An interesting calculation has been made which shows that a pound of good coal equals the work of one man for one day. One square mile of a seam of coal only four feet deep would exceed the work of 1,000,000 men for twenty years.

Fair haired people are said to be becoming less numerous than formerly. The ancient Hebrews were a fair-haired race; now they are, with few exceptions, dark. So it is in a lesser degree with the Irish, among whom, 150 years ago, a dark haired person was almost unknown.

A maiden from the city tripped lightly mid the trees and sniffed the pungent odor that floated on the breeze. "O! tell me ancient farmer, with arms so brown and bare, what is the wonderful flower that scents the morning air?" An exchange correctly says: "Let the young man about town out of a job try a year on the farm. Plowing behind a mule team will give him a new constitution, take the kinks out of his head, the frog out of his throat, the gas off his stomach, the weakness out of his legs, the corns off his toes and give him a good appetite, an honest living and a sight of Heaven."

W. B. Westlake, the editor of the Marion Leader, has just fallen heir to \$200,000, the same being left him by a woman in Winnipeg. The news no doubt comes as a great surprise to Mr. Westlake and his friends. That gentleman is now traveling in the west with the national editorial excursion. It is said the bequest is left him because of kindness once shown by the lady's son, who was also a newspaper man.

Before Santiago Chaplain Brown of Arizona was seen to seize the carbine of a wounded trooper as the fight began to grow fierce and work his way to the front of the fighting line. Colonel Roosevelt remonstrated. "According to the articles of war, chaplain," he said "you are not allowed to handle firearms." "D—the articles of war!" came the quick response. "Here's where I am needed now." And there he stayed.

The smart girl now wears her watch on a gold chain of small closely woven flat gold link, caught together with a jeweled slide that catches the two sides of the chain together. The slide is often a small shield of rich green enamel bearing, in diamonds, the girl's initials, but whatever it is it glows with gems, making a bright spot of light and color on the wearer's breast. The watch is thrust into the dress belt and the chain hangs from the neck to far below the waist line.

More onions are produced in the vicinity of Nappanee than anywhere else in Indiana. The crop is now being harvested and a small army of boys and men are employed in pulling, topping, crating and hauling the odoriferous vegetable. The onions as a rule are not so large as last year, but the yield per acre is good—many patches making from 600 to 800 bushels per acre. The price is better than at the beginning of the season last year.

A legal organization which may aid sometime in the future in bringing forth a number of shining lights has been formed among the law students of this city. Those who are interested in this club are Henry B. Heller, Jesse Sutton, Clark Coverdale, Allen Porter, Earl Adams, Jesse Robinson, Ora France and Dore B. Erwin. The boys meet once a week at which time one of the number acts as instructor and the rest assistants. They will, no doubt, derive much benefit from the work.

There is a popular idea that June is the most favorable month for weddings, and that the young woman who loves romance and wishes fortune to smile upon her nuptials in every way must choose this of all months. Cold and unromantic facts, however, show that the three most popular months are October, November and December. Fifty years' records show this to be true, and also demonstrate the fact, that the most unpopular months for marriage are January, February and March.

Ten Million Wheelman.

It is stated by competent authority that there are ten million people in America who are bicycle riders. Probably each one gets an average of one hurt in a season, and that is just when Henry & Johnson's Arnica & Oil Liniment gets in its good work. Nothing has ever been made that will cure a bruise, cut or sprain so quickly. Also removes pimples, sunburn, tan, or freckles. Clean and nice to use. Take it with you. Costs 25 cents per bottle. Three times as much in a 50 cent bottle. We sell it and guarantee it to give satisfaction or money refunded.—Page Blackburn druggist.

A "department store" sends out the following printed circular to its patrons. "Notice is hereby given that if you will come to my store three times a day during the next year and purchase a drink of whiskey, each time paying ten cents a drink, at the end of the year I will donate five barrels of my best flour, 100 pounds of granulated sugar, 100 pounds of rice, 10 pounds of coffee, 10 gallons of syrup, 40 yards of calico, three pairs of shoes, one \$10.50 cloak for your wife; and then I will have \$20 left to pay for the liquor you have drank."

Keeps Folks Well.

It is better to keep well than to get well, although when one is sick it is desirable to get well. When considered that eight-tenths of the ailments that afflict the American people are caused by constipation, we shall realize why it is that Baxter's Mandrake Bitters "keeps folks well," or if sick, enables them to get well. Baxter's Mandrake Bitters cures constipation. Price 25 cents per bottle. Why not step in and get a bottle and by using it be assured of good health through the trying hot months. We sell it and guarantee it to give satisfaction or money refunded.—Page Blackburn, druggist.

The best houses in the city of Manila are of stone and are handsome residences. Glass is not used for the windows, which are glazed with translucent oyster shells.

Cigarette smoking is a common practice among the colored washerwomen of New Orleans. They lean over the tub and make a quaint picture as the smoke rolls from their lips.

Eczema! The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases.

Eczema broke out on my daughter, and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many patent medicines were taken, but without result, until we decided to try S. S. S., and by the time the first bottle was finished, her head began to heal. A dozen bottles cured her completely and left her skin perfectly smooth. She is now sixteen years old, and has a magnificent growth of hair. Not a sign of the dreadful disease has ever returned.

Don't expect local applications of soaps and salves to cure Eczema. They reach only the surface, while the disease comes from within. Swift's Specific

S.S.S. For The Blood

is the only cure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures cases which are beyond their reach. S. S. S. is purely vegetable, and is the only blood remedy guaranteed to contain no potash, mercury or other mineral. Books mailed free by Swift Specific Company, Atlanta, Georgia.
