Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim. No one should fail to try them. Only 50 cts per bottle at Page Blackburn's.

BEFORE BABY IS BORN.

A Valuable Little Book of Interest to All Women Sent Free.

Every woman looks forward with feelings of indescribable joy to the one momentous event in her life, compared with which all others pale into insignificance. How proud and happy she will be when her precious babe nestles on her breast—how sweet the name of "Mother!" And yet her happy anticipation of this event is clouded with misgivings of the pain and danger of the ordeal, so that it is impossible to avoid the feeling of constant dread which creeps over her. The danger and suffering attendant upon being a mother can be entirely prevented, so that the coming of the little

stranger need not be looked forward to with fear and trembling, as is so often the case. Every woman who reads this paper can obtain absolutely free a valuable and attractive little book entitled "Before Baby is Born," by sending her name and address to the Bradfield Regulator Co., Atlanta, Ga. This book contains priceless information to all women, and no one should fail to send for it.

A Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. Free trial bottles of this Great Discovery at Page Blackburn's drug store. Large bottles 50 cts and \$1.00.

The Albany Times Union says: It begins to look as if the Cubans would be satisfied with nothing short of independence. The trouble with the Cubans is that they do not know what they want. Unless signs are agog, they will prove a thorn in Uncle Sam's side and cause him to rue the day when he took up their cause.

Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years, and I got no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. and I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S.S. For The Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.
