PEACE ADVOCATES

Receive An Effectual Answer From
General Bell In Batangas
Province.

HE PROPOSES THE BEST METHOD

The General Proposes to Wage a Vigorous Warfare Until the Insurrection Is Completely Subdued—Late Steps Are Proving Very Effective.

Manila, Jan. 6.—General J. Franklin Bell is conducting a vigorous campaign in Batangas province. Every available soldier is in the field. The columns under the command of Colonels Wint and Dougherty are doing excellent work and driving the Filipinos in all directions. A number of the latter are fleeing to Tayabas province, where the native constabulary are rendering valuable assistance in capturing men and rifles.

The advocates of peace at Manila deprecate the stern measures employed by General Bell. In reply General Bell says that these peace advocates have had numerous opportunities to use their influence, as they have been given passes through the American lines almost for the asking, and that it has been afterward proved that they often only went through the lines for the purpose of assisting the insurrection. General Bell says that the best peace method now is a rigorous warfare until the insurrection is completely subdued. The arrest of members of the wealthy Lopez family and the confiscation of their steamers and rice, as well as the arrest of three members of the religious corporations who were known to be instigators of the insurrection, has had an excellent effect upon the natives.

Conditions in the island of Samar are still unsatisfactory owing to the difficulty of finding the insurgents. Captain Schoeffel of the Ninth infantry, who was wounded in a severe hand-to-hand fight last month at Dapdap, Samar island, between 18 men of Company E of his regiment and a large force of bolomen, has practically recovered from the effects of his wound. In an official report of the encounter in which Captain Schoeffel was hurt, it is said that Schoeffel killed three men before he received his wound, and that the remnants of the detachment of 18 men were saved by his personal courage and daring. The civil authorities say that the island of Leyte is now perfectly peaceful.

On the other hand, the military authorities consider Leyte to be dangerous on account of its proximity to Samar. If for no other reason. Last Friday Major Albert L. Meyer of the 11th infantry captured quite an extensive arsenal and plant for the making of cartridges at Ormoc on the northwest coast of Leyte. Major Meyer also captured another powder factory, large quantities of ammunition, four cannons and several rifles.

A LIMITED VIEW

Big Court Parade In Peking Will Be Quite Exclusive.

Peking, Jan. 7.—The Chinese officials have requested the ministers of the powers to keep the legation guards within their quarters today in order to prevent the possibility of a collision between the Chinese and foreign troops on the occasion of the court's return to Peking. The ministers will comply. The families of the foreign diplomats will occupy the buildings which the Chinese government has tendered them for the purpose of viewing the parade. There is much criticism of this course among the foreigners who are not satisfied with the fact that the ministers alone are to remain in the legations. They believe the event should be completely ignored. They say the presence of any members of the legations will be construed as being a sort of homage to the court and will be thus proclaimed among the people.

A GERMAN SENSATION

The Latest Duel There Smacks Much of Murder.

Berlin, Jan. 7.—Full narratives of the duel fought last Thursday at Jena in which Lieut. Thieme of the 94th regiment, killed a student of Halle university named Held, by shooting him through the heart, are producing a deep sensation throughout Germany. Lieutenant Thieme is the best pistol shot of his regiment, and pistols were selected by the court of honor, composed exclusively of army officers, notwithstanding the fact that the student societies proposed the use of sabers. The court of honor stipulated that five shots be exchanged between the duellists, consequently Held had little chance of escape. He was killed at the third exchange of shots.

The duel resulted from a party of students having jostled some army officers in the street. Held was with the students and he slapped the face of Lieutenant Thieme, who was in plain clothes.

DISGRUNTLED EMPLOYEE

Lying In Wait He Kills Foundry Superintendent.

Springfield, O., Jan. 7.—John G. Sadlier, the superintendent and general manager of the Springfield Foundry company and the Indianapolis Frog and Switch company, was shot and instantly killed yesterday afternoon by an employee who had recently been discharged. The murderer is now in the hands of the police. He is John W. Kenney, a moulder who has recently made threats of taking Sadlier's life.

A Horrible Suicide.

Morris, Ills., Jan. 4.—There was a frightful suicide at Coal City, 10 miles southeast of this city. Joseph H. Bovine, a leader among the Bohemians in the coal fields, had trouble with his wife in the morning. He brooded over the matter until afternoon, when he went to the village and secured a stick of dynamite. On his return he went back of his barn, and lying on his back, placed the dynamite beneath his vest. With his hands he struck the cap and exploded the dynamite. The explosion tore a great hole in the earth and blew the man's body into countless pieces.

It Was Their Last Sleep.

Forest Hill, La., Jan. 7.—Two children of G. B. Keener, one aged 18 months and the other an infant, were found dead in bed yesterday with their skulls crushed. Keener sent his wife about 120 yards from the house to a water-hole for water. On her return he told her he had put the two children to sleep, and left the house. Shortly afterward Mrs. Keener discovered that both the children were dead with their heads badly crushed. A coroner's jury held Keener for murder and he was arrested.

A Row In Sight.

Mexico City, Jan. 7.—It is thought now that the arbitration question in the Pan-American conference will be determined one way or another tomorrow. Whether or not the solution will be the disruption of the conference will depend on whether the 10 delegations who favor compulsory arbitration will accept a compromise measure to be offered to them on lines suggested by W. J. Buchanan of the United States delegation. The Mexican delegation will, however, present the compromise.

Mormons Invade Germany.

Berlin, Jan. 6.—The German Mormon conference has assembled here under the leadership of Hugh J. Cannon, son of the late George Q. Cannon, the well known Mormon apostle. One hundred and twenty-five Mormon missionaries are now working in Germany, and have secured 2,000 followers. The present conference is attended by more than 100 of the German missionaries.

Will Go to the Gallows.

Peublo, Col., Jan. 3.—Lawrence Hex, colored, has been sentenced to be hanged during the week of April 13. Hex was convicted of killing William White and Mrs. Lizzie Allie, both colored, two months ago. This is the first death sentence since the restoration of capital punishment in Colorado.

Strange Indian Coffin.

Portland, Ind., Jan. 7.—While cutting through a log at a Fort Recovery mill, the employees struck a skeleton. Some think it is that of an Indian.

A River Tragedy.

Corunna, Spain, Jan. 7.—A bark has capsized at the mouth of the river Lezoro and 23 persons, mostly women, have been drowned.

A Miraculous Feat.

"It seemed that nothing short of a miracle could save my little daughter from an untimely death," says City Marshall A. H. Malcolm, of Cherokee, Kan. "When two years old she was taken with stomach and bowel trouble and despite the efforts of the best physicians we could procure, she grew gradually worse and was pronounced incurable. A friend advised

Dr. Miles' Nervine

and after giving it a few days she began to improve and finally fully recovered. She is now past five years of age and the very picture of health."

"Pin Your Faith to Enk's"

A TRUE AND CERTAIN CURE FOR

Tuberculosis

(CONSUMPTION)

The ENK MEDICINE CO. announces the discovery of a true and certain cure for that arch foe to human health, Tuberculosis. The announcement is made with a full appreciation of how it is likely to be received by the public. Our directory has been divided upon the question whether such an announcement might not discredit the entire work of Enk Preparations in the minds of the general public. But the astounding record made by this marvelous remedy has finally overbalanced every other consideration. The remedy has

Never Failed to Cure

after fair trial in many cases. We have cured cases where the patients have been confined to their beds for from four to five months and were apparently in the last stages of the disease. All made complete recoveries and are in good health today. We have had no deaths.

THE COMPLETE CURE CONSISTS OF THREE VIALS, viz:

VIAL "D"—For Hectic Fever, to be used only until pulse and temperature are normal.
VIAL "E"—For debility, night sweats, and the removal of already present tuberculous masses from the system.
VIAL "F"—For preventing the metamorphosis of tissue constituting tubercles.

With the first few doses of Vial "F" the formation of tubercles positively ceases and all progress of the disease is stopped. This we have ascertained by repeated experiment. The process is simple: we supply a certain element which is lacking in all systems where tubercles form and supply it in a form that the system cannot reject or cast out. All food contains this element, but the consumptive does not assimilate it. We reopen the way and restore lost function.
This remedy cures "white swelling" just as readily, or any form of Tuberculosis. The effect is immediate.

THE PRICE OF EACH VIAL IS \$1.00

The relative amounts used in a number of cases varies considerably. For instance, we had one case of a bed-ridden consumptive who only used the fever remedy three days. He made a beautiful recovery, sitting up a little in three days, had his clothing on in a week and drove seven miles to town in three weeks. He is doing farm work today.

An Awful Disappointment.

"The most disappointed man I ever saw," said a Baltimore financier, "was a poor wretch who was about to be hanged in one of the northeastern counties of Maryland. I happened to be there about the time and accepted an invitation to witness the execution. This fellow's lawyers had been working hard to save his neck, and there seemed to be some possibility that he might be reprieved. The time set for the execution arrived, however, and the sheriff made plans to carry out the execution. The march to the scaffold had begun, and the prisoner was about to mount the steps when a messenger arrived, waving a telegram in his hand.

"The procession was at once stopped, and the sheriff took the telegram, but saw that it was addressed to the condemned man. He handed it to the fellow, who, trembling with hope, tore open the envelope. He cast his eager glance at the message, paled and let it drop from his hand. The sheriff picked up the paper, read it, and the march to the scaffold was resumed. In a few minutes the man who had hoped for a reprieve was in eternity.

"The message was from some minister who had become interested in his case. It told him to trust in the Lord and he would be saved."—Washington Post.

An Evening Call.

"I called on Perkins last evening," remarked Mr. Brown.

"Did you have a pleasant time?" inquired Mrs. Brown.

"Very. Perkins was beating his wife when I went in."

"What?"

"I say Perkins was beating his wife, but of course he stopped when I came in."

"Well, I should hope so."

"I begged him to go on, but he said some other time would do just as well."

"You begged him to go on?"

"Why, yes. I didn't want to spoil the fun, you know."

"Oh, you brute! Do you mean to say that you could have looked calmly on while he beat his wife?"

"Certainly. Why not?"

"I thought you had at least a spark of manhood left. I suppose you will be beating me next."

"Yes; I think I could if you would play cribbage with me."

"Play cribbage?"

"Yes; that is what Perkins and his wife were doing."—London Telegraph.
