# RAW AS BEEF FROM ECZEMA!

## No Torture Equal to the Itching and Burning of This Fearful Disease.

Not much attention is often paid to the first symptoms of Eczema, but it is not long before the little redness begins to itch and burn. This is but the beginning, and will lead to suffering and torture almost unbearable. It is a common mistake to regard a roughness and redness of the skin as merely a local irritation; it is but an indication of a humor in the blood—of terrible Eczema—which is more than skin-deep, and can not be reached by local applications of ointments, salves, etc., applied to the surface. The disease itself, through the skin; the only way to reach the disease, therefore, is through the blood.

Mr. Phil T. Jones, of Mixersville, Ind., writes: "I had Eczema thirty years, and after a great deal of treatment my leg was so raw and sore that it gave me constant pain. It finally broke into a running sore, and began to spread and grow worse. For the past five or six years I have suffered until agony and had given up all hope of ever being free from the disease, as I have been treated by some of the best physicians and have taken many blood medicines, all in vain. With little relief left I began to take S. S. S., and it apparently made the Eczema worse, but I knew that this was the way the remedy got rid of the poison. Continuing S. S. S., the sore healed up entirely, the skin became clear and smooth, and I was cured perfectly."

Eczema is an obstinate disease and can not be cured by a remedy which is not a tonic. Swift's Specific.

## S. S. S. FOR THE BLOOD

—is superior to other blood remedies because it cures diseases which do not reach. It goes to the bottom—to the cause of the disease—and the worst case of Eczema, no matter what other treatment has failed, is easily cured by S. S. S.

Books on these diseases will be mailed free to any address by Swift's Specific Company, Atlanta, Georgia.

So many peculiar things happen in Ohio that it is hard to believe them all. The other day a story was published to the effect that nine snakes were taken from a woman who had swallowed one some years ago. This story comes from the town of Bucyrus. An unpleasant experience was that of a young woman of that town. She was preparing to devour a tempting apple dumpling when, in cutting it open, a live mouse jumped out and scampered away. How the mouse got into the dumpling is a problem.
