

New Advertisements.

Do rr.—Prepare for the fall trade adprise. *WHAT YAN*

CORN.—Under the favorable weather of the past week, corn is developing rapidly. Farmers begin to talk a little more hopeful of their favorite crop.

CHANGE OF FIRM.—W. R. Dorwin, of the firm of Dorwin Brothers, druggists, sold his interest in the establishment to R. S. Peterson of this place. The transfer took place last week.

NOTICE.—Those of our subscribers who have heretofore had the *Eagle* delivered by carrier, in future will call at the office for their paper. Our "devil" has "vamoosed the ranch" and we don't wish another.

SABBATH SCHOOL CONVENTION.—The Sabbath Schools of Adams county will hold their first annual meeting on Thursday, the 12th inst., in the grove south of Decatur. Rev. N. S. Smith, Rev. A. R. Stone, and Mr. A. S. Evans, of Fort Wayne, will address the schools. Speaking to commence at 10<sup>th</sup> o'clock A. M.

BILLIARDS.—The extreme hot wet weather that we have been favored with this season is developing a considerable amount of "ager" and kindred billious diseases. Already the calls upon physicians are becoming unpleasantly frequent, and the probability is that by the first of September the "shakes" will be quite as common as it used to be, within the memory of the "old settlers."

CHEAP NOTORIETY.—If a young lady wishes to have herself published as "fascinating, beautiful and accomplished," let her pack up her clothes in dirty towel, crawl out of the back up stairs window, some dark rainy night, and elope with the man that feeds and curries her father's horses. It's a big price to pay for compliments; but it will bring them just as sure as a dirty barrel will beget mosquitoes. In fact, we never knew a woman to make a very decided fool of herself, in any way, without enhancing her value two or three hundred per cent. by the time it got into the papers.

NEW BOOK.—We have received from the publishers a copy of a new work, the "Secret History of the Southern Confederacy," by Edward A. Pollard. The author was, during the war, a member of the Richmond press and enjoyed the confidence of the leaders in the "Lost Cause." He is thus enabled to give an authentic history of that bloody drama, as viewed behind the scenes, which we all have cause to remember. It is a work of thrilling interest, and will doubtless command an immense sale. The book will not be for sale in the book stores, but is sold by subscription only. An active agent is wanted in every county. Here is an opportunity for some one to make money. Address, National Publishing Company, 128 South Clark street, Chicago, Ill.

FEMALE SUFFRAGE.—Parson Jones is trying to fool the women into the filthy pool of politics. Some of these virile agitatoresses have invited him to walk into their parlor, and he walked. Jones has got it bad. Infatuated man, like Solomon; if your life is spared until this thing sours, you too will perish of vanity. But go ahead, friend Jones. Agitate 'em; it makes 'em feel good; they like it. These lovely she Radicals love to take the "bull by the horns." We can imagine how Jones pranced at the first onset, but he is docile now.

Jones! Jones!

Who'd have thought it—not we.

As he is fully committed to female suffrage and progressive "woman's rights," future numbers of the *Republican* will doubtless contain long leaders on the absurdity of the marriage contract, "affinities," etc.

DAMP.—A brother chip in response to a subscriber who grumbled that his paper was intolerably damp, replied that it was because there was so much due on it. Wonder if some of our subscribers don't find the *Eagle* "intolerably damp?"

CLEAN YOUR WHEAT.—A writer in the *Toledo Blade* calls "the especial attention of farmers and shippers of wheat along the line of the Wabash Railway to the subject of cleaning wheat. A considerable proportion of the wheat received by this route is not well cleaned and is therefore graded below what it would be if divested of dirt and other foreign substances that can be removed with a little attention and care. It is a matter of general regret to our commission merchants that their Indiana friends bestow so little care upon their grain after it has been harvested; the result of this want of care is dirty grain, a low price, and a discrimination against it on the part of buyers. A word to the wise is sufficient."

OF INTEREST TO OUR TOWN.—The true secret of the growth of any place is mainly owing to the inducements and encouragement held out to strangers to settle there. Encourage live, active and worthy men, whether they have money or not. Their labor alone is worth money. Stimulate every legitimate enterprise by giving to it all the friendly aid in your power. Cultivate a public spirit and help your neighbor, if he is in danger of breaking down help him up. If he gets fairly down before you know his situation, set him upon his feet again, his misfortune is to be pitied, not blamed, and his talents and labor is worth money to the community. Besides it may some day be our turn to need a corresponding sympathy. Let us speak well of our neighbors—Talk well and encouragingly of our town, of its growth, its prospects, its advantages, and in short, everything likely to advance its welfare.

WATER SPOUT.—The northeast portion of the town was visited by a water spout, on Tuesday evening. Quite a number of our citizens were attracted by the strange phenomenon. Others, thinking it dangerous, attempted to stop the flow of visitors by stretching a cord across the sidewalk, upon the same principle that foolish Indians recently attempted to catch a locomotive to ride it. It did not succeed.

Under no circumstances will an examination be given on any day other than here advertised.

Teachers will be required to pass an examination in the exact branches required by law.

SAM. C. BOLLMAN,  
July 12, '67-tf. S. Ex. A. C.
