

Rheumatism

Rheumatic pains are the cries of protesting and distressed tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Kell, of 707 Ninth Street, N. E., Washington, D. C., writes as follows: "A few months ago I had an attack of Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having it filled twelve times without receiving the slightest benefit, I decided to continue his treatment any longer. Having heard of S. S. S. (Swift's Specific) recommended for Rheumatism, I decided, almost in despair however, to give the medicine a trial, and after I had taken a few bottles I was able to hobble around on crutches, and very soon thereafter had no use for them at all. S. S. S. having cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health."

SSS the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

A big whiskey trial has been in progress in Buffalo, N. Y. The question is whether the whiskey was of the required grade. Finally, the counsel, who had been allowed to produce samples in court, declared he would submit them to the jury for a test. The attention in the jury box grew suddenly intense. But the judge, in evident haste, ruled that such a proceeding would be improper, and the jury had nothing to swallow but its disappointment.

Once in awhile a useful hint for the housekeeper comes from the man of the family. The man who smokes a meerschaum pipe was observed putting a slice of apple into his box of tobacco to keep it from becoming too dry. Even potato he said, would do. That led to the rediscovery of an old idea. Cake or bread may be kept moist and delicious for a comparatively long time by putting a piece of raw apple or potato into the box in which it is kept.

Two of the special articles in the April number of McClure's Magazine are very fitting to this season when the new life of nature in the Spring draws our thoughts from cities, merchandise and men to field and wood. The first of these is a wonderful story of the beaver, written by William Davenport Hulbert after a long study of the animal in its home amid the wilds. The author's account is made complete by a series of pictures drawn by A. Radclyffe Dugmore, an artist sent into the beaver-country for this purpose by the Magazine. The second article is by Martha McCulloch-Williams, and in it she gives us a georgic on and a day's life on the farm, with scent of clover, song of birds, glint of sun and sweet smell of fresh furrows. The illustrations of the article are as delightful as they are distinctive. 1f

A Sad Death. Can you describe anything worse than a young person dying by inches with consumption, cut off in the bloom of youth, when bright prospects of happiness and prosperity are before them. Some people get huffy when asked to pay their subscription. FURTHER ACTION UNNECESSARY

Investigation of the Booz Hazing Case Is Closed.

Washington, April 2.—The findings of the military court of inquiry which investigated the treatment alleged to have been accorded to the late Oscar L. Booz, a former cadet at West Point military academy, have been made public at the war department. The findings of the military court are summarized in a letter written by Secretary Root, which accompanies the report. The letter says:

"The findings of this court of inquiry, which are sustained by the evidence, show that the statements which led to the convening of the court to the effect that Cadet Oscar L. Booz came to his death by reason of injuries received by hazing at the academy, were not true. They show that at the time Cadet Booz was a member of the academy hazing was prevalent there to a deplorable extent; that the present officers of the academy have shown commendable energy, zeal and efficiency in detecting and punishing offenses of this character and that they greatly decreased the practice and improved the public sentiment upon the subject. The findings of the court were placed in the hands of the committee of congress charged at about the same time with the investigation of the subject, and the beneficial action of that committee following by legislation on the subject contained in the act of March 2, 1901, renders further action by the department unnecessary."

FEMALE SLAVERY

Galveston Grand Jury Reports Against an Importing Society.

Galveston, Tex., April 1.—The grand jury has filed its report and been discharged for the term. The report has created a sensation, and is the most scathing document ever presented by a grand jury in this section. The grand jury investigated the importation of women from France for the most debasing of crimes, and directs the police department to arrest the women and drive them out of town and prosecute the property owners. The investigation brought to light the fact that these women are nothing more than slaves, and that they are held under oath and contract in France and brought to this country and sold as property among the men composing a sect or society. The society has grown in strength in Galveston, and the public is thoroughly aroused. The police force has been charged with accepting favors from this society.

This is the gravest crisis from the point of view of Japan, since her war with China."
