RELIGION THE BEST.

When Mr. Bryan in an recent address to college students in an Illinois town declared that he would rather talk on religious than on political topics derisive laughter was indulged in by some of the unruly spirits among the audience. That was anything but creditable to those guilty of such rudeness. There is reason to believe that Mr. Bryan was entirely sincere in so saying. Mr. Bryan has been in politics long enough to know that there is a great deal of hollowness, if not absolute humbuggery, in politics as popularly understood—and practiced. Not so with what may truly be designated as religion. In using the term religion it must not, however, be confounded with dogma or creed. Religion arises far above either. It "means the conscious relation between man and God, and the expression of that relation in human conduct." Therefore it applies to every-day action, and this certainly constitutes an all-important topic for intelligent discussion. Politics, in its higher sense, means "science of government," but in its baser sense it relates to putting one set in and another set out. There is but little doubt that Mr. Bryan has found far more satisfaction in delivering his lecture on "High Ideals" than he has found in talking about the follies of mere politicians.—South Bend Times.

Senator Lew V. Urey, of Fort Wayne, says the Indianapolis Star, will not come out for the nomination as a candidate for congress on the democratic ticket in the 12th district, as he wants to return to

the senate and will be candidate for re-nomination next year. The senator is very popular in Allen county and can have almost anything he wants in the political line.

PAID FINE

Saloon Men Got Ten Dollars and Costs.

The saloon men who were arrested yesterday on affidavits and information filed by Mrs. Jesse Anderson, had their hearing before Mayor Coffee at seven o'clock last evening. They each plead guilty and were fined ten dollars and costs, totaling \$18.30. Matthias Schafer plead not guilty and put up a battle, but the evidence against him was conclusive and the court gave him the same dose as the other defendants got with a little extra for costs. All the fines were paid.

THE SCHOOLTEACHER.

How a Young Man Fresh From College Makes His Start.

A young man fresh from college who decides to become a schoolteacher has many things to consider. The profession, if it can be called a profession, is still unorganized. No standard of excellence, no diploma certifying ability, is required. Methods of teaching in public schools in New York state are very different from those in Colorado, and those in Utah are different from those in Buffalo. There are private schools of all kinds. There are almost as many methods of teaching arithmetic as there are of teaching vocal music. To obtain his first position he ordinarily joins an agency. He takes to the agency his record at college, supplemented by as many pleasant recommendations from his professors as possible, pays his yearly fee and promises the agency a certain percentage—5 per cent usually—of his first year's salary. Occasionally his college will find a place for him in one of the schools that prepare directly for it. At any rate, he will find without great difficulty a position that will support him. Perhaps it will be in a little denominational boarding school, where he will teach thirteen different subjects during his first year, as one man I know did. If he survives his first year successfully and with some measure of content in the work he is likely to be a teacher for the rest of his life.—Leslie's Monthly.

SOUTHERNS GOOD FORTUNE

SAM HOOVER FINDS SOMETHING BETTER THAN GOLD MINES.

There is no happier man in this whole wide world today than Sam A. Hoover, of Greensboro, N. C., who is receiving the congratulations of his friends upon his fortunate find of something better than gold mines or oil wells. Mr. Hoover in a letter to a friend in Decatur writes:

"Three months ago I was greatly distressed by nasal catarrh and entire deafness in the right ear. The labor of hawking and scraping to get my throat and nasal passages free from the foul secretions deposition there, might be about equal to that of a six mule team with a road scraper to get the earth from the roadside to the center."

"I purchased an outfit of Hyomei and Hyomei balm, and as a result of its use my head, throat and nasal passages are all free from secretions of any sort, only as Nature designed, and my hearing in both ears is nearly as acute as it ever was."

There is no disagreeable stomach dosing in using Hyomei; just breathe it and its pure fragrance will kill the catarrhal germs in the head throat and lungs. Hyomei balm will cure in connection with Hyomei, will cure the worse case of catarrhal deafness.

The complete outfit costs but \$1, and extra bottles are only 50 cents. Ask the Holthouse Drug Co. to show you the strong guarantee under which they sell Hyomei. It costs nothing unless it cures.

The Gold in the Ocean.

The fact that sea water contained gold was first made patent, we believe, by the observation that the deposit on the copper plating of jetty piles in sea harbors was comparatively rich in the precious metal. On the estimate that a ton of sea water contains approximately one grain, the yield would amount to something like 200 tons of gold per cubic mile and, as the volume of the world's ocean is estimated at 400,000,000 cubic miles, the total possible yield of gold would be no less than 100,000,000,000 tons—a truly attractive prospect to the company promoter.—London Lancet.

Additional Locals

Joe Tonnellier is confined to his home suffering with a severe attack of the grip, and being crippled badly with rheumatism. He is in a bad shape and has been sick for over a week.

Lew Scott is planning to organize a base ball club to play in this city during the coming summer. Tom Irvin will likely do the pitching while his regular catcher will be behind the bat all the time. Charles, of Marion, will also be a member of the team and the rest of the players will likely be made up of Bluffton players.—Bluffton Banner. This is more Bluffton hot air and ten chances to one she will not have a ball team outside of the high school. However, if such good misfortune should overtake them, Decatur stands ready and willing to make them look like "30 cents," as she did last year.
