

Triumphs of Medicine.

In the year 1800, Bichat, who was styled "The Napoleon of Medicine," published his "Treatise on Membranes," followed soon after by his "General Anatomy." In 1808 auscultation was developed by the celebrated Corvisart. In the forties was included the discovery of chloroform and ether. In the nineteenth century the first useful employment of the microscope in medicine occurred. In 1854 Davaine announced that splenic fever was caused by a germ or micro-organism. In 1879 Bouchard discovered the bacillus of typhoid fever. In 1882 Prof. Robert Koch discovered the bacillus of tuberculosis and also the cholera germ. Since then the so called X-rays by Roentgen enabling the physician to see what is within the human body has been discovered. The medical world has been investigating and reaching for a germicide or bactericide for the suppression of these various causes of disease. As regards tuberculosis, commonly called consumption, they have been eminently successful and it is now positively known that consumption can be cured. This Dr. Young has repeatedly done within the last two years.

If you were in prison and some good angel would open the door and say: "Go, you are free!" you would not stop to ask whether the key that opened the door was a regulation key or not. If it opened the door that was all you asked. If you are sick do not be prejudiced by some one telling you the specialist is not of the regulation method. Go to him if he is regularly graduated from some good medical college and has devoted years of his life to the study of chronic diseases, he will know what to do for you much better than the regular physician.

DR. J. W. YOUNGE

A CHRISTIAN PHYSICIAN WHO TRIES TO CURE BODY AND SOUL.

In order that our many readers who desire to know who and what Dr. J. W. Young is, we cheerfully publish the following recommendations and testimonials:

Many of our readers who are seeking medical treatment find themselves at a complete loss as regards to whom to go. We here give absolute facts both as regards to who and what Dr. J. W. Young is, and his ability as a recognized specialist, and also the many wonderful cures he has performed. To the sick this is of vital importance, and the following facts are incontrovertible, as some of the best men in this state vouch for their truthfulness. For over thirty years Dr. Young has made a special study of chronic diseases, and during this time he has been in contact daily with patients suffering with these diseases. The following testimonials should be sufficient to convince everybody of Dr. Young's integrity and ability as a physician:

Pittsburg, Pa., Aug. 20, 1899.

To whom it may concern: I take pleasure in stating that I have personally known Dr. J. W. Young for a period of over forty years, and only know him as an honorable Christian gentleman and physician. I take pleasure in commending him as such, as I know of some remarkable cures of consumption and other diseases which he has effected. I believe him worthy of the fullest confidence of the public.

SAMUEL T. MITCHELL, D. D.  
Rev. Mitchell was formerly presiding Elder of the M. E. church of the Pittsburg Conference, and one of the ablest preachers in that denomination.

DR. J. W. YOUNGE

IS THE NAME OF THE GENTLEMAN THAT HAS CURED MORE CASES OF CONSUMPTION THAN ANY DOCTOR IN THE STATE OF INDIANA.

The great Tuberculosis Congress just held at Berlin, Germany, has decided that consumption is not hereditary. Prof. Rudolph Virchow, of the University of Berlin, Prof. Loeffler, of Griefswald, and discoverer of the diphtheria bacillus, Prof. Frankel, of Halle, and Prof. Cuseman, of Leipzig University, have decided positively that consumption is not hereditary. Physicians of all nations were present at this Congress, and their decision will give hope to the many unfortunate victims of the disease, and encourage them to take treatment. Dr. J. W. Young, of Fort Wayne, cured seven cases of consumption last year. Of this there is no doubt, as it is certified to by some of the most reliable men in the state. Prof. Crappe of Paris, France, appeared before the members of the American Medical Association, at their last meeting at Columbus, Ohio, and informed them that he had cured 3,000 cases of consumption in Paris last year, and that he could cure every case of consumption if taken in its first stage. His treatment consists in the application of Formaldehyde by inhalation in connection with proper medical constitutional treatment. This is the treatment used by Dr. Young and has proved successful with him.

The following testimonials confirm all that Dr. Young claims for his method of treatment. They are all genuine and can be relied on:

Logansport Ind., Sept. 4, 1899.  
Dr. J. W. Young, My Dear Doctor:—Gratitude prompts me to write you this testimonial for what you have done for my wife. She owes her health and her life to your skill and knowledge, as we had abandoned all hope before going to see you. Our family physician informed us that she had consumption and that her case was incurable. Her father, mother and brother all died with consumption

and I now tell you why we came to you for treatment. Her brother died of consumption in Colorado two years ago, and the spirit of her dead brother sent her to you. He told her you could cure her and we believed the spirit. Your treatment has proven that we did right in obeying the spirit and she has been taking your treatment for fourteen months and will continue to take medicine. She has no coughs, no night sweats, good appetite and sleeps well. She feels as well as she ever did. May God spare your life to be of benefit to the sick and afflicted is our prayer.

Yours most gratefully,  
Mr. and Mrs. J. S. Wilhelm

Fort Wayne, Ind., Sept. 12, 1899.  
Dr. J. W. Young, Dear Sir:—I desire that people shall know what you have done for our daughter. We had lost all hope, not one ray of sunshine was left us when our family doctor informed us that Consumption was doing its deadly work on her. We could only fold our hands and watch her grow weaker from day to day. Her cough was very troublesome and her fever burning her up, and her night sweats were exhausting her. We were induced to bring her to you for treatment, although several persons told us you could not cure her or do her any good. But our daughter's life was of infinitely more importance to us than anything they can say against you. We are now glad and rejoice that we did not be governed by them, as our daughter is well and enjoying good health. We want to let people know what you have done for her, because we believe that you can do as much for them if they are sick. Doctor, if this letter will do you any good you may publish it. We consider you an honorable, Christian gentleman in every respect. I am yours most truly,  
E. F. SMITH.

The following case is considered miraculous by everybody who knew Mr. Augustine, as it was believed his case was absolutely hopeless—

Peru, Ind., Sept. 2, 1899.

Dr. J. W. Young, Dear Doctor:—When you took my case I told you if you would cure me I would write you a testimonial. I now comply with my promise. I must say you have cured me of consumption. When I began your treatment everybody who knew me said, "I would not live six months." But I feel very well now, no cough or night sweats, have a good appetite and sleep all night soundly. I am a little short of breath on violent exercises, but this is all that I can notice is the matter with me.

People told me I was throwing my money away in giving it to you, but had I done as they wanted me to do, I would be in my grave today. People should not discourage sick people who are trying to get well. I think that is wicked. Money is nothing to a man who is sick. When he dies he cannot take any of it with him.  
I am yours most respectfully,  
A. L. Augustine.

A SWORN STATEMENT.

Personally appeared before me, a notary public, W. L. McGonagle, who being duly sworn says: That he knows the above testimonials are true and genuine, and furthermore, that Dr. Young has many more similar testimonials all of which are true and genuine. Subscribed and sworn to before me this 24th day of June, 1899.  
C. A. Daugherty,  
Notary Public.

Mr. McGonagle is one of the most reliable persons connected with the Fort Wayne College. Dr. Young will be at the Burt Burt House next Monday, Nov. 6, where he can be consulted by the sick and afflicted. The doctor has been visiting Decatur once every four weeks during the past ten years and has treated many of the best citizens of Adams county, all of whom speak very highly of him. By the doctor visiting his patients once every four weeks saves them the expense of railroad fare to Fort Wayne and return. The doctor has an institute and private hospital in that city where some of his medical staff can always be found. Remember the date is Monday, Nov. 6.

Chamberlain's Pain Balm cures others, why not you? My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—Adolph A. Millett, Manchester, N. H. For sale by Holthouse, Callow & Co.

The usual number of light waisted comedy companies are flitting over the country. They have little talent and less money and the early frost of autumn will lay many of them low. The number of road attractions which continue their tours after January 1st is usually about one half that which started in September with high hopes and limited resources, and it is well for a suffering public that this is so.

Spain's Greatest Need.

Mr. R. P. Olivia, of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On pains in the back of his head. What a well known railroad man and resident of Lima thinks of Foley's Kidney Cure. I have been troubled a great deal with the backache, I was induced to try Foley's Kidney Cure, and one bottle entirely relieved me. I gladly recommend it to any one especially my friends among the train men, who are very generally similarly afflicted. Geo. H. Hausan, Engineer on L. E. & W. R. R. Holthouse, Callow & Co.

Dawson City, in the heart of the Klondike, is now only two and one-half days distant from civilization by telegraph. The line from Skagway to Dawson has been completed, and the two and one-half days are required to carry messages by boat from Skagway to Cumberland, B. C., which is the nearest point from which telegraphic communication can be had with the outer world.

Used by British Soldiers in Africa. Capt. C. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Galische. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial. For sale by Holthouse, Callow & Co.

An old maid stood on the steamboat deck, whence all but her had fled; and calmly faced a kissing bug that circled overhead. The maidens shrieked and the matrons swooned, and the men all swore amain, but the game old maid like a hero stayed and whispered "come again." There was a buzz—a thunder sound—The old maid—was she dead? Nay, still she stood and cried for more, but the kissing bug had fled.
