A Corrupt Practices Act.

Senator Stuart, of Marion county, has introduced a bill to prevent corruption in elections. It defines bribery and provides a penalty to be imposed both upon the briber and the bribed, and prohibits any candidate from promising any deputyship or from securing the promise of any one not to vote. No candidate may make any promise that will influence the primaries in his behalf within ten days before the holding of the primaries or within sixty days before the holding of the election. Intimidation and impersonation are forbidden under penalty of fine and imprisonment. The most important section is that limiting the election expenses of candidates, and requiring the filing of a sworn and itemized statement of expenses thirty days before assuming office. The officer with whom these statements are to be filed is the one authorized to issue the certificate of election, and no certificate of election can be issued until this statement is filed. No person shall be exempt from answering questions as to violations of this law when there shall be a trial. No person shall be allowed to collect or expend money to secure the defeat of any candidate. All money must be raised and spent by regular committees, and each committee must have a treasurer of its own, who must keep an accurate record of money received and of the objects for which it is disbursed. This statement, which must give a complete record of all the details for a period of ninety days before the election, is to be filed with the auditor of the county. A failure on the part of the treasurer of any committee to comply with the provisions of the law will subject him to a fine of not more than \$500 or less than \$50.

Probably the most interesting section of the bill is that limiting the amount of money which candidates and committees may spend. The schedule is as follows: For five thousand voters or less, \$100; for each one hundred voters over 5,000, and less than ten thousand, \$2; for each one hundred voters over ten thousand and less than twenty thousand, \$1; for each one hundred voters over twenty thousand, 50 cents. The number of votes is the total number votes cast for all candidates at the preceding election. A little figuring will show that even these terms would produce very tidy sums for "legitimate" expenses.—Hunting Democrat.

ABOUT all the neighboring towns have been making donations for the needy and destitute of the greatest country the sun ever shown on. Are the poor of this country robbed, or are they too shiftless to provide for themselves? Is it the amount they are compelled to pay for their living that impoverishes them? Should it be the case, then, this the best country the sun ever shown on, should take some steps toward giving them the necessary relief without having to beg enough to live on, and that generally given to them with a stunted hand. The govern-

ment should see that they are properly guarded by the same law that guarantees to every one the protection of this what we call the best government in the world.

JUDGE KIRKPATRICK, of the Howard County Circuit Court of Kokomo, has placed on record of said court an order directing the prosecuting attorney to appear for the defense in a divorce case where the same is likely to go by default, to compel the applicant to show a good and sufficient cause. And where the charge is adultery he will require the applicants to make oath that they have not been guilty of the same offense.

The true progress of society consists in the steady advancement toward a just appropriation of wages, the giving to every man of that which his industry entitles him. Were this done there would be no poverty and all would have the opportunity for intellectual improvement, moral development and social happiness.

"COIN our silver, and charge us for the difference between the coin and the market price," says the silver miners of the west to the plutocrats of the east. Could anything be fairer? But the gold bugs would have it, "Do nothing to stop the increasing value of our gold," is the answer they return.

While Frank Nusbaum and Geo. Addler, Jr. were driving a horse and sleigh last Sunday, owned by Orestes Anderson, the horse ran away throwing out the occupants at the postoffice. The sleigh was lost three miles north of town and the horse was knocked to the ground with a fence rail in the hands of some men, but regained his feet and resumed his route when he was captured at Christian Ashbaucher's six miles north of the point where the driver had been left. The animal after being captured kicked the siding off of Mr. Ashbaucher's barn, and made a pass at every one who came in sight, including the owner.
