PENSACOLA, Fla., Nov. 6.—Major
MacMurray, commanding the First
artillery at Fort Barrancos, has been
instructed by General Wilson, chief of
engineers, to restore the walls of old
Fort San Carlos, near Barrancos. This
is the oldest and most interesting fort
in the United States. It was originally
built by the Spaniards and was
several times captured by the French
and English. It has not been used since
it was captured by the American army
under General Jackson in 1821. It will
now probably be supplied with rapid
fire guns.

A NEW BANK SYSTEM

PLAN OUTLINED TO THE MONETARY
COMMISSION BY J. C. BULLITT.

Under It There Is to Be but One Curren-
cy and That Is National Bank Notes.
Tax to Be Levied on Banks—To Prevent
a Money Stringency.

WASHINGTON, Nov. 8.—The monetary
commission is receiving in answer to its
invitation many interesting propositions
for reform of the banking and currency
systems of the country, and among these
is one from John C. Billitt which is
highly endorsed by financial authorities
and has commanded great attention and
study. Mr. Billitt's plan in part is as
follows:

All of the outstanding currency obligations,
amounting to about \$800,000,000, to be taken up and cancelled, being
replaced according to business exigencies
(under the direction of a currency
board composed of the president, secre-
tary of the treasury and controller of
the currency) by 3 per cent bonds.

There is to be but one kind of cur-
rency, namely, national bank notes re-
deemable in gold at the bank of issue
and a selected bank of reserve and these
notes are to be issued gradually to re-
place United States obligations as the
latter are retired. These notes are to be
secured by a deposit of 15 per cent of
gold in the treasury, by 15 per cent gold
in the bank vaults and by a first lien
upon all of the banks' assets, as well as
by a special provision giving the govern-
ment the right to assess all national
banks when needed to make good the
notes of a defaulting bank, the notes of
which would then be redeemed by the
government. A tax is to be laid upon
the banks to cover the expenses of the
currency board and the balance held to
secure redemption of notes in gold, but
if this exceeds \$10,000,000 the surplus
may be covered into the treasury to pay
interest on United States bonds and for
general purposes.

Power should be given to banks, un-
der permission from the currency board,
to increase the note issue when demand is
caused by unusual financial emergencies.

Silver and subsidiary coins should be
redeemed in gold by the United States
government when demanded. These
amount to about \$100,000,000. No note
should be issued for less than five dol-
lars.

Customs duties and taxes of all kinds
due the government should be payable
one-third in gold and two-thirds in bank
notes. This is necessary to supply the
government with the gold required by
it to pay interest upon its bonds, redeem
silver, and for other purposes.

The legal tender quality of gold and
silver should remain as now provided by
law, and they should be the only legal
tender except to the extent of two-thirds
of customs duties and taxes due the gov-
ernment which should be payable in
bank notes, as above stated.

To Prevent a Money Stringency.

WASHINGTON, Nov. 5.—Assistant
Secretary Vanderlip has returned from
a brief visit in New York where he ar-
ranged for the transfer by the reorgani-
zation committee of the government's
share of the purchase price of the Union
Pacific railroad. Several of the prominent
New York city banks have made
applications for the deposit with them
of such amount of the purchase money
as the treasury department may deem
necessary in order that there may be no
disturbance of the money market in
consequence of the reorganization's
heavy withdrawals. The several
amounts which the applicant banks are
willing to handle aggregate \$30,800,
000. Other banks will also apply for
considerable amounts and furnish the
required indemnity bonds should it be
deemed necessary.

Telegraph Company Gets Its Tolls.

WASHINGTON, Nov. 6.—Postmaster
General Gary has approved the report
to the court of claims of First Assistant
Postmaster Perry S. Heath, as sole
referee in the case of the Western Union
vs. the United States, involving a large
claim for government telegraph tolls
under the Wanamaker rate and accrued
under that administration. Mr. Heath's
report found that there was due to the
company \$255,869. This represents the
difference between the rates paid prior
and subsequent to the adoption of the
Wanamaker rate.

Dr. W. Godfrey Hunter.

WASHINGTON, Nov. 9.—The president
yesterday appointed W. Godfrey Hunter
to be envoy extraordinary and minis-
ter plenipotentiary to Guatemala and
Honduras.

Indiana Postmasters.

WASHINGTON, Nov. 9.—Indiana post-
masters were appointed yesterday as
follows: Cason, Levi H. Mills; Wood-
ruff, Lafayette Sams.

Treasury Statement.

WASHINGTON, Nov. 9.—Yesterday's
statement of the condition of the treas-
ury shows: Available cash balance,
\$205,591,230; gold reserve, \$154,616,591.

LOST ITS TERRORS.

Yellow Fever Situation Much Improved.
Trade Picking Up.

NEW ORLEANS, Nov. 9.—The yellow
fever situation continues favorable.

There has been no marked change since
last report, and yellow jack has lost its
terrors for the people, who are greatly
eased over the gratifying turn of affairs.

Good news has been received from all
points, and it is predicted that trade
will have assumed its normal condition
by the middle of the month, though it
has been dealt a terrible blow by the
dreadful plague. The board of health
officials are of the opinion the situation
will gradually improve, and all indica-
tions point that way. Yesterday's record
was as follows: New cases, 13;
deaths, 5.

Favors the Gold Standard.

SHANGHAI, Nov. 9.—The emperor of
China and the board of revenue have
approved a memorial presented in favor
of establishing a gold standard and pro-
hibiting the export of gold. It is doubt-
ful, however, whether this will have
any practical result.

Kentucky Legislature.

FRANKFORT, Ky., Nov. 9.—With three
districts still in doubt, one of which will
probably go Republican and two Demo-
cratic, the next legislature stands 40
Democrats and 35 Republicans. Both
parties broke even on the state senators.

WITH A BROKEN NECK.

Brakeman Conway Hangs on to Life
With Hopes of Recovery.

CHILLICOTHE, O., Nov. 6.—W. R.
Conway, a brakeman on the Baltimore
and Ohio Southwestern, is lying at the
point of death at his home here with a
broken neck. He fell from the top of his
caboose and dislocated the fourth
cervical vertebra. By a miracle death
did not result, but his body is completely
paralyzed, though he is perfectly con-
scious and can talk. His head has been
placed in a sling, and it is hoped the
vertebrae can be snapped back into
place and his life saved. The experiment
is one of the most peculiar in local
medical history.
