All the Police and Deputy Sheriffs of Jackson County were alerted this morning when a message was received from the Grand Rapids, Mich., that two men, answering the description of the Penn. train robbers, had boarded a Grand Rapids and Indiana train for the north at 11:30 last night. Detective George W. Powers, of the local police force, boarded the train before it was outside the city limits, and attempted to place the men under arrest. Both drew their revolvers and fired at the detective; one ball lodging in his brain. The men then jumped from the train and made their escape. The entire police force and all the deputy sheriffs are after them and it is thought they cannot escape. Powers cannot live.

CASE OF MRS. MAYBRICK.

Question of Her Release Brought Up in Parliament Yesterday.

LONDON, Aug. 23.—T. P. O'Connor in the house of commons yesterday referred to the case of Mrs. Florence Maybrick, who is serving a life sentence in prison for poisoning her husband and for whose pardon numerous petitions have been presented to the home secretary both from English and American sources. Mr. O'Connor said, in regard to her that there was intense feeling of dissatisfaction, both among American men and women, with the trial and conviction, and he believed that the lord chief justice shared this dissatisfaction. He thought the time had come when there should be a revision of the unfortunate woman's sentence. Sir Matthew White Ridley, secretary of state for the home department, replied that in view of the strong feeling which prevailed he would consider it his duty to inquire into the case, as the result of the representations made by Mr. O'Connor.

TO HELP THE CUBANS.

Headquarters said to have been opened at Kansas City.

PICKED MEN READY TO GO.

The Son of General Joe Shelby said to be at the head of the movement. The London Times says Spain is waiting for the Cuban revolution. Headquarters were opened in this city yesterday afternoon looking toward the success of an expedition already partially organized in behalf of the freedom of Cuba. The nucleus of the expedition consists of 100 picked men who are ready to go at any time. The method of procedure is secret, but the leaders, all of whom are prominent, say there exists no doubt about the transfer of the men to the island.

Orville Shelby, son of "Fighting" General Joe Shelby, is said to be at the head of the movement. He and a few of his closest friends, it is learned, held an important meeting, lasting until 1:30 in the morning, at which plans for carrying out the expedition were earnestly discussed. The following named gentlemen are said to have been present and to have participated in the conference: Ex-Assistant Prosecuting Attorney T. A. J. Martin, B. G. Crosby of Butler, Mo., son of Rear Admiral Crosby of the United States navy; J. Russell Lincoln, distantly related to the distinguished president; C. Breckinridge of Palmyra, Mo., related to the distinguished confederate general of that name, and others.

Every effort was made to throw the cloak of secrecy about the meeting. Just what transpired could not be fully ascertained, but it is shown that the organization's scheme was fully matured. Diagrams and maps of the island and telegrams and letters showing direct communication with Thomas Estrada Palma, who has his Cuban headquarters for this country in New York city, were submitted. Orville Shelby, in a published interview, admits that the expedition is being organized, and says the party will soon leave for the seat of war.

CUBANS ARE WINNING.

London Times Advises Spain to Grant the Request for Autonomy.

LONDON, Aug. 23.—The Havana correspondent of The Times, writing of the gravity of the situation, urges the necessity of large concessions in the direction of autonomy or even also loyal Cubans will drift into disloyalty. The only alternative is a costly campaign.

The Times, in an editorial, advises Spain that the insurgent's cause will not down without the expenditure of much treasure and great sacrifice of life, and says: "General Campos has tried to treat with the rebels and has failed; he has tried to suppress them and has failed; he has tried to patch up a reconciliation, and has equally failed. The rebels have been quick to profit by his mistakes. A three years' campaign will cost Spain \$30,000,000, which she cannot afford. Spanish autonomy will be a bitter pill, but unless it is swallowed the embryo movement for annexation to America may strengthen until it becomes irresistible."

Provisional Government to Be Formed.

TAMPA, Fla., Aug. 23.—Passengers arriving from Cuba last night report that preparations were completed for a meeting of representatives of districts to assemble at Nagasa, in Puerto Principe province for the purpose of establishing a provisional government.

General Bartola Maso will probably be president; General Maximo Gomez, commander in chief of the army, and Marquis De La Santa Lucia, secretary of the interior. Immediately after the election by districts of delegates, the cabinet appointments will be made. Passengers report the revolution progressing most favorably and Cubans most hopeful.
