# People Tell Each Other About Good Things.

Fourteen years ago few people in the world knew of such a preparation as a Powder for the Feet. Today after the genuine merit of Allen's Foot-Ease has been told year after year by one gratified person to another, there are millions who would as soon go without a dentifrice as without Allen's Foot-Ease. It is a cleanly, wholesome, healing, antiseptic powder to be shaken into the shoes, which has given rest and comfort to tired and aching feet in all parts of the world. It cures while you walk. Over 30,000 testimonials of cures of smarting, swollen, perspiring feet. It prevents friction and wear of the stockings and will save in your stocking bill ten times its cost each year. Imitations pay the dealer a larger profit, otherwise you would never be offered a substitute when you ask for Allen's Foot-Ease, the original powder for the feet. Imitations are not advertised because they are not permanent. For every genuine article there are many imitations. The imitator has no reputation to sustain—the advertiser has. It stands to reason that the advertised article is the best, otherwise the public would not buy it and the advertising could not be continued. When you ask for an article advertised in this paper, see that you get it. Refuse imitations.
