H. HELLER, MANAGER.

The vote in Vermont is gradually simmering down until a comparison of the vote Tuesday with the vote of former elections shows that the republican victory is not a victory, it is not a gain over four years ago. But what does the vote in Vermont amount to, anyway? Why, we could lose it out here in the fertile fields of Indiana.

Western republicans will doubtless be surprised to learn that Henry Wolcott, of Denver and of Albany, N. Y., has determined to desert the republican party, with which he has been identified actively all his life, and vote for Judge Parker. Mr. Wolcott does not intend to take an active part in the democratic campaign either in the west or in New York, because of the fact that his brother, Edward O. Wolcott, is the republican leader of Colorado, and hopes to regain his seat in the United States senate this fall by carrying the state for President Roosevelt and electing a republican legislature.

Because he honestly believes Judge Parker better fitted than President Roosevelt for the office of president of the United States, Spencer Trask, the head of the banking house of Spencer Trask & Co., has determined to support Judge Parker this year. Mr. Trask, while not a republican of the pronounced type, was a personal friend of James G. Blaine, and supported him for president as against Grover Cleveland in his first canvass. When Mr. Cleveland was nominated the second and third times for

president Mr. Trask supported him on both occasions because of his record as the chief executive of the United States.—South Bend Times.

Dr. H. O. Wells, at the Murray Hotel

Dr. H. O. Wells, the well known rectal specialist of Fort Wayne, will make another professional visit to Decatur next Tuesday, September 13th, from 8 a. m. to 12, where he may be consulted by any one suffering from any form of rectal disease or chronic constipation.

Dr. Wells treats all forms of rectal diseases, including piles, fissure, fistula, itching, bleeding, ulceration or paralysis of the lower bowel.

Those who are afflicted with any of the above mentioned diseases and especially those who have been unable to get satisfactory treatment elsewhere, are invited to call on Dr. Wells at the hotel. Many ladies who are supposed to be suffering from some form of "female weakness" are in reality afflicted with rectal disease or impaction of the lower bowel. Dr. Wells recently treated a lady who had been ill for two years and spent several hundred dollars, being treated for female trouble, which did not exist. She was immediately relieved by the proper rectal treatment. Irritability of the bladder and frequent desire to urinate are frequently reflex from rectal disease.

Chronic constipation or impaction of the lower bowel bearing down upon the pelvic structures, is a more prolific source of diseases of women than all other causes combined.

Constipation is often caused by obstruction in the rectum, either from pile tumors or "rectal pockets" which are folds of mucous membrane stretched across in such a way as to act as an obstruction. In such cases the constant taking of physic is necessary but does not cure. If you suspect that you have internal piles, or any form of rectal obstruction it would be advisable for you to call upon Dr. Wells and get his opinion of your case. Those suffering from piles are absolutely guaranteed a cure, it does not matter how bad the case may be nor how long it has existed. No charge unless cured.

Consult Dr. Wells and learn something new. No cutting. No pain. No detention from business. Consultation free. H. O. Wells, M. D., 723 Clinton St., Fort Wayne, Ind. d&w thurs

DECATUR, INDIANA.

CORNER EAST COURT HOUSE.

passing through some very beautiful mountains scenery, I arrived in Atlantic City about 10 o'clock at night, and the first thing I did was to go down to the "board walk," which at this time of night is one of the grandest sights that one can look upon, as one will never forget this sight in their life time. This board walk is 60 feet wide and seven miles in length, running parallel north and south with the city on the west and the wide ocean on the east. It is built of steel posts about 15 feet high, the walk being on top, with iron banisters on each side. During high tide the water comes up to the posts and during low tide there is a distance of two hundred feet to the water. This beach is the finest of white sand, and one may sit down with their best clothes on and will not soil them. You can see ladies with fine white dresses on sitting down in this sand and never soil them. During the day you may see from ten thousand to one hundred thousand along this beach. You stand watching this large crowd of people at their different amusements. You become so confused that before you are aware of it you have donned a bathing suit and are out in the large waves participating in the sport, which without a doubt is very beneficial, as well as amusing. This continues until evening when everybody is seen on the board walk, with the finest costumes that can be had. They are out on this walk as late as two o'clock a. m.

The walk is brilliantly illuminated with electric lights, and some of the grandest displays can be seen here; also on the large steel piers, that extend out into the ocean, some of them being one mile long. People walk out on these to get the beautiful ocean breeze and watch the bathers. There is also any kind of an attraction on them that can be seen any place. On these piers is where the large nets are kept and are raised every day, tons of fish being raised with them. The U. S. Life Saving Station is also along this board walk, it being another grand and interesting sight. Standing on the walk you can see a hundred of the beach patrolmen dressed in red uniforms, ready to plunge in to the water should they see some person in danger. During the height of the season, there is one-half of these men sitting in their boats stationed out along the danger line, guarding the bathers that they will not go out too far. After spending a few days here one becomes so attached to this place that it is almost impossible for him to leave it, but after a few attempts I finally succeeded in boarding a train and bid Atlantic City farewell and started for Washington, D. C.

A FAIR OFFER MADE BY THE HOLTHOUSE DRUG COMPANY TO ALL SUFFERERS FROM CATARRH

The Holthouse Drug Company are selling Hyomei on a plan that has caused considerable talk amongst their customers. The plan is different from that followed by other remedies, but the remedy itself is different also. This treatment for the cure of catarrh has such an unusual record of cures to its credit that the Holthouse Drug Co., offers to refund the money if it does not give the desired benefit. This is certainly one of the fairest offers that can be made and any one who has catarrh and does

not take advantage of it is doing himself or herself an injustice.

The Hyomei treatment consists of a small hard rubber inhaler that can be carried in the vest pocket or purse, a medicine dropper and a bottle of Hyomei. The complete treatment costs but \$1 and as the inhaler will last a lifetime the medicine is very inexpensive. Many people who have used it write that for the good Hyomei has done them they would willingly pay thousands of dollars.

Extra bottles of Hyomei can be procured for use with the inhaler at 50 cents. Do not suffer any longer with tickling, smarting, burning, eye-watering troubles that afflict those who have catarrh. Hyomei will cure you, but if you should not find it adapted to your case the Holthouse Drug Co., will return your money.
