, for most of them would have been better off dead. I shall never forget the sight of their little burned bodies. The majority of them looked like large chunks of raw beef, and the look on their faces was enough to break your heart. After we gave these kids all the food we had we went into what was left of Hiroshima which had a population of nearly 400,000 before the bomb (which I believe took over 180,000 lives) and the sight that met our eyes was unbelievable. For as far as the eye could see there was nothing left but large rolls of glass and steel which had been factories, stores and homes, and even two months after this bomb was dropped all the people had a look or horror on their faces, as if they still couldn't realize what had happened. We must remember that these atom bombs were only firecrackers compared with what we and Russia have today. In closing I will say if you must vote for Goldwater, it would be well to say a prayer to God as you cast that ballot that he (Goldwater) didn't mean what he said, or if he did mean it that he will be denied that office.
