P. L. Andrews Has Praise For Tulsa

Says, Its Future Is Bright and Predicts That It Will Be One of the Great Cities.

Tulsa, La. T. March 9, 1905.

Mr. B. W. Sholly.

My Dear Sir: A few more days of investigation has given me some new impressions of this country that I thought might be of some new interest to my old friends in Decatur and was thereby induced to write you again. The longer I remain the more I am impressed with the fact that this country is destined to become one of the richest and most populous of sections of the nation, that Tulsa is going to become one of the most important cities of the south west, for she possesses the very resources out of which great cities are built. In the first place her railroad facilities are equal to any city in the southwest. She now has four railroads connecting her with the great cities of trade in the west having direct connection with St. Louis and Kansas City as well as the gulf of Mexico. She can compete with any city in the U. S. when it comes to fuel every body here burns natural gas and it does not cost a fortune to enjoy the luxury, but should the gas ever fail the people have but to turn to the vast coal beds of this section, as there are thousands of acres of as good coal lands in the vicinity, as are to be found any where in the country. This city stands upon as fine a bed of coal as can be found. Again surrounding the city is as fine a body of agricultural lands as the country any where affords. Any thing you plant will grow, as soon as the restrictions are removed the Indian can give a good title and this section will fill up with real farmers, who will soon transform an almost unbroken prairie into fertile fields, that will blossom as a rose. They also have as fine sand for the manufacturing of glass as the country will furnish and it is just outside the city, along the Arkansas river, and in connection I may say that the city has raised the bonus asked by a glass manufacturing company for locating here. So taking all these things into consideration, I cannot see what stands in the way of a great future for this place. But things are high. Real estate especially, and some day there will be a decline. I cannot see how it can be avoided unless by the natural advantages presented. Manufacturings are induced to come in, in which case she will certainly keep on going. But a de-

LOOK in YOUR MIRROR

What would you give to be rid of those pimples and blackheads, that sallow complexion, those lustreless eyes? No doubt you would give 50 cents to be cured of constipation, liver troubles, indigestion and dyspepsia. Get rid of these troubles and your complexion will clear up like an April day after a shower. Take

Dr. Caldwell's Syrup Pepsin

Mrs. Mary O. Hahn, No. 3023 Michigan Ave., Chicago, Ill., writes: "For two years I have been troubled with biliousness caused by inactivity of the liver. I had dizzy spells at times, pains across my back and a tired, heavy feeling, with loss of appetite and nervousness. Our family physician prescribed some liver tablets which certainly did not help me in the least. I took Agolarians and other mineral waters, but my constipation became more yellow and my general health worse. Reading one of your little booklets, I decided to give Dr. Caldwell's Syrup Pepsin a trial and am so glad I did. One bottle did more for me than ten dollars' worth of other remedies. I knew at once I had found the remedy. I kept taking it for several weeks, when I considered myself completely cured. My skin is white and smooth as a baby's and I feel in excellent health and spirits, thanks to your remedy."

oline cannot permanently injure her for she will, by force of her resources, and the development of the country about here continue to be a center of trade and prosperity, and if she is successful in her ambition to make a great manufacturing center here she will never meet the fate of our Indiana towns on account of fuel. In the city are four banks and on the first of April a fifth one will begin business. I am told by reliable persons that these banks are making dividends of from 20 to 25 per cent., this looks big but when you consider that they are loaning money at 3 per cent a month the explanation is not so hard. To us, unaccustomed to such things such business looks like robbery. But it is not so regarded here, the people are willing to pay the banks willing to loan and all seem satisfied. The thing most needed here is capital. Outside the banks can be obtained at a more reasonable rate of interest. You can loan all the money you can bring here on gilt-edge security at 10 per cent. This afternoon I had talk with Colonel Short, formerly of Chicago, who told me that if he could get the money, the commissions on the amounts of loans he would make would amount to \$2100. I am satisfied that a company with capital back of it engaged in the loan business here could make a barrel of money. If the banks can demand and receive a 3 per cent. a month why should not others do the same thing if they have the money to loan. My idea of a course to pursue would be to organize a company and make one or more of its members an agent who could charge a commission on all loans, and turn the commission back into the treasury of the company and thus make each loan pay 15 or 20 per cent. instead of the 10 or more charged as interest. What do you think about it? It seems to me that that could be done. There is no question about the title to real estate in this city, as a Title Guarantee Co., with a capital of 1/4 million dollars, will stand behind every piece of title they examine. I believe that if eastern people really understood the situation here that money would be plenty. I do not think there is the least fear of a Kansas experience here. Another thing I might mention is the fact that the only taxes paid here is a municipal tax and it's all that will be paid until after statehood is an accomplished fact. Very Respectfully yours,
P. L. Andrews.

The Colonel's Waterloo

Colonel John M. Fuller of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and, although I tried my family Doctor, he did me no good; so I got me a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure, Dyspepsia, Biliousness and Kidney Disease, by Blackburn and Christian druggists, at 50c a bottle.

Virtue's Quick Reward.

"Nothing ever better illustrated to me," remarked the doctor, "the old adage, 'Virtue is its own reward,' than an experience I had the other day. Called for the first time to a patient who was desperately ill in addition to being penniless, I gave her \$5 with which to purchase the necessities of life. The next morning I received a note from her not to call again. Later I learned she had called in a homeopathic physician, to whom she paid a fee of \$2, and with the remainder of my charitable contribution she paid a monthly installment on a phonograph."—New York Press.

What the Hand Symbolizes.

Look where we will, we find the hand in time and history, working, building, inventing, bringing civilization out of barbarism. The hand symbolizes power and the excellence of work. The mechanic's hand, that minister of elemental forces, the hand that hews, saws, cuts, builds, is useful in the world equally with the delicate hand that paints a wild flower or molds a Grecian urn or the hand of a statesman that writes a law. The eye cannot say to the hand, "I have no need of thee." Blessed be the hand! Twice blessed be the hands that work!—Helen Keller in Century.

The Bliss of Riches.

"Money," said the wise man, "does not bring happiness."
"Oh, yes, it does," said the still wiser man, "if you have just enough of it."—Chicago Tribune.

Startling Mortality

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, of 14 Custom House Place, Chicago, says: "They have no equal for Constipation and Biliousness." 25c at Blackburn and Christian druggist.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted. Her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

Incredible Brutality

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve which quickly healed it and saved his eye. Good for burns and ulcers too. Only 25c at Blackburn and Christen's drug store."
