FIGHT TO THE END.

Sovereign Says There Is but One Course to Pursue.

CHICAGO, July 14.—Grand Master Workman Sovereign, when seen after he had received the decision of the man- agers of the association and the Federa- tion of Labor, said:

"Well, the general managers treat us with silent contempt and condemn us to death, do they? I suppose they expect us to die without any resistance, but they are mistaken. We will make a struggle. We shall try to tie up all the roads. But if we cannot do that we can at least tie up one road and keep it tied up. I have seen Debs and we all agree that there is but one thing to do, and that is to fight on to the end and with renewed energy."

As to the declaration of the Federation of Labor, Sovereign said: "Sympathy is not what we want; we want a coalition of forces against corporate powers, and unless we can get it we might as well at once consent to be serfs. This declara- tion can have no effect on the strike. Up to this time these people have given us no assistance. The strike has just begun. I think the position taken by the Federation of Labor will only weaken their own forces."

SWITCH SPLIT.

E. and T. H. Train Wrecked Under Pec- liar Circumstances.

TERRE HAUTE, July 14.—A south- bound Evansville and Terre Haute freight was wrecked under peculiar cir- cumstances in the yards in the southern part of the city last night. Attempts were made before the train started to prevent the engineer and fireman from taking it out. Failing, the strikers left in anger. Fearing trouble, Superinten- dent Cobett and Roadmaster Thompson went out on the locomotive, watching the track for obstructions. The locomot- ive passed a split switch in safety, but it was turned under the moving train, derailling and overturning two cars. An explosion followed and it is believed dynamite was used. Men were seen running from behind a toolhouse. No one was hurt.

BIG FOUR WRECK.

Engineer and Fireman Killed by Miners at Fontanet.

FONTANET, Ind., July 14.—The strik- ing miners who have been giving violent assistance to the railroad strikers at this point yesterday overstepped all previous conduct by wrecking a Big Four expres train and killing Engineer Charles Moehrmann of Indianapolis and Fire- man Fleck of Mattoon, Ills. A switch was turned by some miscreant whom officers are seeking, the engine and two cars going over an embankment and the two victims being crushed into an un- recognizable mass. That passengers es- caped is miraculous. It is not improb- able that the militia will be necessary at this point.

PULLMAN SPEAKS.

He Argues Against Arbitration But Does Not Declare Against It.

NEW YORK, July 14.—George M. Pull- man has issued a lengthy statement of the attitude of his company in reference to the strike, its causes, its merits and its settlement. He does not declare definitely against submitting to arbitra- tion, but argues that it would be unbusi- nesslike to consent to an arbitration which might decide that the Pullman works be operated at a loss. He explains at length the company's version of the strike and the causes leading to it, argu- ing meanwhile that the company has been operating for the benefit of the workmen on contracts which yielded no profit.

WILL NAME ARBITERS.

President Cleveland Grants a Knights of Labor Request.

INQUIRY UNDER O'NEIL LAW.

He Will Name a Commission So Soon as Strike Leaders Give Assurance That Lawlessness Is to Cease—No Disposition to Weaken, but an Anxiety to End the Strife—Debs Pleased With the Action. One Deputy and a Boy Foolishly Killed. Fatal Collision With Marshals as the Victims—General Strike News.

WASHINGTON, July 13.—John W. Hayes, general secretary treasurer of the Knights of Labor, last night gave out the following statement concerning the committee's interview with President Cleveland:

"We had an hour's talk with President Cleveland for the purpose of calling his attention to the arbitration act of 1888, introduced in the house at the time by Hon. John O'Neill of Missouri.

"I had full authority from President Debs of the A. R. U. and J. W. Heath- cote of the Pullman employees to rep- resent their interests and act in their be- half.

"Senator Kyle of South Dakota accom- panied us and introduced us to the president. The president seemed pleased to receive us and immediately opened the subject by referring to the law which the parties interested desired to

JOHN W. HAYES.

see enforced. An hour was spent in discussing the various provisions of the act, which authorizes the president on his own motion to appoint two arbitra- tors, together with United States Labor Commissioner Carroll D. Wright, to act as a commission of arbitration and in- vestigation and decide what should be done by either party to settle the con- troversy. The commission has all of the powers necessary to administer oaths, subpoena witnesses, etc.

Request Granted.

"The president finally decided to ap- point the commission, and at once so in- formed us, and at the same time stating that he would name the arbitrators either today or tomorrow.

"We expect to secure much more from this arbitration than the final settlement of the present difficulty in Chicago. It is in itself a great victory for labor or- ganizations and everything that the A. R. U. has fought for, but it will lead much further, for in the moments of the future, when defects of the present arbitra- tion law have been made apparent by actual experience, prompt steps will be taken to amend the same."

Hayes says that he is strongly opposed to the investigation of the Pullman boy- cott proposed by the house committee on interstate commerce. Of all investiga- tions conducted by congressional com- mittees not one had ever resulted in any benefit to labor organizations. They had always helped to defeat the objects of the strike which they investigated and never did anyone any good.

The arbitration commission to be ap- pointed by President Cleveland would, in his opinion, be much more effective and satisfactory in every way.

It is officially stated at the white house that the president has promised to ap- point an arbitration commission as soon as the disturbance in Chicago has sub- sided, so far as the strikers are responsi- ble for them, and peace is restored.

No Disposition to Weaken.

The president laid great emphasis on the fact that no steps could be taken in this direction until lawlessness had ceased, and he made his promise con- tingent on the pledge of the labor lead- ers to see to it that so far as organized labor is concerned the trouble at Chicago and elsewhere will immediately disap- pear. There is no disposition on the part of the administration to weaken in the stand which it has taken, but the president fully realizes the gravity of the situation and, while he will not tempor- ize with the lawless element, he is de- termined to do all in his power to reach a permanent solution of labor questions.

The usual consultation between the president, Secretary Lamont, Attorney General Olney and General Schofield was held last night, but no new orders were sent out. General Schofield said after the conference that reports from all the troops in the field, except those in California, had been received and that all reported affairs quiet and orderly.

A dispatch from Chicago quotes Presi- dent Debs as being delighted with this turn in the contest.

First Perceptible Break.

TOLEDO, July 13.—The first perceptible break in the strike at this point occurred when a portion of the yardmen and brakemen on the Wabash, Cloverleaf and Cincinnati, Hamilton and Dayton roads returned to work. On the Lake Shore the tie-up is as complete as ever.

Important Subject Sidelined.

WASHINGTON, July 13.—Consideration by the house of the resolution to investi- gate the railroad troubles has been in- definitely postponed because the com- mittee on rules could make no arrange- ment of hours for hearing the subject.

Gompers and His Followers in the Chi- cago Meeting.

CHICAGO, July 13.—The strike situa- tion throughout the country continues in general one of quietness. The central point of interest has been the meeting of labor leaders, with President Gompers of the American Federation of Labor at their head, in this city. It is admitted that the action of that body, if taken unanimously, will have a marked effect on the situation, and persons well in- formed express the opinion that unani- mous action by it, except in the direc- tion of quieting the present agitation or turning it into other channels, is unlik- ely.

It is known that several suggestions are being considered by these leaders. Among them are the following:

1. That the striking Pullman employes, on high patriotic grounds, appeal to Presi- dent Debs to declare the strike off, because of the infinite damage which is being done to the business of the country.

2. That the leaders unite in an appeal to the public to quit patronizing Pullman sleeping, drawingroom and diners.

3. That President Cleveland be requested to appoint a commission to investigate the strike and the causes which led up to it, in the expectation that the report of such commission would justify the action taken by the strikers and free them from the charges of rioting and disorder.

4. That immediate efforts be made to se- cure the impeachment of Attorney General Olney.

5. That an effort be made to secure the passage of a compulsory arbitration law by congress.

6. That complaints be lodged looking to the indictment of the railway managers for conspiracy to obstruct the movement of United States mails by refusing to run mail cars except in connection with Pull- man cars.

The federation has telegraphed to "the president of the United States" a request to come to Chicago to meet the confer- ence or deputize some one as his rep- resentative, declaring that the gravity of the industrial situation of the country demands extraordinary and exceptional action of a conciliatory character. The telegram is signed by Samuel Gompers and other officers of the federation.

The meeting was in session until an early hour this morning, several heated arguments occurring and some of the hotheads urging a strike at once. Ac- tion, however, was deferred until today. Mr. Gompers was pleased to hear that the president would appoint a commis- sion. He would say nothing as to the decision likely to be reached by the fed- eration.

DEPUTIES KILLED.

Two Meet Death in a Collision on a Chi- cago Track.

CHICAGO, July 13.—Two deputy United States marshals met their deaths and two others were more or less seriously injured yesterday afternoon in a col- lision between freight trains on the Wis- consin Central tracks near Sixteenth and Jackson street crossing. Two loco- motives and several cars were wrecked and the 8-story brick warehouses of Pur- dett, Smith & Co. was partly destroyed. The dead are:

J. B. BRISTOL, crushed under boxcar; taken out dead.

W. A. PROSS, both legs crushed and in- jured internally; died at the county hos- pital.

The Baltimore and Ohio and Wiscon- sin Central jointly use this track and by some misunderstanding of orders both trains were moving toward each other. They met on a curve and the impact as the two engines came together was tre- mendous. Both engines were buried under the mass of shattered cars they were hauling and the helpless deputies who were riding on top of the cars next to the engines were caught and crushed.

RECKLESS SHOOTING.

Deputy Marshals Cause Two Deaths While Under Excitement.

CHICAGO, July 13.—United States De- puty Marshal Peter Fische and an 11- year-old boy, Arthur Gregory, were fatally wounded last night in a fusillade between deputies in Kensington. Some unknown person had placed on the Illi- nois Central tracks several torpedoes which were exploded by an outgoing train. When the explosions occurred two parties of deputy marshals rushed out from cars in which they were sleep- ing on opposite sides of the tracks. They seemed rattled by the unexpected in- cident and began discharging their revolv- ers recklessly, with the result named above. The boy Gregory was one of a number of the residents of the vicinity who rushed out at the sound of the shooting. Several other people had nar- row escapes. The deputies assert that they were firing at three men who were seen running away, but the people in the vicinity say there was no one about. Five of the deputies were arrested by the police.

VEHEMENT SPEECHES.

Cleveland Denounced and Hissed in a New York Labor Meeting.

NEW YORK, July 13.—The labor dem- onstration held last night in Cooper Union to express sympathy with the strikers in Chicago and the west was an extraordinary outpouring of people. The hall was crowded to excess and 3,000 people surrounded the building unable to get an admittance. The meeting was a vehement one in the manner it ex- pressed its convictions. The name of President Cleveland was received with a storm of hisses and hootings.

Henry George denounced the use of general troops and lauded Governors Altgeld and Stone and declared that he would rather see all the railroad prop- erty in the country burned up and all the rails torn up than to see them pre- served by troops. Equally vehement speeches were made and resolutions were adopted denouncing federal interference.

RIOTING AT FONTANET.

Striking Miners Make Serious Trouble For the Big Four.

FONTANET, Ind., July 13.—Yester- day the Big Four started a train from Terre Haute which was held up and sidetracked at this point by striking miners. Deputy marshals could do nothing and the crews were dragged from the train. One man was laid in front of the engine, but was released.

Members of the Cincinnati Assembly Given the Word by Master O'Dell.

CHICAGO, July 13.—A special to The Times from Cincinnati says: District Master O'Dell of the local assembly of the Brotherhood of Locomotive Firemen has ordered out all the men of his as- sembly. O'Dell has just returned from Terre Haute, where it is said a meeting of prominent members of the brother- hood was held and it was decided that a strike would be inaugurated. Chief Sargent of the brotherhood, who has steadily opposed a strike, will, it is be- lieved, be laid on the shelf.

Boycotting the A. R. U.

LOUISVILLE, July 13.—Division Super- intendent Pike of the Louisville and Nashville railroad has issued an order requiring all members of the A. R. U. in the employ of the road to withdraw from the order. No man known to be a member will be permitted to go out with a train without showing a certi- cate of withdrawal.

Brotherhood Strike.

PARKERSBURG, W. Va., July 13.—Em- ployes of the Ohio River railroad, rep- resenting the Brotherhood of Locomotive Engineers, firemen, conductors and ma- chinists have asked their chiefs to order a strike against the road. This is not a sympathetic strike, but to compel the company to restore a 10 per cent cut in wages.

Less Alarming.

SAN FRANCISCO, July 13.—Since Wed- nesday's horrible work at the trestle west of Sacramento the strike situation in California has been less alarming. There has been some rioting, "killing" of engines and other depredations, but the troops have the situation well in hand. Several arrests have been made.

Stampede For Work.

DECATUR, Ills., July 13.—The Wabash strike collapsed here yesterday. Two or three men asked for work. That was the beginning of what proved to be a stampede, over 200 applications being made by night. All passenger and freight trains are running. At Peoria the strike is also ended.

Strike Surely Broken.

INDIANAPOLIS, July 13.—Dispatches from all over the strike affected country indicate that the railroads are making good progress toward the movement of freight. In many places A. R. U. men are applying for work.

LOOTERS ARRESTED.

Spring Valley (Ills.) Miners Paying the Penalty For Their Acts.

SPRING VALLEY, Ills., July 13.—Whole- sale arrests for the looting of the Spring Valley Coal company's store in this city have commenced, the sheriff making the arrests assisted by a company of militia. Scores of houses were ransacked from cellar to garret yesterday and any quan- tity of dress goods, provisions and gro- ceries were discovered and identified as property stolen from the store. In no instance where goods were identified were they seized, but instead the head of the household was arrested and thrown in the guardhouse at the mili- tary camp. The policy of the coal com- pany is to hold the city responsible. The prisoners, 10 in number, were taken to Princeton last evening. Others will follow.

PRENDERGAST DOOMED.

Judge Grosscup Refuses to Issue a Stay of Execution.

CHICAGO, July 13.—Judge Grosscup late last evening decided not to interfere in behalf of Murderer Prendergast by refusing to issue a stay of execution. The prisoner expressed a hope, however, that some means would be found to prevent his execution. He ate a hearty supper, but after lighting a cigar and taking a few puffs became violently ill. He soon recovered. The scaffold was erected yesterday afternoon and was thoroughly and satisfactorily tested. Prendergast's attorneys gave up all hope last night.

OHIO VILLAGE BURNED.

Edon Almost Wholly Wiped Out by Un- conquerable Flames.

TOLEDO, July 13.—Edon, a small town in Williams county, was visited yester- day by a most disastrous conflagration, resulting in the loss of \$175,000 worth of property. Seventy-two buildings were destroyed, including nearly the entire business portion of the town. In many cases there was no insurance.

Shot Because She Said "No."

NEW HAVEN, Conn., July 13.—Frank A. Dame, a painter, who some time ago proposed marriage to Mrs. Mary C. Perry and was rejected, shot her yesterday in the jaw. She may recover. Immedi- ately Dame ran to his room, two blocks away, removed his outer clothes, lay down on his bed and then shot himself through the heart.

NOTES BY WIRE.

Georgia Third district Democrats re- nominated Speaker Crisp.

Orangemen paraded and rioted in Phila- delphia. Two men badly battered.

Two of Forepaugh's circus trains collided near New Britain, Pa. Animals were maimed and killed.

Thomas Vance, prominent Logan county (W. Va.) citizen, quarreled with and was shot by Melvin Vance.

Earthquake shocks in Constantinople and Asia Minor have caused immense damage and loss of life.

Debs Is Tenacious.

CHICAGO, July 13.—President Debs in an interview reiterates his oft repeated predictions of success in the strike. He claims that the position of the strikers has been strengthened. He denies all rumors to the effect that the American Railway union is preparing to give up the struggle. "We shall never yield," he says.

FEDERATION CONFERENCE.

Thing of the Past.

CHICAGO, July 13.—The present strike at the Union stockyards is now seem- ingly a thing of the past and within a few days all business connected with the yards will be running as if no strike had ever taken place. For the past two days profound quiet has prevailed in that dis- trict. The strikers and their sym- pathizers are now eager to go back to work.
