

## Suffered Eighteen Years.

Pains Departed and Sleep Came.

Mrs. Julia A. Brown, of Covington, Tenn., whose husband has charge of the electric light plant at that place, has been a great sufferer. Her ailments and speedy cure are best described by herself as follows:

"For 18 years I suffered from nervousness and indigestion. I tried every remedy recommended by family and friends, but I could get no relief at all. Two years ago, while being treated by three local physicians, Drs. Barret, Mailey and Sherod, they

Mrs. JULIA A. BROWN.  
informed me that I had become dropsical, and that there was little hope for me. I then decided to try

**Dr. Miles' Restorative Nerve,**  
I was then unable to get to sleep until well on toward daylight, and during all this time I had a deep, heavy pain in my left side. I was miserable indeed, but after taking one-half bottle of the Nerve I could sleep all night just as well as before. The Nerve is the only remedy that gave me any relief whatever. I am now well and strong, and I thank God every day of my life for Dr. Miles' Nerve."

Mrs. JULIA A. BROWN.  
Dr. Miles' Nerve is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.60, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

**Dr. Miles' Nerve Restores**  
...Health  
Sold by all DRUGGISTS.  
No morphine or opium in Dr. Miles' Nerve. Cures All Pains. "One cent a dose."

### Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at Blackburn & Miller's Drug Store. (Successors to A. R. Pierce.) Regular size 50c.

Antitoxin has been used with successful results in a malignant case of typhoid fever at Jeffersonville.

Mrs. Jane Gibson of Aurora has made a gift of \$5,000 to Christ's Hospital, a Methodist institution of Cincinnati.

### Old People.

Old people who require medicine to regulate bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. "Electric Bitters" is an excellent aperitif and aids digestion. Old People find it just exactly what they need. Price fifty cents per bottle at Blackburn & Miller's Drug Store.

### Notice to Teachers.

Notice is hereby given that there will be a public examination of teachers at the County Superintendent's office in Decatur, Indiana, on the last Saturday of each month. Manuscripts made in other counties will not be received. Applicants must be seventeen years of age before they will be licensed.

Applicants for license must present the proper trustee's certificate or other evidence of good moral character—see section 4,497, R. S.—and pass a creditable examination in orthography, reading, writing, arithmetic, geography, physiology, English grammar, History of the United States, science of education, "Scientific Temperance," and satisfactorily answer a list of questions on a literary production designated by the State Board of Education.

The literary work will be given in examination in the following order:

### RUSKIN.

September—Athena in the Heart.  
October—Kushin as a teacher.

### SHAKESPEARE.

November, December, January, 1900  
February, March and April—Henry VIII.  
May, June, July, August, September and October—The Tempest.—Reading Circle Edition.

Examinations begin promptly at 8:30 a. m. Respectfully,  
J. F. SNOW, Co. Supt.

The Wabash circuit court has adopted a new practice in granting divorces. The decree is now withheld, no matter how meritorious the plea, until all the costs in connection with the case are settled. One result of the scheme is to drive those seeking separation who have not the price to some other county with their suit.

## Female Weaknesses.

Many beautiful women die in the very prime of life. Others live to middle age, but are seldom sound and healthy. Why is this you ask? We answer SELF-NEGLECT, but your life can be lengthened and made happy if you commence AT ONCE. Try one package of Park's Vaginal Suppositories and you will never regret it. They will make a new woman of you and will entirely cure all the distressing forms of female weaknesses. NO EXPERIMENT. No doctor's examination. A positive cure. Leucorrhea or whites are usually entirely cured by one or two applications. Price \$1.00 per package by mail prepaid. Particulars (sealed) 2c. PARK REEDY CO., Boston, Mass.

## IT MAY CAUSE TROUBLE

Russian Squadron Reported to Have Designs Upon Korea.

### PACIFIC PORT IS WANTED.

**Trouble May Be Caused by the Bear's Aggressive Policy—Japan Is Alarmed at the Situation—England May Take a Hand—Russia Wants a Harbor Free From Ice in Winter.**

SHANGHAI, Oct. 25.—A Russian squadron of 15 ships has left Vladivostok for Chemulpo and Fusan. The Japanese fleet in Formosan waters has been recalled, and it is announced on excellent authority that several British warships have been ordered to sail for Korea. Japan's reply to Russia makes a protest against Russian dictation in Korean affairs. It is regarded here as certain that Russia will permanently occupy Fusan. The situation of affairs is most grave and preparations for the expected struggle are visible on all sides.

### RUSSIA AFTER A HARBOR.

**Wants to Get Out of the Icebound Bays of Black Siberia.**

WASHINGTON, Oct. 25.—The cable reports that a Russian fleet of 15 vessels was on its way to Korea attracted much attention among the diplomatic representatives of the far east to whom it was shown. It is regarded as representing a grave condition, if the facts are as reported. The fact that Fusan is one of the ports toward which the Russians are headed is pointed out as especially significant. Fusan is at the southeasterly extremity of Korea and is the point nearest to Japan, being only 12 hours' sail from the Japanese mainland. Further north is Won San, the strategic point in Korea which the Russians have long sought to secure. It is on Broughton bay in the middle of the east coast of Korea. The north arm of the bay is known as Port Lazareff, and here the Russian fleet comes regularly for maneuvers. The bay is the only useful harbor in the stretch of 600 miles along the east coast of Korea.

The harbor is perfectly sheltered and is open the year around. Leading authorities agree that it will ultimately be the terminus of the trans-Siberian railway which Russia is building. For these reasons the movement of the Russian fleet toward these points of strategic importance is watched with keen interest.

### Will Raise a Row, If True.

LONDON, Oct. 25.—The correspondent of The Times at Hong Kong learns from a reliable source that by the recently concluded Russo-China treaty Russia obtains rights to anchor her fleet at Port Arthur and to construct and work under Russian administration railways from Nertchinsk and Tsisihar to Vladivostok and from Tsisihar to Port Arthur, together with other commercial advantages to which the most favored nation clause is not applicable. The Chinese reserve the option to purchase the railways 20 years hence at a price to be arranged hereafter.

### TO LOCATE THE VOLCANO.

Hunters in Olympic Mountains Confirm Professor Alexander's Discovery.  
PORT TOWNSEND, Wash., Oct. 25.—Further evidences of an active volcano in the Olympic mountains have been received and serve to confirm the report of Professor Alexander of the Smithsonian institute.

Two young men of this city have just returned from the Olympic mountains, where they have been hunting elk, and report that, after experiencing a series of light earthquake shocks, covering a period of two weeks, flames and huge volumes of black smoke were observed ascending from one of the smaller peaks. The flames would shoot up and then dense volumes of black smoke would belch forth. They hurried back to Port Townsend for a fresh supply of provisions and will make an effort to locate the volcano.

South of Port Townsend last night the sky was clear and the volcanic phenomenon was witnessed by dozens of people, who accurately describe the eruptions of smoke in the same manner as the two elk hunters. Many navigators on the lower sound and straits report seeing a strange sight and all believe it to be a small volcano.

### WAY THE SULTAN DOES IT.

**Takes His Prisoners Out on the Water and Drops Them Overboard.**

LONDON, Oct. 25.—The Standard this morning has further details from its correspondent at Constantinople regarding the execution of the 50 young Turks who were arrested on Saturday on a charge of excesses during the recent Armenian riots. The 50 culprits, after a trial, were conveyed by night aboard a Turkish man-of-war, whose boats took them into the swift current and dropped them overboard.

"I am able to assert," continues the correspondent, "that these measures have entirely broken the spirit of the Turkish revolutionists. Hassan Pasha, minister of marine, is also suspected and is closely watched."

### Desperate Criminal Escapes.

CHICAGO, Oct. 25.—Early this morning the Chicago police were notified that Charles Miller, serving a 20-year sentence in the Joliet penitentiary, had made his escape and was supposed to be making his way to this city. His cell was found to be empty at midnight. He made his escape by cutting his way through a door into the hospital. Miller was sent up from Lincoln county on charges of larceny, burglary and having burglar's tools in his possession. He is said to be a desperate criminal.

### State Christian Endeavorers.

GREENSBURG, Ind., Oct. 25.—Great crowds are in attendance upon the state meeting of the Christian Endeavor society in this city. The sessions are being held in the old skating rink, which has a capacity of 2,200, and it was completely filled last night for the song service. Dr. Sims of Indianapolis delivered a sermon.

## DON'T WANT THE GUNS

Minister Chamberlain's Advice to British Guiana Not Followed.

### COUNCIL VOTES AGAINST IT.

**Resolution Offered by Governor General Lees Favoring the Purchase of a Maxim Gun Is Defeated—Minister Terrill Defends Himself Against the Charge of Neglecting Missionaries.**

WASHINGTON, Oct. 26.—The state department is in possession of the full text of the dispatch sent by Joseph Chamberlain, secretary of state for the colonies in the British cabinet, to Sir Charles Lees, governor general of British Guiana, concerning the strengthening of the frontier, the increase of police and the purchase of Maxim guns in the British Guiana territory. The department has been furnished also with the detailed action of the high council of British Guiana upon the recommendations of Minister Chamberlain. These proceedings give the full resolution offered by the governor general for the purchase of a Maxim gun and ammunition, uniform, arms and accoutrements. They also make the surprising disclosure that the high council of British Guiana, after its members had severely arraigned Minister Chamberlain for his precipitate action in recommending Maxim guns, defeated the resolution for their purchase by a vote of 10 to 8, thus rejecting the policy laid down by the British cabinet.

### TERRILL DEFENDS HIMSELF.

**United States Minister to Turkey Has Not Neglected the Missionaries.**

WASHINGTON, Oct. 26.—A cablegram has been received from Minister A. W. Terrill at Constantinople, in which he denies the published statement that he has neglected missionary interests. The minister asserts that not one American missionary in Asia Minor has been injured during the strike, and that to protect them he has remained at his post for months, although leave of absence had been granted to him. As to his relations with the Sultan he says they have not endangered the security of the missionaries.

"I have," says he, "for months kept a Turkish guard to protect American professors in a missionary college against threatened assassination by emissaries of secret societies. I have never failed to rescue from prison every Armenian arrested who bore an American passport."

### Small, but in Good Shape.

WASHINGTON, Oct. 26.—The annual report of Inspector General Breckinridge shows that the United States army has attained a high standard of discipline and that the officers, generally, are competent and efficient. There has been a marked improvement in the character of men seeking admission to the ranks, and the great care with which recruits are selected, it is said, is evidenced by the fact that only about one-eighth are found to possess the requisite qualifications. In one city alone over 8,000 applicants for enlistment presented themselves.

### DEFENSE'S OPENING.

General Dickinson Makes the First Argument For Theodore Durrant.

SAN FRANCISCO, Oct. 26.—General Dickinson made the opening argument for the defense in the trial of Theodore Durrant yesterday. Although the air in the crowded courtroom was stifling, he spoke from morning until night, and then announced that he would not conclude his argument until the court should meet next Tuesday. Dickinson's speech was in the nature of a surprise, from the fact that he did not attack the integrity of the prosecution's witnesses or denounce the methods of the police, as Attorney Duprey intimated would be done in his opening address to the jury. He based his whole defense on the reliability of the rollcall, and challenged the prosecution to prove that the call was incorrect. Mrs. Leak and Mrs. Costello, the two elderly witnesses who testified that they saw Durrant and Miss Lamont near the church were treated gently. Dickinson said that while he believed the witnesses told what they believed to be the truth, he was convinced that their minds had been worked upon by reading so much about the case. In support of this he cited the fact that neither witness told what she knew about the case until three or four months after the crime took place.

**Work Stopped on the Hennepin Canal.**  
PRINCETON, Ill., Oct. 26.—Work has been suspended on the entire line of the Hennepin canal, with the exception of two forces on the eastern end, and these will soon be laid off. This action was taken as the appropriations of congress have been about exhausted and work cannot be resumed to any great extent until further appropriations are made. With the amount so far appropriated, \$1,200,000, 28 miles have been completed and seven locks finished.

**Will Arbitrate Miners' Differences.**  
COLUMBUS, O., Oct. 26.—Hon. John W. Adams, member of the state board of arbitration, has been selected to arbitrate the differences between the Ohio miners and operators on the wage question. Under the agreement Ohio is to have an advance proportionate to the advance in the Pittsburgh district. The operators claim the prevailing rate in the Pittsburgh district is 64 cents a ton for mining and the miners claim it is 69 cents.

### French Farmers Protest.

PARIS, Oct. 26.—The minister of husbandry, M. Gadand, received a deputation from the department of the Nord yesterday, who presented a petition to the government protesting against the importation of cattle into France from the Argentine Republic and Canada.

**The Arnica Plant.**

The plant from which arnica is produced appears to be indigenous to the mountain districts of Europe and Asia. It is found growing wild in the Pyrenees, Apennines, Swiss and German Alps, Carpathian mountains, in the mountains of Armenia, in the Urals and the Himalayan range. It is said that the plant has also been found in the mountain districts of the United States west of the Mississippi river, but whether a native or an importation cannot be ascertained. The medicine is chiefly prepared from plants artificially grown in the medicinal gardens of France and Germany.

Keir Hardie, English socialist and ex-member of the British parliament, who is making a tour of observation in America, lectured last night to a good sized audience in Indianapolis. He says he thinks the English laborer gets more enjoyment out of life than the American workman, and that although the American gets better wages it costs him much more to live.
